Russians Flee as Poles Smash On

Great Polish Military Successes Continue Under Direction of French Officers

MARCHING ON BREST-LITOVSK

Gen. Weygand of France in Active Command of Advancing Polish Forces

French Battleships Rush to Danzig to Aid in Unloading Polish Munitions

PARIS, Aug. 20. (By Associated Press).—The military successes of the Poles continued yesterday, according to a report to the foreign office today from the military mission in Warsaw, under plans elaborated by the French general Weygand and his staff of more than 600 French officers.

All these officers now are either actively in command of the forces that are freeing Warsaw from the Russian soviet menace or are aiding the Polish commanders.

It is considered that French and Polish co-operation in the commands of the various forces now has reached a satisfactory stage.

The situation at Danzig is still causing worry, but it is expected to be cleared up when two French battleships, now on their way there, arrive and offer Sir Reginald T. Tower, the allied high commissioner sufficient force to control the docks and permit the unloading of Polish munitions.

Russian War Report
LONDON, Aug. 20.—The Russian soviet forces have abandoned Lukow, 68 miles southeast of Warsaw and Radlin, 50 miles to the southeast of the Polish capital, according to Thursday's communiques issued by the Moscow government. The communiques claim that the Poles were driven back seven miles from Ciechanow, 45 miles northwest of Warsaw.

The statement reads: "The fighting at Plosk (northwest of Warsaw) continues. Southwest of Ciechanow."

CONTINUATION SCHOOL

Arrangements Made to Hold Classes Afternoons in High School Annex

By a rearrangement of the hours of the freshmen class of the high school when the new school term opens in September, the high school annex in Paige street will be given over five afternoons a week for the use of continuation classes of boys and girls between the ages of 14 and 16, as provided in a state law which goes into effect in September, Hugh J. Molloy, superintendent of schools, announced today.

Instead of beginning their session Continued to Page 5

EXPLOSION KILLS TWO

2000 Gallon Gasoline Reservoir Blew Up at Syracuse, New York

SYRACUSE, N. Y., Aug. 20.—Two men were killed and 12 hurt today, when a 2000 gallon gasoline reservoir, the property of the C. E. Mills Oil Co., exploded. Fragments of the station were blown around a radius of three blocks. The explosion was heard miles away.

Tons of dirt and heavy timbers were taken from the hole which was at least 10 feet deep, before the bodies of the victims were recovered. Thousands of workers in the vicinity became panic stricken when bricks and heavy mortar slabs blown high into the air struck the surrounding buildings, in some instances going through the roofs. Persons nearby at the time were covered. The dead are H. R. Greenland, 23, and Harry S. Watkins, 30.

RENEW FIGHT ON SUFFRAGE

"Antis" Prepared to Seek Reconsideration of Vote by Tennessee House

Both Sides as They Line up for Skirmish Confident of Result

NASHVILLE, Tenn., Aug. 20.—Anti-suffragists were prepared today to seek reconsideration of the vote by which the Tennessee house ratified the federal suffrage amendment. Speaker Walker, who changed his vote from nay to aye so he would be in position to move reconsideration, said he would make a motion that the house rescind its action. His privilege to do so under house rules expires tonight.

Both suffrage advocates and opponents as they tightened their lines for the final skirmish expressed confidence in the result. Encouraged by Wednesday's vote of 50 to 46 for ratification, suffragists predicted that they not only would hold their majority in line, but would have the added support of two of the three house members who were absent.

Suffrage opponents, however, announced that 47 members of the house had signed a pledge to vote to reconsider the ratification resolution. Several other assemblies, they predicted, would line up with the anti-suffrage forces before the proposed roll call.

NEW ARRESTS IN PLOT TO KILL VENIZELOS

ATHENS, Aug. 15.—Among the new arrests in the attempt to assassinate Premier Venizelos and the alleged plot to restore former King Constantine to power is that of Col. Calomnopoulos, a leader of the nationalist movement.

The investigation continues to produce evidence that at least some royalists here were aware that an attempt to assassinate the premier would be made and that it was intended simultaneously to overthrow the government, fire the arsenal and arrest or kill the cabinet officers.

The government obtained information regarding the plot and put out patrols, frightening the royalists.

HARD COAL TO GO UP \$2 A TON

Sweeping Advance in Practically All Grades Will Come Within Fortnight

Dealers Say Increase Necessary to Balance New Card of Freight Rates

No Signs of Fuel Shortage—Similar Raise Probable for Bituminous Fuel

The people of Lowell are facing a boost in the cost of hard coal that will probably amount to \$2 per ton. The advance will probably become effective sometime within the next two weeks.

The advance will be made necessary, dealers say, by the increase in freight rates of 40 per cent. that is to go into effect August 26.

Information regarding the new rates was received today by W. F. Whitcomb, traffic manager of the chamber of commerce. Under the old rates coal could be brought from Mystic wharf or Boston to Lowell for

"AS YOU WERE" REPLIED THE COURT

As Ben O'Hara, charged with drunkenness, settled up his affairs in the local court this morning, he slapped two brand new \$10 bills down on the judge's bench, saying: "Here's \$20 from the Irish Prince."

The money was gently but firmly pushed back into his hand by the court and Benjamin turned to leave the room. As he reached the door, he clicked to attention and facing the judge, snapped a salute, with the words: "Your Honor, I salute you."

HELD ON CHARGE OF ATTEMPT TO KILL

WHITEFIELD, N. H., Aug. 20.—Summer Riley, colored, alleged to have stabbed Mary Davidson, also colored, in the Mountain View hotel here, early Thursday morning, was arraigned in municipal court this morning on a charge of assault with intent to kill.

He pleaded not guilty and was held in \$5000 for the September terms of superior court.

Riley escaped in the woods following the alleged attack and was apprehended after an all day search by Woodbury Glidden and Arthur Wilkins, members of a posse, armed with shotgun, hurriedly organized. He surrendered without a struggle.

Ex-Sec. Wilson Ill
TRAER, Ia., Aug. 20.—James Wilson, former secretary of agriculture who has been ill at his home here for several months, is reported in a critical condition. He was 56 years old Monday.

LOWELL WOMEN AND THE BALLOT

Will Have Chance to Vote in State Primaries Unless Tennessee Reconsiders

More Registration Sessions if Amendment Becomes Law Prior to Sept. 7

If the action of the Tennessee legislature in ratifying the 19th amendment to the constitution is not reconsidered, Lowell women will undoubtedly have the opportunity of voting at the state primaries two weeks from next Tuesday, Sept. 7, according to the best information available at the office of the local election commissioners.

Since the announcement that Tennessee had ratified the suffrage amendment, many Lowell women have been anxious to learn what will be their first opportunity to vote. If the Tennessee vote is not changed, the amendment will be operative as soon Continued to Page 3

MINERS FAIL TO REACH WAGE AGREEMENT

CLEVELAND, O., Aug. 20.—Officials of the United Mine Workers of America concluded their conference here yesterday and departed for their homes in various parts of the country, after having failed to reach a wage agreement with the bituminous coal operators of the central competitive field.

There will be no general suspension of the work, John L. Lewis, president of the mine workers, declared, before boarding a train.

"I anticipate the whole matter can be adjusted without inconvenience to the public," he said. "There may be sporadic strikes, in fact some localities were out yesterday when they heard the conference was not getting any where."

At a policy meeting of the miners here yesterday it was decided to meet the operators separately in the four states of the central field—Ohio, Indiana, Illinois and western Pennsylvania—and make separate supplemental wage agreements.

President John Moore, of the Ohio Mine Workers, announced that the Ohio executive board will meet in Columbus Monday afternoon to decide when and how to request a scale conference with operators of this state.

Mr. Moore said the Ohio miners would remain at work and that efforts would be made to supplement the present agreement, which continues in

force with whatever increases are obtained throughout the central field. Frank Farrington, president of the Illinois miners declared that the miners of that state would meet the operators in Chicago Monday. The original demands of \$2 a day increase for day or month men, for which the Illinois miners went on strike several weeks ago, would be presented, he said.

Miners' officials believed that an agreement would be signed quickly in Illinois and that Indiana operators were expected to resist making an agreement.

GETS SIX MONTHS FOR NON-SUPPORT

MONTPELIER, Vt., Aug. 20.—George Tinkham was sentenced by Judge Edwin M. Harvey in Montpelier City court yesterday to from six months to two years for non-support of his wife and three children.

Tinkham is 25 and his wife 18. He worked with a Central Vermont construction crew and received \$3.20 a day, board and sleeping quarters. He gave his wife \$3 to live on for three weeks, according to her story.

TO RECEIVE BIDS FOR HOG ISLAND OCT. 1

WASHINGTON, Aug. 20.—The shipping board last night announced that bids for the purchase of Hog Island shipyard, Philadelphia, would be received up to Sept. 29. They must be accompanied by certified cheques, the amount of which is to be determined by Chairman Benson, and will be opened Sept. 21.

Possession of the property will be given the successful bidder about Oct. 1, the board said. Title to the property will not pass until full purchase price has been paid.

At the same time, the board announced that bids would be opened Sept. 1 for the purchase of the steel ships of the government merchant fleet.

The vessels are to be sold in accordance with the policy recently announced by Chairman Benson which fixed minimum prices of from \$150 a ton to \$185 a ton for the various types with provision for payments over a period of 10 years. When ships are taken "as is and where is" and the whole amount paid in cash, a discount of 10 per cent will be allowed, the board stated.

From the beginning of the British offensive in 1915, to the time of the armistice, 700,000 tons of artillery ammunition were spent by the British army on the western front.

PRES. WILSON REGAINS FORMER WEIGHT

WASHINGTON, Aug. 20.—President Wilson has regained his normal weight of 175 pounds, according to an article appearing in the Washington Times quoting Rear Admiral Cary C. Grayson, the president's personal physician, as having made that statement yesterday. The article also depicts the president does in a "normal" day at the White House, including the following:

"Exercises his left arm by extending and withdrawing it.

"Shaves himself, sometimes with a safety razor.

"Climbs stairs with a cane to exercise his leg muscles.

"Dictates rapidly and frequently writes shorthand notes of what he wants done.

"Uses an indelible pencil to sign most letters to department officials."

"At the White House it was said last night that Dr. Grayson was out of the city and not expected to return until today. Secretary Tumulty also was out of town and no other official would comment on the article.

Within the last 25 years, the birth-rate has decreased in British and German cities from 36 to 23 for each 100,000 population.

WILL HOLD OUTING AT LAKE ALPHA

An old-fashioned New England boiled dinner—corned beef, cabbage, beans, turnips and potatoes—will be the gastronomic feature of an outing to-morrow at Lake Alpha, in Tyngsboro, of the employees of Hobson & Lawler. The trip to the lake is to be made in auto trucks.

In the afternoon the steamers will meet the plumbers on the baseball diamond. Bertram Nield, an employee in the plumbing department of the

firm, has been a leader in arranging the details for the outing.

TO FORM ARMY AND NAVY UNION

Organization of a branch of the Army and Navy union, a benefit organization open to veterans of all wars in which this country has engaged in the past 30 years is in process in Lowell with Arthur J. Brown taking a prominent part in the work. It is hoped to get the union formally under way early in September. Civil war veterans will be

invited to become honorary members. According to its promoters, the Army and Navy union is not intended to conflict in any way with the American Legion.

LABOR DAY PLANS

Plans for a Labor Day parade were discussed at a meeting of the Trades and Labor council held at labor headquarters last evening. President Warlock presided and gave a detailed report of the proceedings at the recent state labor convention.

WALL PAPER DEPT.

Wall Paper Talks

When your chamber needs new Wall Paper, remember this: Pick a paper best suited to your room. A stripe for a low posted room—an all over effect for a large or high posted room. This season has seen a change in that we find many more all-over effects are being sold. There are many fine tapestry effects now on the market, colored in softer shades for bedrooms. And they make wonderfully clever rooms. Years ago we thought of tapestry papers as suitable only for halls. Today they are sold for nearly all rooms, and they deserve their popularity. Tapestries for chambers come in beautiful pastel shades. Let our salespeople tell you more along these lines.

One of a series of helpful hints for those in need of wall papers.

RUSH OF IMMIGRANTS

25,000 a Week Expected
Soon to Begin Passing
Through Ellis Island

NEW YORK, Aug. 20.—At least 25,000 immigrants a week are expected soon to begin passing through Ellis Island, according to Frederick A. Wallis, immigration commissioner. Steamship companies have reported, he said today, that the incoming tide for the next few years will be limited only by the capacity of the ships.

"Italian steamship lines," said the commissioner, "have reported that there are at least two million Italian applicants for passage to America, and the Jewish sheltering society has made arrangements to receive one thousand Jews a week. There is also an unprecedented rush of German applicants for passage."

In accordance with this resuscitation of immigration, Commissioner Wallis said a complete reorganization of the island is under way and hundreds of additional employees will be added to take care of the rush. Among other changes will be the elimination of the old system of keeping the incoming behind high iron gratings during the examination for admission, and an "honor system" allowing the immigrants the freedom of the spacious walks, will be instituted, he said.

PROBE WHISKEY GIFTS

Hammerstein Summoned—
Charged With Distributing
Whiskey at Theatre

NEW YORK, Aug. 20.—Arthur Hammerstein, theatrical producer, was the principal of some 200 witnesses summoned to appear today before a United States grand jury which is investigating charges that he caused distribution of whiskey to "a surprised but delighted audience" at the opening performance of a musical comedy Tuesday night.

Those subpoenaed, include critics, press agents and the chorus girls who are alleged to have passed out tiny one ounce bottles containing the forbidden beverage which Mr. Hammerstein claimed was "stage tea."

James S. Shevlin, federal prohibition enforcement agent, said the government had one bottle, gleaned from a search of the theatre yesterday to offer in evidence. The bottle, he said, contained about four drops of pure whiskey.

PHILIP ENDS UP RIGHT
WHERE HE STARTED

Philip Letourneau, an operative, of Cheever street, this city, who was arrested by Officers Kilroy and Franchette in Lakeview avenue last night about 10:25 o'clock and booked at the police station on charges of drunkenness and operating an automobile while under the influence of liquor, was arrested again at 3:25 a. m. and locked up at the station on two similar charges, after being released on bail very early this morning.

Letourneau's case would have been called in police court today, but he now awaits trial on four charges on two counts. He was arrested the second time by Sergeant McGuire and Officers John Conway, Shapiro and Wallace in Gorham street near the court house, where his machine was smashed after a collision with another automobile and an electric car. Frank Mitchell, of the same address in Cheever street was also arrested this morning as being with Letourneau and was booked for drunkenness, while another occupant was released with no complaint.

When arrested last night, Letourneau had \$292.05 in his possession, according to the police records, and this morning he had \$70 in Canadian money and \$1.55 in American money. A bottle containing a little "moonshine" was also found on his person, the police say.

After being bailed out this morning Letourneau took his machine, it is said, from the station and picked up his two companions and proceeded to ride around the city. Before he was arrested in Gorham street reports were received at the station that he was seen in Thorndike and South streets. Because of the accident this morning the police had to put on a new tire and straighten the steering gear before they could tow the defendant's machine to the station.

MAN-EATER ON
SHOW AT LAKEVIEW

The real man-eater shark captured off Nahant last Sunday and which has been on exhibition at Garshin's boat house at the Willow Dale entrance on Wednesday and Thursday of this week was on display again today and will be exhibited Saturday and Sunday for other interested spectators. The shark measures 11 feet long and is the one which terrorized beach vacationists about Boston for some time before being killed in Lynn harbor.

Accuracy and promptness backed by our years of experience is a proposition that should call for your serious consideration.

NOW IS THE TIME to have the children's eyes examined before school days begin.

Lowell Women and the Ballot

Continued

As Secretary of State Colby promulgates the new law and notifies the Secretary of each state. When the Secretary of the commonwealth, Albert P. Langtry, gets word from Sec-

retary Colby at Washington, he will immediately notify the local election commission and by that time all the formalities necessary before Lowell women can vote will have been taken care of.

It is the general opinion at city hall that official notification will come before the state primaries unless politics are played in Tennessee and the formal notification of Secretary Colby that the amendment is law is purposefully delayed.

There are at the present time 1531 women in Lowell who will automatically be entitled to vote as soon as the

DENY KOREAN PLOT

Report Attempt to Hold
Americans Called "Ground-
less Fabrication"

WASHINGTON, Aug. 20.—Cabled reports from Tokio that a plot to "hold" the party of American congressmen now visiting the far east, when it arrived in Korea, has been unearthed, were characterized today by Klusio Kimm, chairman of the Korean commission, as "another groundless Japanese fabrication."

"No sane or even insane Korean would dream of holding the American congressional party," Mr. Kimm declared, not only because of the absurdity of such an action, but because the Koreans are extremely anxious at this time to gain the sympathy and moral support of the outside world. What was planned, he said, was to present a memorial to the party, and he quoted despatches to Japanese vernacular newspapers as showing that this object was well understood in Tokio.

amendment definitely becomes law. The election commission through its chairman, Hugh C. McOsker, announced this morning that if the amendment does become law, additional registration sessions for women will be held next week in anticipation of the state primaries. This action will be taken because it is believed that many Lowell women have refrained from registering.

On the 1919 voting list 6331 women were entitled to vote for school committee and since Aug. 2 of this year 1223 additional female names have been added to the list. This brings the total voting strength of the city at the present time, including men and women both, to approximately 25,000.

A number of women have asked if they will be compelled to pay a poll tax this year if they are allowed to vote. As far as is known, they will not, inasmuch as they were not voters on April 1 and for the even better reason, there are no provisions in the statutes for the assessment of poll taxes on any wealth.

but male inhabitants of the common-

DENIES PETITION OF B. & MESSAGE TO MANNIX

M. STOCKHOLDERS

CONCORD, N. H., Aug. 20.—Judge Edgar Aldrich of the United States court in an opinion handed down this morning, denied the petition of Edward F. Brown of Ipswich, Mass., and others, minority stockholders of the Boston & Maine railroad, for an injunction against the railroad and the appointment of a temporary receiver, a hearing upon which was held yesterday afternoon. The petition for a permanent receiver for the railroad is left pending.

The opinion states that in view of the fact that the recent receivership of the railroad has been closed and the road set at large, that increased rates have been recently authorized to go into effect Aug. 26, that the road is presently embarrassed by reason of its having been taken over by the government during the war, that the validity of the \$17,000,000 bond issued is still pending, that the fact that the railroad business as well as other business is in the midst of economic changes resulting from war and other causes, "make it seem reasonable that the railroad should have an opportunity of trying out its present situation—of working out its salvation and putting itself upon a safe and sound business basis."

Consistory at Rome Urges
Moderation in Treatment
of British Question

LONDON, Aug. 20.—The consistory at Rome has directed to Archbishop Daniel J. Mannix, of Melbourne, Australia, a strong exhortation urging moderation in his treatment of British political questions, according to a British official message from Rome today.

The value of the argon gas in the air was not known until its introduction into electric lamps recently.

SEN. HARDING SPEAKS

Says All Branches Will Function, if Elected—Praises Senate's Course

MARION, O., Aug. 20.—In reply to democratic criticisms of the republican senate and of the policy of government by party, Senator Harding declared in a speech yesterday to members and former members of the Ohio legislature that his purpose in elected president would be to give to each branch of the federal government its constitutional part in government functions.

"In cartoon, in solemn editorial, in many utterances from the platform," he said, "it has been suggested that in case of a republican victory, the incoming president proposed to permit the senate to have something to do in determining the policy of the government. I gladly proclaim all these suggestions to be literally correct. I rejoice that the United States senate is functioning again. We need it to save America."

"If a republican administration is chosen next November you can be very certain that the senate, theoretically, if not actually composed of 56 leading men of the republic, will have something to say about the foreign relations as the constitution contemplates."

"It has become quite the fashion among unheeding partisans of democratic faith to cry out against the senate and the part it plays in the federal government. One might as well proclaim the conviction a fraud. The senate is in reality the security of stable, popular government."

Praising the record of the present senate, the nominee declared it had "saved American nationality" when the executive branch had proposed to surrender it.

He dissented from arrogation of unconstitutional powers by the president and said it was the purpose of the republicans to "have done with personal government" and to "put an end to autocracy." The rule requiring a two-thirds vote in the senate to ratify treaties he characterized as one of the wisest provisions of the constitution.

The League of Nations was touched on briefly, Senator Harding declaring Article 19 would break down the orderly processes of the federal government by transferring from congress to a foreign council the power to decide when the nations should go to war.

The speech was delivered from the front porch. It was the second the senator had delivered yesterday, a group of Civil War veterans having induced him to make a brief talk when they paid him a noon day visit. In his speech to them he reiterated his belief that it was for American rights that

the nation entered the world war and added a promise that if he were elected there would be no surrender of American nationality.

The speech of the legislatures followed a reunion luncheon in a grove near the senator's home. The address of greeting to Senator Harding was delivered by former Representative Ralph D. Cole of Findlay, who said that Ohio had given the nation numerous republican presidents but that "she has never provided a democratic president, and, thank God, never will."

The nominee began his speech by recalling his days in the Ohio legislature and by reciting the accomplishments of republican governors and legislatures in the state. The record, he said, had been one of "progressive policies" and he named among other achievements steps to regulate public utilities, workmen's compensation, tax reforms and highway and banking laws.

"It would be a sorry thing," said Senator Harding, after commenting on his early legislative impressions, "for public men to forget the oath of office to which they subscribe in taking up their public responsibilities. Somehow, there has been a tendency of late to ignore this solemn obligation. It is not easy for me to forget the oath which I assumed when I entered the federal senate. It was the reminder of that oath that impelled me many a time in opposing the unreserved ratification of the League of Nations covenant which the president had negotiated. I could not accept the covenant as written and be faithful to that oath."

"You and I, jointly, have been witnesses to the advantage and security in the divided responsibility which comes of two legislative branches. Some of us have been witnesses to the work of the federal senate during the past five years and I confess amazement at the ignorance of some who cry out against the senate or the contempt of others for the senate's very proper and constitutional part in the federal government."

"I am not disparaging the house of congress. Indeed, I could entertain no such thought. Many of the brilliant contributors to American statecraft have left the impress of their exceptional statesmanship on the activities of the house of congress."

"In the senate are 96 men, elected by the people from 48 states and the safeguards in the senate in the exercise of its constitutional authority are security of the American republic."

"I do not hesitate to say that the senate saved American nationality in 1919 and 1920, when the executive proposed to surrender it. The senate preserved our independence of action when the executive insisted that a foreign council should decide our future place in the activities of the world, and call us to war and our destiny."

"The practices of the senate are not so ancient or so firmly fixed that they do not yield to reform, and the senate is not insensible to intelligent public opinion nor unheeding of a righteous public demand."

"In cartoon, in solemn editorial, in many utterances from the platform, it has been suggested that in case of a republican victory the incoming president hopes to permit the senate to have some say in determining the policy of government. I gladly proclaim all these suggestions to be literally correct. I rejoice that the United States senate is functioning again. We need it to save America. It submerged itself for the period of the war and surrendered to the executive because we wanted to marshal all of our forces and resources under one supreme authority, but we are at peace, though not formally proclaimed, and we need the restoration of constitutional government quite as

much as we need the restoration of the stable ways of peace."

"If a republican administration is chosen next November you can be very certain that the senate, theoretically if not actually, composed of 56 leading men of the republic, will have something to say about the foreign relations as the constitution contemplates."

"There has been no failure on the part of the house, because that joins the senate in the abiding policy of committing this republic to fidelity of contract. If we failed to keep any covenant we should be held in contempt throughout the world."

Urges Policy of Abstinence
"This thought may well be applied to the proposal that this republic can subscribe to Article 19 and enter into the League of Nations and submit to the rule of a council of foreign powers, on the theory that only congress can make an appropriation of money to carry a covenant with a foreign power, then we should be guilty of a bad faith, utterly unbecoming of this republic, if congress did not keep the compact and provide for the warfare

which the foreign council has ordered."

"I would think it much better to hold aloof from international relationship than to stamp out that relationship with perjury from the very beginning. If the obligation is one of contract we will keep it, if it is a moral obligation, we must keep it."

"I want America to understand that a republican administration stands unalterably, avowedly and proudly for constitutional government, with the recognized and sustained powers of the legislative and judicial branches of the government, as well as that of the executive."

"I want members of the house to feel themselves a part of a republican administration, seeking to serve the interests of all the people of our common country. I want members of the senate to understand and the public to know that the senate has its functions to perform in making good the plight of faith in the republican platform and the fulfillment of promises to the American people."

"I had rather have the counsel of the senate than all the political bosses in any party in America."

"The tendency has been for the ex-

RED PILLS

The Invigorating and Reparative Tonic for Women

After the birth of my first child, I became excessively nervous, and frequently had such bad attacks that I would faint and would have to call the doctor. I was following a treatment for one year, but with no avail, as I was getting no better. One day a close friend urged me to try RED PILLS for Pale and Weak Women, and I took them. After taking a few boxes with no apparent results, I was beginning to get discouraged, but my husband advised me to continue taking them very regularly, and after four months I was happy to be able to notice quite an improvement in my health. About a year after I was feeling fine in every way.—Mrs. Roch Guerin, 59 White Street, Cohoes, N.Y.

RED PILLS are a priceless treasure for women. They are perfectly harmless and are so easily digested that even the most delicate women can take them. They are especially adapted to anæmic women. The different ailments and discomforts which the weak and anæmic woman very often has to suffer, such as headaches, upset stomach, neuralgia, dizziness, flashes, swellings, palpitations, nervousness, melancholia, discouragement, metritis, displacements, are all caused by the weakness and poverty of the blood, and therefore gradually disappear as a woman gets stronger under the influence of the RED PILLS for Pale and Weak Women.

RED PILLS are sold in boxes, of 50 pills, 50 cents a box, 6 boxes, \$2.50. If they are not at your merchant's they will be sent to you by mail on receipt of price.—Francis American Chemical Company Limited, 212 Milk Street, Boston.

When I was eighteen years of age I took RED PILLS for Pale and Weak Women, and they proved so helpful to me that I am pleased to have the opportunity of advising other young girls to take them whenever necessary. Through carelessness I had become weak and pale as wax, and for a whole year I was unable to do any work at all. The best part of my time was spent in bed, and the different kinds of medicine which I was taking were doing me absolutely no good. Someone told me of RED PILLS, which soon restored my health. Since that time I have great confidence in this remedy.—Mrs. John F. Sousa, 499 Moody Street, Lowell, Mass.

For Itching Eczema, Old Sores and Piles

"I guarantee my ointment," says Peterson of Buffalo, "to cure eczema; to stop the itching at once and any reasonable druggist will cheerfully refund your money if PETERSON'S OINTMENT doesn't do everything I say it will do."

William A. Carley of Franklin, N. Y., is surely a wise man. He writes: "I used PETERSON'S OINTMENT on a little boy suffering terribly with eczema. It did the work."

Then there is Alex. Louette, a brave fireman of Buffalo, who is glad to write as follows: "I had an old sore on my leg for many years. The best doctor I had used PETERSON'S OINTMENT and it healed the sore quickly." And a man over in Canada comes a letter from a doctor, stating: "The best thing I ever hit for itching piles is PETERSON'S OINTMENT." A big box for 50 cents. Mail orders filled by Peterson Ointment Co., Inc., Buffalo, N. Y.—Adv.

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid arvon from any drug store (this is all you will need), apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy silky and soft, and look and feel a hundred times better.—Adv.

MINOR ACCIDENT
Philip Demers, of Roxbury, was treated at the Lowell Corporation hospital for scalp wounds last evening about 6.30 o'clock. His injuries were sustained when his automobile collided with one driven by F. L. Holland of Arlington, in Gorham street near the Billerica line.

A Simple Way To Remove Dandruff

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid arvon from any drug store (this is all you will need), apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy silky and soft, and look and feel a hundred times better.—Adv.

JUDGMENT

Judgment Is a Big Factor In Any Business--Especially the Clothing Business

Rainy Saturdays and other conditions over which we had no control made our Judgment in buying for this season look like a two-cent piece. With the result that we stand here at the close of the season with a stupendous stock of Men's, Women's and Boys' Clothes—the finest it has ever been our good fortune to possess. A stock that would cost us today 15 to 25 per cent. more to replace. But Regardless of its value or how much we dislike to part with it, we must kiss it goodbye. It was purchased to sell this season and sold it must be, regardless of cost, profit or replacement price. So if you are in need of any good clothes and don't want to spend all out of doors to possess them, come along now and take advantage of our position.

New Daredevil Takes Locklear's Place in World of Stunts

CHICAGO, Aug.—Harry McLaughlin, the "Man Without Nerves," is arranging to take over the unfinished contract of Lieut. Ormer Locklear, the "stunt" flier of the movies, who recently lost his life in an airplane accident. Picture shows McLaughlin standing on his hands on a chair at the edge of the roof of the Congress hotel, some two hundred feet above the crowd on Michigan avenue. A 30-mile wind was blowing when he pulled the stunt.

DENIES BUYING LIQUOR AT LAMBS

NEW YORK, Aug. 20.—Denial by attorneys for John C. McGraw, manager of the New York Giants, that he had purchased whiskey from the Lambs club on Aug. 8 featured yesterday's investigation of occurrences at the club the evening before John C. Slavin, comedy actor, was found lying injured on the sidewalk in front of McGraw's home.

William J. Fallon, one of McGraw's attorneys, admitted yesterday that McGraw "might have gotten whiskey at the club," though he maintained that his client did not purchase the liquor of the club itself.

James Shynlin, supervising prohibition enforcement, agent, said yesterday that the investigation to determine whether bootleggers were operating at the Lambs would be vigorously prosecuted.

Continuation School

Continued
shortly before 5.30 in the morning, as has been the custom in past years, members of the high school freshmen class will report shortly before 8 o'clock and will be dismissed at 1 o'clock instead of 1.20, as formerly. This will give continuation school pupils an opportunity to begin their work promptly at 1 o'clock and continue until 5.

The annex will be especially adapted

NEW DESTROYER MAKES GOOD SHOWING

ROCKLAND, Me., Aug. 20.—The torpedo boat destroyer Pruitt entered upon the third day of its builders' acceptance trials today, with a four hour run at 30 knot speed. This was to be followed by a four hour run at 15 knots. Both are fuel economy tests in which the Bath built craft is making an exceptionally strong showing, according to data compiled by the board of inspection and survey from yesterday's trials.

MORE CENSUS FIGURES

Marlinsburg, W. Va., 12,515, increase 1317, or 17.0 per cent.

NAVAL DESERTER

Charles Joseph Lancet of 724 Suffolk street has been declared a deserter from the U.S.S. naval torpedo station. Mayor Perry D. Thompson has been notified.

SEN. J. J. WALSH SCORES HARDING

BOSTON, Aug. 20.—Senator John J. Walsh, democratic candidate for governor, in the first formal statement he has made concerning the national political campaign, last night declared that this year's contest was not one between parties, as of old, but rather a contest between individuals.

Governor Cox he classed as a "virtue leader of men, whose mind is adjusted to progress." Senator Harding was

designated as a "reactionary who lives in a dead past and boasts of it, a servant of a greedy group of men who sing the song of selfishness."

Senator Walsh condemned the action of State Treasurer Fred J. Burrell in combining official duties and private business. Mr. Walsh declared this

was a violation of "moral law and order." Financial law and order, he stated, was violated in the Ponzi case.

"Now that people have begun to catch the real significance of the platforms framed at Chicago and San Francisco," said Senator Walsh, "democratic prospects brighten. The con-

test for the presidency is not between a democrat and republican on old lines, but between a virile leader of men whose mind is adjusted to progress and a reactionary who lives in a dead past and boasts of it, a servant of a greedy group of men who sing the song of selfishness."

HIGH COST OF LIVING HITS

TURKISH HAREMS

CONSTANTINOPLE, Aug. 28.—No one has the high cost of living been felt more keenly than in Turkish harems. Men who were formerly able to maintain many wives and concubines find their incomes insufficient to keep up large establishments and are forced to turn some of the women adrift.

American women relief workers who have been investigating social and economic conditions say the tragedies Turkish women have undergone as a result of the war are even worse than in other European countries because of the utter helplessness of women and their lack of training which might make them self-supporting.

The sufferings of Moslem women are worse in cities than in the country. For the country women are frequently trained to do farmwork and are an asset to their husbands rather than a liability. Furthermore the economic conditions have not been disturbed so seriously in rural districts. Farming goes on much as usual. Women can find employment in olive groves, at silk culture, in fruit orchards and even in grain fields.

Since the war has robbed so many women of the husbands, fathers or other male relatives upon whom they were dependent, many city women have forced themselves into employment which was never before regarded as proper for Moslem women. Turkish women with their veils thrown back from their faces may now be seen as saleswomen in stores of Constantinople shops. They are even employed as street sweepers.

There has been a great outcry against Moslem women accepting employment which forces them into association with men, especially Christians, but the economic pressure has been so strong that religious prejudices had to make way. The need for nurses with the army gave Moslem women their first opportunity to get hospital training and become nurses. That was the entering wedge which has opened the way into other employments monopolized by Greek and Armenian women. Turkish women may now be found in telephone exchanges. They are acting as cashiers, janitors and even street car conductors.

Stern necessity has won for Turkish women an independence which was undreamed of six years ago, and the wall of the untrained women forced to earn their livelihood has aroused Turkish leaders to a realization of the necessity for better and more practical education for women.

TO EXTEND BOYCOTT AGAINST BRITISH

NEW YORK, Aug. 28.—Six additional modes of attack in the boycott by Hindus and Mahometans against the British government in India, the first of which were reported to have been put into effect on Aug. 1, were made public here yesterday by the India Information bureau. The boycott has Hindus and Mahometans against the "unsatisfactory terms of the Turkish peace treaty," the provisions of which are said to deprive the Mahometans of the world of "every vestige of power."

Four other measures of opposition, including the relinquishment of British titles and honors, resignations from government offices, refusal to serve in the army and to pay taxes, were announced on July 18. The new phases of the boycott are:

Non-participation in loans floated by the British Indian government for military purposes, railway and canal of the boycott are:

Suspension by Indian lawyers of practice and settlement of civil dis-

FRECKLES

Now Is the Time to Get Rid of These Ugly Spots

There's no longer the slightest need of feeling ashamed of your freckles, as Othine—double strength—is guaranteed to remove these homely spots. Simply get an ounce of Othine—double strength—from any druggist and apply a little of it at night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than an ounce is needed to completely clear the skin and gain a beautiful clear complexion.

Be sure to ask for the double strength Othine as this is sold under guarantee of money back if it fails to remove freckles.—Adv.

To the Man or Woman who owns any Small Car

AT one time or another in your experience, you have no doubt felt the influences that are at work, setting the small car owner apart from other motorists.

The time that you felt it most, perhaps, was when it came to a question of tires for your car.

* * *

What every tire dealer hasn't yet found out is that you can't judge a motorist's intelligence by the length of his car's wheel base.

Some of the most critical and experienced motorists in the country are found among the owners of small cars.

Men and women who could afford to own any type of car made, but who were led to the small car for logical reasons.

These are the men and women whom the indifferent type of tire dealer has left out of his calculations.

Intent as he is on looking merely at the cars that drive up to his store, instead of at the men and women who own them.

* * *

The United States Rubber Company has never assumed that the best was too good for the owner of any small car—whether Ford, Dort, Chevrolet, Maxwell or any other.

It has never built a high grade of tire for the large car and then cheapened it for the small car.

All of its unlimited facilities—greater and more widespread than those of any other rubber manufacturer—have been devoted from the beginning to building tires of standard and uniform quality.

The same quality in the 30 x 3½ inch size as in the largest size tire it builds.

And nothing less.

* * *

U. S. 30 x 3½ inch tires come in four treads—Nobby, Chain, Usco and Plain—a tread for every road.

They are built by experienced workmen in a factory devoted exclusively to the manufacture of small size clincher tires.

A factory which has produced more tires every year for the last three years—and still is unable to produce them fast enough.

* * *

The good tire dealer—the man who treats all car owners alike—never even suggests that you be satisfied with anything less than U. S. Tire quality.

He encourages and aids his customers in their search for the best.

Until you have met him, you will never know what it is to get the utmost economy out of your car.

putes by private arbitration instead of in government courts.

Boycott of government schools by Indian parents.

The boycott of reform councils, meaning a refusal on the part of the Indian community to participate as

candidates or voters in the elections which will be held in India next November, according to the provisions of the new government of India act.

Non-participation in government social functions and Durbars.

Vigorous development of the Swadeshi movement (cultivation of home

industries and purchase of Indian-made goods only.)

Dr. N. S. Hardiker, director of the bureau, also announced that a recent despatch from Lucknow said "that there was a complete 'hartal' or cessation of business and that joint Hin-

du and Mahometan meetings in Bom-

bay, Hyderabad, Calcutta and other places was attended by thousands of persons who subscribed to the non-co-operation movement against the British government."

The only instance of disturbances, he said, was at Hyderabad, Sind, when a Mahometan priest was arrested and

placed in jail. The prisoners threw down their tools, he said, and refused to work. Thereupon a crowd congregated outside, but there was no actual disorder. The entire movement, according to Dr. Hardiker, is one of passive resistance.

A special session of the All-India political body—the India National Congress—will be held in Calcutta in September, when the results of the boycott will be determined and the future course of the movement decided.

Lajpat Rai, who lived in New York for four years as a political refugee, will preside at the session.

A special session of the All-India political body—the India National Congress—will be held in Calcutta in September, when the results of the boycott will be determined and the future course of the movement decided.

DOCTORS ORGANIZE

Form Protective Fraternity—

Act on Restrictions on
Liquor Prescription Blanks

CHICAGO, Aug. 20.—The American Protective Medical Fraternity was launched last night at a meeting of Chicago physicians held to discuss the restrictions on liquor prescription blanks by the federal prohibition director.

One of the objects of the fraternity is "to secure for the physicians an unlimited number of prescription blanks." Among the other expressed objects are to co-operate with the prohibition authorities in upholding the 18th amendment and assist in enforcement of the Volstead act.

A committee of five physicians was named to draw up rules and by-laws. They are headed by Dr. E. W. Scott, who was chief medical officer in charge of the Emergency Influenza hospital at Washington, D. C., during the war.

Dr. Scott said the physicians themselves should be the ones to decide the number of blanks needed. Chicago physicians now are allowed 200 blanks every three months by the prohibition director. Dr. M. L. Smith said that the way things were run now about all a physician could do was to sell the blanks to the highest bidder.

DRACUT MAN'S AUTO
LICENSE REVOKED

(Special to The Sun)

STATE HOUSE, Boston, Aug. 20.—Max Cohen of Dracut has been notified of the revocation of his license to operate an automobile, by the state registrar of motor vehicles.

According to the state registrar, Frank A. Goodwin, Cohen was found guilty in the Lowell police court on Aug. 10, on the charge of endangering the safety of the public, and paid a fine of \$25. His license may not be restored to him within six months, unless the judge imposing the penalty intervenes.

HOYT.

Only 831 buffaloes were left in North America in 1920. Now there are 1370 in Canada and the United States.

COX CHARGES 15 MILLION

REPUBLICAN FUND

SOUTH BEND, Ind., Aug. 20.—Charges that at least \$15,000,000 is being contributed to the republican campaign fund by selfish interests were made yesterday by Gov. Cox, democratic presidential candidate, during the course of two addresses opening the Indiana democratic campaign.

"Sky is the Limit"

"That is its low mark," he said, "and the sky apparently is the limit. In Ohio \$500,000 was raised in the twinkling of an eye. They have subdivided America into seven districts and influential men, representing selfish and greedy interests, are passing the hat. They are trying to buy a governmental underhold. It is a mere bagatelle with what the contributors expect to get back."

Pleas for the League of Nations, denunciations of what he said was the republican plan for a separate peace with Germany, promises of tax reductions and problems of the high cost of living were other features of Governor Cox's addresses. He spoke to a crowd of several thousand late yesterday on the court square, attended a banquet of the Indiana Democratic Editors' association and addressed another large crowd at the Coliseum last night.

With republican campaign funds a special object of the governor's attack, he declared that Wall street interests were planning to "emasculate" the federal reserve act, in event of a republican victory, by providing that bankers only shall be eligible to a federal reserve board membership, to secure power over credits and interest rates.

Gov. Cox also urged federal regulation of packers and other cold storage concerns, with time limits for storage of foodstuffs.

To the editors in his audience, comprising about 500, Gov. Cox gave his views on the print paper situation, urging reforestation involving against a print paper combination and declaring manipulation and panic have contributed to the paper shortage. He suggested federal supervision. He also took sharp exception to Senator Harding's depreciation of the disappearance of political organs. Urging an "Independent Press," Gov. Cox said that Senator Harding's was "a dangerous

proposal," suggesting control of papers by the "senate oligarchy."

Tennessee's ratification of the woman suffrage amendment brought from the candidate in his advocacy of the league the statement that "war is more impossible today than yesterday."

"Because, thank God," he added, "the mothers of America have a voice now in saying when war shall or shall not be."

Praising women as "progressive, intuitive and patriotic," Gov. Cox continued:

"I think they are going to help things. Their mother instinct is going to stay the hand of war, and that in itself is sufficient to justify the cause of woman suffrage."

The league, Gov. Cox declared, is necessary "to keep faith with the boys who died in France," and also, he said, involves "the purse, the home, the happiness and the self-respect of every man, woman and child." It is needed, he said, to reduce the cost of living by decreasing taxes for armament and by stabilizing agriculture and industry. It is "the great transcendent issue" of the campaign, he declared.

The hornbills of Africa and India plaster up and imprison the hen birds in a hole in the tree, with only a small opening left in the plaster through which to feed them and their young when hatched.

Acids in Stomach

Make Sour Food

CAUSE INDIGESTION

"Experience has taught me that most people who complain of stomach troubles and indigestion possess stomachs that are perfectly healthy and normal," says a well known authority. The real trouble, which causes all the sourness, gas and pain, is excessive acid in the stomach. This acid irritates the delicate stomach lining, hours and ferments the food before the point of digestion is reached.

Artificial digestions are not needed in such cases. They give only temporary relief, do not correct the cause and often do great harm. A better plan, if you suffer after eating, is to drink a glass of hot Magnesia water made from (teaspoonful) of four tablets of pure Bismarck Magnesia which can be obtained from any reliable druggist. This instantly neutralizes the acid, sweetens the stomach and your meal digests naturally without pain. Try this for a few weeks and see if your stomach does not feel one hundred per cent. better.—Adv.

proposal," suggesting control of papers by the "senate oligarchy."

Tennessee's ratification of the woman suffrage amendment brought from the candidate in his advocacy of the league the statement that "war is more impossible today than yesterday."

"Because, thank God," he added, "the mothers of America have a voice now in saying when war shall or shall not be."

Praising women as "progressive, intuitive and patriotic," Gov. Cox continued:

The Store That is Never Undersold

SUGAR PROFITEERS ARE CAUGHT IN SLUMP

WASHINGTON, Aug. 20.—Retribution is coming apparently to many big sugar dealers, who, a few months ago, were fattening their bank accounts by the abnormally high sugar prices. The very prices that they created are in a large part responsible for their losses.

Within a week, when prices have dropped from 23, 24 and 25 cents a pound to 16, 17 and 18 cents, certain dealers have lost tens of thousands and perhaps hundreds of thousands of dollars of their former profits. The end is not yet. Yesterday one of the largest concerns in the country, to meet competitors, planned to put sugar on the market at 15 cents.

It would not be surprising if prices dropped even to lower levels before they stabilize. Prospects are gloomy for those with large supplies who are wondering how they will get through the next week or two without impairment of credit and actual collapse.

Efforts to keep the situation quiet in order not to disturb bank credits have failed. According to present indications, the concern that can unload before there is an actual stampede fare the best chance of escaping unscathed.

A miscalculation about the effects of prohibition really started the break in sugar prices. A contributory cause is the haste of sugar dealers to move the world, some of them never before seeking the American market, to rush their supplies here to get the benefit of high prices. Many of these foreign supplies have already landed or are en route. They come from Brazil, Peru, Argentina, China, and even from Africa, none of which countries has figured in the sugar market here in years past.

Interesting inside information as to the start of the break in prices a week or 10 days ago was obtained today.

Big candy and soft drinks manufacturers and speculators calculated last summer and fall that nation-wide prohibition would create a demand for candies and soft drinks never before known in this country. They made a rush for the available sugar supplies and gobbled them up. One result was that for weeks last spring the average individual was informed by his grocer there was no sugar to be had. Retailers took advantage of the demand to boost prices until they reached as high as 25 and 30 cents a pound, virtually prohibitive to many small consumers.

This summer the candy and soft

drink manufacturers were rudely awakened by the realization that the public had not gone as crazy over candy as anticipated. Accordingly they began to unload.

Much of the sugar is being sold at a loss now averaging five cents a pound.

Another circumstance that makes it difficult at this time to halt the downward competitive slide in the approach of the best sugar yield, which will supply large quantities that will become available for the western states. This is expected to cut down the market for eastern refineries and bring the sugar market into an even sharper competitive stage.

Ask Aid of Government

WASHINGTON, Aug. 20.—Sugar dealers caught in the recent price slump with large stocks on their hands are appealing to the department of justice to save them from loss, according to John F. Crosby, acting head of the department's campaign to lower the cost of living.

Many dealers who have been prohibited from selling sugar at more than one cent a pound profit, Mr. Crosby said yesterday, complain that because they bought sugar when prices were high they now face heavy losses. Unless refiners violate the Lever act, he added, the department has no remedy for the situation.

To produce a diamond in the rough costs approximately \$7 a karat.

SLOGANS ARE FLYING

Political Parties Speak up
Tritely Behind Jimmy Cox
and Ohio Warren

N.E.A. Staff Special.
CLEVELAND, Aug. 20.—Have you a case of sloganitis in your home? 'Tis an odd affliction and has been afflicting Mr. and Mrs. General Public haphazard.

Elections often hinge on snappy campaign slogans which strike a responsive chord in the people. Remember "McKinley and a full dinner pail" and "He kept us out of the war?"

What will the 1920 slogans be? Campaign leaders of both parties are said to have chosen their war cries. But they haven't announced them yet.

In the meantime Chicago, Cleveland and New York papers have been running slogan contests and the people are pouring in their prize campaign appeals. Some of the best for both Cox and Harding so far submitted follow:

"And, oh! what a response! Sloganitis has swept the nation! And is still 'sweeping.'"

Here are just a few of the Cox and Harding slogans that have swamped the slogan editors:

Democratic

Elect Jim—There's pep to him!
Cox—Ahead by a league.
Sunny Jim—We'll win with him!
Wilson did his best; leave it to Cox—He'll do the rest.

Don't delay the next war—make it impossible! Vote for Cox.
If heroes brave you would remember, vote for Cox this coming November!

I favor going in—You've spoken the demand of millions, Jim!

Vote for Cox and tell the world America is not a quitter.

Vote for Jimmy Cox and keep the nation off the rocks.

Every time that Jimmy speaks, a front porch down in Marion squeaks.

Woody, dust off that chair—Jimmy Cox is coming there.

Governor James M. Cox—his record talks.

Choose the boat that never rocks; sail with Pilot Jimmy Cox.

Cox is the bird to keep our word.

Down the political bosses at the ballot-box by electing Jimmy Cox.

Wall Street—Nah! Jim Cox—Yah! Ohio knows your staunch and true Jim Cox; I'm with you, too.

Republican

Best Wilsonism, waste and woe—Harding!

Harding 50-50, not 6 to 1.

Cut the comedy—elect Harding.

League us not into temptation.

Restore the reign of common sense Harding—a resident president.

Nothing foreign about Warren.

Vote for Harding—he's the star; make Liberty bonds sell at par.

Harding—Home rule for America!

We'll win with Warren; without Woodrow, without whiskey, without watchful waiting.

Be wise, pard, keep on guard; play your card and vote for "Hard."

The H. C. L. will never fall until we answer Harding's call.

The next eight years we'll be content with Harding as our president.

Harding—No league, no war, no hell.

Harding and Coolidge—That's the stuff; whoever says no just treat 'em rough!

Nov. Second, happy day; autocracy

IRISH CIVILIANS KILL BRITISH OFFICER

MACROOM, Ire., Aug. 20.—Lieut. Sharma, commanding a military patrol, was killed, and four of his men were badly wounded near Rillyvourney, in a pitched battle with armed civilians, who delivered a surprise attack.

The attacking party had dug trenches and felled a tree across the road where the patrolling military passed. No casualties are reported among the civilians.

Irish "Moderates" to Confer

LONDON, Aug. 20.—Fifteen of moderate views concerning the problem of dominion home rule will gather at Dublin from all parts of Ireland next Tuesday for a conference.

This meeting, says a Dublin despatch to the Daily Mail, has "been endowed with considerable importance by the change in policy in Downing St. Although the premier's statement in the house of commons last Monday puzzled Irish politicians," the despatch says, "it is wrong to take a pessimistic view of the situation, as the way to peace is by no means closed."

Continue to Hold Up Trains

DUBLIN, Aug. 19.—The holding up and robbing of mail trains and mail motors by armed and masked gangs is continuing apace. A party boarded a Dublin southeastern train at Ferns last night, holding up the officials and taking all the official mails.

Twenty raiders held up a mail car near Killybrittain and seized six bags of mail. Postal officials with mails from Buncrana, an important naval and military center, were waylaid and the mails taken, while a number of official letters were removed from another train which had been held up near Buncrana.

Boycott of Belfast Farms

BELFAST, Aug. 20.—A resolution advocating a general boycott of Belfast farms, owing to alleged persecution

of Catholics, has just been adopted by the Leitrim county council.

MacSweney Gets Two Years

CORK, Aug. 20.—The court martial which recently tried Terence MacSweney, lord mayor of Cork, on a charge of having under his control the secret police cipher and sedition, sentenced him to two years imprisonment.

The trial of Mr. MacSweney was conducted under the defence of the realm act. When arrested he immediately went on a hunger strike. On Tuesday he was deported to England aboard a torpedo boat destroyer and arrived in London Wednesday under a heavy military escort.

He was still on a hunger strike and was looking ill when he reached London.

DISMISSAL OF PRISON GUARD UPHeld

BOSTON, Aug. 20.—Judge Charles S. Sullivan of the Charlestown municipal court affirmed the order of Warden Elmer E. Shattuck of the state prison, suspending William J. Crowley from the prison service, at a hearing yesterday afternoon in that court petitioned for by Crowley, who requested a review of the testimony at the recent hearing in the state house and re-statement as an officer at the state prison.

Attorney Evert, counsel for Crowley, contended that the petitioner was not negligent in his duty at the time of the escape of Ward, Barney and Manster. He said that when Crowley learned of the trouble he headed for the north wing of the prison and when half way down he met officer Hannigan, who told Crowley men were getting out through the roof. Hannigan went back and Crowley went outside to guard the east side of the prison. He supposed that two officers were on the other side.

Judge Sullivan's verdict follows: "Crowley knew that he was dealing with dangerous characters and he

should have fired either to detain the men on the roof, frighten them or sound the alarm for assistance. There is a twofold reason for having revolvers, one for attack and the other for defense. He could have fired one, two or three shots and still held a couple in reserve should the men come at him. His first duty is to protect the public. He should have first fired at them, or in the air.

"There is no testimony here that he was told there were officers on the roof. He was told, however, that there were prisoners getting out. If there were men on the roof it was his duty to find out who they were and go forward and seek the game. He was the hunter. On the evidence and facts presented the warden is justified in making the judgment he did. This is a correctional institution, and it is absolutely necessary to have discipline. Breaking down the discipline by having outside influence to place an officer in another position against the wishes of the warden is absolutely bad, and I wouldn't think much of the warden if he didn't resent it."

EVERY FLOWER HAS A STORY OF ITS OWN

Rarely is the significance of the mandrake in the language of flowers. Many uncanny and unpleasant superstitions are associated with this flower. It was said that it grew only near gallows or criminals' graves.

Shrieked and Groaned

A superstition that was current in ancient times was that the plant gave forth terrible shrieks and groans that were almost human, when it was gathered, and that any person hearing them would die immediately. It was a custom, therefore, to gather the plants, which had great value medicinally, by tying them to the tail of a dog and driving him on. The humans stuffed their ears up carefully, but the dog would fall dead when the plant emitted the ghastly shrieks.

The juice of the plant was used for eye diseases, as a narcotic and for love potions. It was said, however, that the odor would make persons dumb if it were inhaled to excess.

Charm Against Evil

In the midday's eyes, little idols carved from the roots of mandrakes were used as charms against all evil.

This plant is sometimes called devil's candle because of the luminous quality of its leaves at night.

Many of the uncanny superstitions were still current in recent centuries. The murder of a French nobleman was attributed to his having broken a contract with the devil. Two mandrakes of extraordinary beauty were found in his rooms, and his friends considered this conclusive evidence of his compact with the devil.

FOR IMMEDIATE EMBARGO ON TIDEWATER COAL

WASHINGTON, Aug. 20.—An immediate embargo on the movement of coal to tidewater except upon a definite showing that the coal upon arrivals at piers would be unloaded into vessels with reasonable promptness, has been agreed upon by the railroads. It was announced yesterday by the American Railroad association.

In an explanatory statement, the association said:

"Chairman Willard of the Association of Railway Executives and Col. H. B. Wentz, president of the National Coal association, met in conference yesterday with representatives of the commission of car service of the American Railroad association, tidewater coal-carrying lines serving Hampton Roads and the north, various tidewater coal exchanges and the American Wholesale Trade Coal association, to consider what more effective means could be adopted to reduce the accumulation of bituminous coal cars, awaiting transportation at tidewater.

"The conference considered particularly a report of the special committee of the National Coal association in the matter of shipment of tidewater bituminous coal," the statement said, "and unanimously reached the conclusion that such changes should be made

in the regulations of the tidewater coal exchange which handles shipments through New York, Philadelphia and Baltimore, as would result in penalizing the holding of bituminous coal by individual members of the exchange beyond the free time permitted in established coal demurrage tariffs.

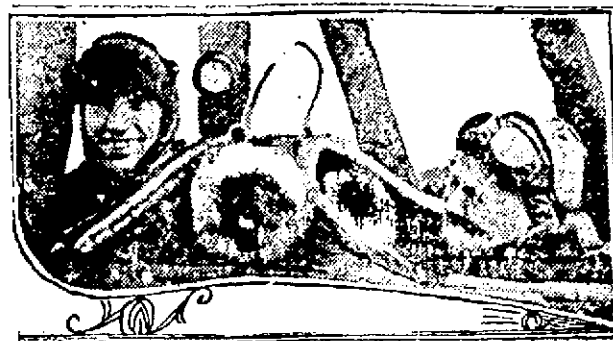

"Further than this, the meeting unanimously agreed that as the only effective means of adequately controlling the situation, all tidewater coal-carrying lines should immediately embargo the movement of tidewater coal and simultaneously provide for the acceptance of such traffic only upon permits to be issued by the tidewater bituminous coal terminal railroads.

"It was recognized that the issue of the permits must depend in the first instance upon transportation conditions, upon the railroads concerned, but beyond this it was unanimously agreed that no permits should be granted, except upon a definite showing that the coal upon arrival at the pier at tidewater would be unloaded into vessels with reasonable promptness, this ability on the part of the permittee to be ascertained by his showing as to vessels under charter and his record in meeting the conditions of permits hitherto issued.

"The meeting also agreed, without dissent, that the issue of permits should be to the loading lines with provisions made that if the amount to be loaded was exceeded, the mine so violating the permit should be penalized in its car supply so long as the coal so billed without permit remained unconsignee elsewhere and disposed of."

English Woman, Aged 100, Enjoys Record Airplane Flight

BY MILTON BRONNER
European Manager, N.E.A.

MANSFIELD, England, Aug. 20.—"Scared? Not me, I am going to take another trip by air very soon." The speaker was Mrs. Ann Sessions, who is 100 years old and who has a world's record as the oldest person who ever made an ascent in an airplane. Her pilot was Herbert Sykes, who is seen in the machine with her. "It was a very nice ride and not the least bit uncomfortable. I was not dizzy or anything. Mr. Sykes wants to take me on a longer trip to visit my birthplace, and I have a strong notion to go."

WOMEN WON'T HAVE TO PAY POLL TAX

BOSTON, Aug. 20.—Many women have been anxious to know if they will have to pay an annual poll tax now that they have the vote. Some, especially those in Boston, where corporations are rounding up the delinquents, had visions of being lugged off to jail by hard-hearted minions of the law for failure to pay at a given time. But they needn't worry. Under the present law only men are taxed. And anyway, the poll tax has nothing to do with voting. It is merely a way of raising revenue.

The shah of Persia possesses perhaps the most valuable pipe in the world. It is set with rubies and diamonds.

---Not Savings For Which You Have To Take Our Word---But Savings That You Can See As Plainly As The Shoes Themselves, For The Regular Prices Are Printed On Every Box.

Tomorrow morning we start another week's selling of NEWARK shoes for women that is certain to be the greatest we have ever known.

Every pair, regardless of their value, or cost, or the very low price they were up to this time, will be sold at these two astonishingly low prices. And every pair is GUARANTEED just as if you bought at the regular prices. It would be very poor economy to buy shoes, no matter how little you paid, and not be satisfied with them. So we say to you, if any purchase you make in this sale is not perfectly satisfactory, return them for refund or exchange.

At \$2.98: Patent Leather Smoke Gray Suede and F. B. C. White Kid and White Buck Pumps. All \$6 and \$7 values.

At \$3.98: Stunning Gun Metal Patent Leather and Mahogany Oxfords with military and Louis heels. All \$7 and \$8 values. The regular price is printed on every box. Every pair Genuine NEWARKS.

Go where you will, you cannot find bargains to equal these. In every instance you get practically DOUBLE VALUE for your money. There isn't a single pair of "sale" shoes in our store. Every pair is our own regular stock NEWARK Shoes, strictly first quality and new this season. See these wonderful values tomorrow.

World's Altitude Holder To Pilot United States Speed Plane in Race for Bennett Trophy

DAYTON, O., Aug. 19—Uncle Sam is depending on a new speed plane and Captain R. W. Schroeder, holder of the world's altitude record, to bring the Gordon Bennett trophy to America by a win in the international airplane

race in France, September 27. France and America have both won the cup twice. If either takes it in the coming race it becomes the permanent possession of that country. The new plane represents the results

of several years of experimental work. It is expected to make better than 200 miles an hour. "Do I expect to win? I certainly do," says Schroeder. "But I will feel just about as good if either of the other two American entries wins the prize. We want the cup for America."

SHORTAGE OF LUMBER SLOWS UP WORK

Commissioner George E. Marchand of the public buildings department is having a little difficulty in getting lumber for the \$10,000 addition to the Boys' Vocational school in Broadway which the school department has asked to have ready early in September.

However, workmen of the department are devoting their attention to minor features of the building, such as window frames, etc., for which materials are available and it is expected that lumber will be received early next week so that the work may go along without further delay.

The Morey grammar school 14-room addition which was started last October and was to have been ready for the opening of the fall term next month will not be completed until well into the fall and perhaps the early winter.

Another portable schoolhouse has been erected by employees of the department, this one in the yard of the Edison school. This makes the seventh of this type of building now ready for use in Lowell.

PROBE OF ANTHRACITE COAL STARTED

BOSTON, August 20.—Investigation into the anthracite coal situation started yesterday, when William A. Clark of the New England Coal Dealers association, appeared before the commission on the necessities of life, James C. Hulpman, chairman. This body will have charge of New England's hard coal and intends to secure all data on the subject.

Questionnaires will be forwarded to dealers throughout the state starting today, to ascertain the amount of coal on hand in various communities, and all remedial measures will be handled through the commission. The work will take but a few weeks, and communities can enter the coal burning months with some hope of relief from serious shortage.

Yesterday's conference between the head of the New England dealers and the chairman of the commission was merely to find out some conditions about the coal situation and some facts pertaining to the handling of the commodity after it leaves the mines.

Complete canvass of the state for the amounts of coal on hand, it is expected, will be finished within a short time, but the final returns will rest with prompt filing of the questionnaires by dealers.

EXAMINATIONS

Chauffeurs May Use Room at County Court House

Commissioner George E. Marchand today addressed a letter to the board of county commissioners asking them to provide accommodations at the court house in Gorham street for the use of inspectors of the state highway department who conduct a chauffeurs' examination here every Friday.

The commissioner's action follows the request of the Lowell charter commission that the old councilmanic chamber at city hall be fitted up for its use on and after Sept. 9. The chauffeurs' examination has been held in this chamber for a number of years but once the charter commission takes it over, desks will be installed and the room will no longer be available for chauffeurs.

The Lowell Community club in Dutton street has offered the state authorities the use of a part of its building for the weekly examination, but to date the offer has not been acknowledged.

VACCINATION FOR SCHOOL CHILDREN

The vaccination season is on in full swing at city hall with the approach of the opening of schools. Between the hours of 4 and 5 yesterday afternoon Dr. E. G. Livingston and Dr. W. A. Johnson vaccinated 51 children in the dispensary in the basement of city hall. On Wednesday 43 were vaccinated, 23 on Tuesday and 16 on Monday. Vaccination sessions are held every day except Saturday, Sunday and holidays from 4 to 5 p. m.

Three Named in Ponzi Case

Continued

dered that they qualify in bonds of \$50,000 each.

The amount of assets to be handled is uncertain. Ponzi's statement that they would aggregate \$1,000,000 being the only estimate available.

The receivers will be called upon to adjust claims which already aggregate more than that sum on the basis of records of note-holders tabulated by the state attorney general, and the total is likely to run to \$7,000,000, according to the estimate of Edwin L. Price, the accountant who has been making an audit of Ponzi's liabilities for the federal authorities. These figures include the 50 per cent. profits promised by Ponzi to his investors and incorporated in the notes which he issued for payment in 90 days.

With the probability that settlement of claims will be on the basis of actual investments, the figures will be pared down by approximately one-third. The receivers also will be called upon to decide whether they will proceed against those persons to whom Ponzi paid the 50 per cent. profit before he stopped doing business.

He asserted yesterday that he had paid out \$7,500,000. Some of these payments were refunds of actual investments only, hundreds of persons having hastened to abandon their prom-

ised profits in the run of withdrawals which marked several of the later stages of the operations of Ponzi's Securities Exchange Co. Accordingly the amount of money paid out by Ponzi is interest, and subject to action by the receivers should it be held that undue preference was given the persons who received it, would be approximately \$2,000,000.

Of the receivers named by Judge Morton, Sears and Thurston are lawyers, and Perkins a business man. Sears appeared at the hearing on the petition for receivership as the representative of the Legal Aid society of this city, and in behalf of some of the creditors. Thurston is a former chairman of the republican state committee. Perkins is a former secretary and treasurer of the Calumet & Hecla Mining Co.

Receiver For Old Colony

The Old Colony Exchange company, a rival of Ponzi in offering high rates of interest for investments, also was placed in receivership by Judge Morton, John E. Hannigan of this city, a lawyer, being named as receiver.

A belief that creditors of the company would receive 90 per cent. of

their investment was expressed in the federal court by Robert Gallagher, counsel for the company. This figure is considerably higher than the estimate of Attorney General Allen of Massachusetts, who said yesterday that the visible assets thus far amounted to something like \$150,000, and that the total of the company's business in notes was probably \$250,000.

Mr. Gallagher told the court that aside from the assets in the possession of Attorney General Allen and the police, there was a deposit of \$1500 in a Boston bank in the name of the wife of the president of the company, Charles Brightwell, a deposit in a New York bank of \$15,000, and the office furniture.

Judge Morton said that the receivership would cover the three petitions filed in the case, one against the company and one each against President Brightwell and the secretary, Raymond Myers. In this respect the action was different from that in the Ponzi receivership where only one of the several petitions was acted on.

MINORS WORKING IN SUMMER MONTHS

More than 450 working certificates entitling minors between the ages of 14 and 16 to work during the summer vacation have been issued by the attendance officers of the school department at city hall this summer. These certificates expire Sept. 11 and upon their expiration the boys and girls for whom they were issued will be obliged either to attend regular sessions of a public or private school, or if they plan to continue to work, must enroll in a continuation school class.

TRANSFERRED TO NEW PASTORATE

Rev. Daniel A. Barry, a former resident of this city and a brother of Mrs. Michael Barry of 11 Drott street, has been transferred from St. Patrick's church of Silverton, Colo., to a new pastorate at Holly, Colo. Rev. Fr. Barry had served in Silverton for more than five years and had made a large number of friends there. He is also well known in this city.

PAZIFICATION OF MEXICO COMPLETE

MEXICO CITY, Aug. 19.—Reports that Lázaro Cárdenas, governor of Lower California, had turned over his office to Luis M. Salazar, were declared correct today by Miguel Alemán Robles, private secretary to Provisional President De la Huerta.

"The settlement of the Lower California situation," said Señor Robles, "completes the pacification of Mexico."

Marching on Brest-Litovsk

We have driven back the enemy. We are seven miles from Ciechanow. "We have abandoned Lukow and Radlin and fighting is proceeding for Bieles and Wlodawa. (Biele is 25 miles northeast of Radlin, and Wlodawa 42 miles southeast of Radlin.) In the Cholm and Hrubieszow regions (southeast of Lublin) our advance continues."

Peace Conference at Minsk
LONDON, Aug. 20. (By Associated Press).—The second sitting of the Russo-Polish peace conference at Minsk took place Thursday and a summary of Russia's terms was communicated to the Poles. They were substantially the same as those the Russian delegation published in London, says a Moscow official statement dated Thursday and received in London this morning.

Stated orders for the conference were issued upon. "Towards the end of the session the Russian delegates protested against the Poles' efforts to drag the negotiations, the statement says."

The terms laid down by the Russian

WOODEN STEAMERS FOR SALE

Twenty-four United States Shipping Board Steamers

Sealed bids will be received in the office of the United States Shipping Board, 1315 F Street N. W., Washington, D. C., on or before 5 p. m., August 31, 1920. Bids to be opened August 31, 1920, at 10 o'clock in the office of the board.

The steamers are the Ballin and Daugherty type.
BALLIN TYPE SPECIFICATIONS are as follows: Length, 115 ft.; breadth, 18 ft.; depth, 10 ft.; draft, 10 ft.; loading draft, 25 ft.; 2 in.; designated deadweight ton, approximately 4,000; boilers, 2 Water Tubes; engine, one triple expansion; I. H. P., 1,500; coal burner—radius, 5,500; speed, 11 knots; bale cargo, 149,750 cubic feet.

DAUGHERTY TYPE SPECIFICATIONS are as follows: Length, 115 ft.; breadth, 18 ft.; depth, 10 ft.; draft, 10 ft.; loading draft, 25 ft.; 2 in.; designated deadweight ton, approximately 4,000; boilers, 2 Babcock & Wilcox Water Tube; engine, one triple expansion; I. H. P., 1,450; coal burners—radius, 5,150; speed, 10 knots; bale cargo, 193,200 cubic feet.

TERMS—10% Cash, Balance in Three Years.

Further information may be obtained by request sent to the Secretary of the board.

Bids may be submitted for one or more vessels or for any combination of vessels and must be accompanied by certified check payable to the U. S. Shipping Board for 2% per cent. of amount of the bid. Bids should be submitted on the basis of purchase, "as is and where is."

The board reserves the right to reject any and all bids.

SEALED BIDS should be addressed to the Secretary of the UNITED STATES SHIPPING BOARD, WASHINGTON, D. C., and endorsed, "SEALED BID FOR STEAMSHIP. (Name of ship)" and "Do Not Open."

MUST BE GRAND TO BE FRECKLED

Who said girls don't love a freckled-faced lad? Certainly not Wesley Barry, who has made the freckled phiz

in America one of the best known on the silver screen. And if he ever did, he's shown in the pleasant act of

ter would, in the main, be identical with the line indicated in the note of Earl Curzon, the British foreign minister, of July 20. Russia stipulated, however, that additional territory would be given Poland on the east in the regions of Bialystok and Cholm.

First: The strength of the Polish army to be reduced to one annual contingent of 30,000 men, together with the army command, and an "army of administration" (apparently a permanent force) to aggregate 10,000 men.

Second: Demobilization of the Polish army to occur within one month.

Third: All arms, excluding those needed for the army forces specified, to be handed to soviet Russia, and the Ukraine.

Fourth: All war industries to be demobilized.

Fifth: No troops or war material to be allowed to come from abroad.

Sixth: The line of Volkovsk, Bialystok, and Prawe, to be placed fully at the disposal of Russia for commercial and from the Baltic.

Seventh: Land to be given free to the families of all Polish citizens killed, wounded or incapacitated in the war.

In return, Russia offered to withdraw the Russian and Ukrainian troops from the Polish front simultaneously with the Polish demobilization and to reduce considerably, upon the termination of these operations, the number of Russian troops on the Russian frontier line, these forces to be fixed at a figure to be agreed upon.

The final frontier of the independent state of Poland under the Russian of-

taking it back. Gee, it must be grand to be freckled and famous and every-

told the delegations at Warsaw who had come to tell him that he was the most popular man in Poland and was proclaimed by all as the "savior of Warsaw."

Advices received here from the Polish capital quote General Weygand in his response to the delegations, as follows:

"Preparatory military operations were executed by the Polish generals according to the Polish plan. My role, as well as that of the other French officers, was limited to filling certain gaps in the details of execution. It is the Polish nation that has been its own savior."

"This magnificent victory consolidates the Polish state, whose existence is indispensable to France's existence. Germany, who had hoped to resume direct relations with the soviets and to throw red armies against the enemy across the Rhine, must renounce for the moment such means of annulling the Versailles treaty. If the Polish leaders know how to profit by victory, I am convinced that the Bolshevik army will soon cease to exist."

PARIS, Aug. 20.—The Temps announces that the French government has received advices that Polish troops have occupied Biele, 25 miles west of Brest-Litovsk.

General Rudenny's soviet cavalry, however, is progressing in the direction of Lemberg, the sector from which the Poles have been obliged to withdraw troops to reinforce the northern front, the Temps says.

PARIS, Aug. 20.—A train carrying 8000 horses from France for Poland stopped at the Belgian frontier, although Poland had given assurances the animals were for use in agricultural work, according to a Brussels despatch to Le Journal today.

"Polish Victory," Says Weygand
PARIS, Aug. 20.—The success of the Poles in throwing back the Polishoviki in the battle of Warsaw was a "Polish victory," the French General Weygand

DISTRIBUTE THOUSANDS OF WAR TROPHIES

NEW YORK, Aug. 20.—Thousands of war trophies brought from the battlefields of France for use during the Liberty loan and other drives are being distributed at the warehouse of the French mission here. The material includes guns of all kinds used by the French, British and Germans, cavalry swords, cuirasses, shells and soldier equipment.

Large demands for trophies have come from inland cities, according to Maj. Jean Malye, director of the bureau of information, direction generale des services Français Aux Etats Unis, now in this city.

One of the largest single collections, with the exception of that given to Washington for the National museum, was presented to the Army and Navy club of America. The trophies will be preserved in a suitable environment to be included in the plans for the new \$2,000,000 clubhouse that is to be erected in honor of the officers killed in the war.

The collection of 50 pieces is made up of cannon, flame throwers, trench mortars, machine guns, bayonets, rifles, swords, cuirasses, wire cutting machines, trench stoves, brassiers, marmites, shells and shell baskets, marine signal flags and other interesting and valuable trophies. The selection was made by Capt. Adrian Duane Doty, U. S. Signal corps, representing the club.

Tanks and German field pieces weighing from one ton to ten recently have been given to cities like Chicago, St. Louis, Chattanooga and others as far away as Texas.

A huge German listening post has been given to Bloomfield, N. J. Montclair received a whipper tank, while the National museum at Washington was awarded a large 16-man tank. Other valuable pieces were sent to Washington, including an airplane, sample pieces of all the foreign artillery used during the war, uniforms and field kitchens.

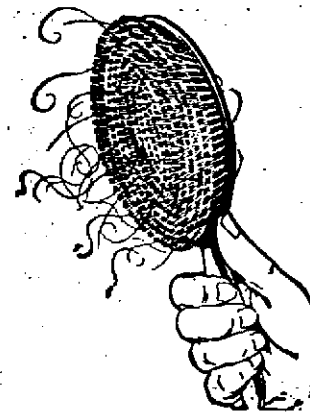

The prize of the collection, a Big Bertha, was claimed by Mt. Kisco, N. Y., and will be placed in a prominent position there. The state university of Baton Rouge, La., has requested the immediate shipment of a German minnen werfer. Chattanooga has been given a German 150 millimeter gun weighing three tons.

The Chicago collection was chosen by Col. E. M. Marr. It will be shipped to that city within the next few days. Sergt. Fred Eneth, French army, who has been in charge of the material for two years, announced. An idea of the demands made for trophies, he said, could be gained from the fact that more than 3000 French helmets and an equal number of uniforms had been disposed of.

To various parts of the American Legion field pieces have been given. All requests are filed at the office of the director generale, 65 Broadway, before permission is given to inspect and select the trophies.

"DANDERINE"

**Stops Hair Coming Out;
Doubles Its Beauty.**

A few cents buys "Danderine." After an application of "Danderine" you can not find a fallen hair or any dandruff, besides every hair shows new life, vigor, brightness, more color and thickness.—Adv.

"ABSOLUTELY PAINLESS DENTISTRY AT THE RIGHT PRICE"

We are doing more to keep the price of high grade modern dentistry within the reach of the people than any other dentist in New England.

I SIMPLY WILL NOT CHARGE EXORBITANT FEES

My Dentistry is the best it is possible to do. None of "that good enough" kind of work in my place. You come to me, feeling in your heart that I am the best dentist in this City—you pay my price and you are entitled to—and will receive perfect, harmless dentistry. This I guarantee you will receive. You cannot be too particular to suit me.

SHOTS FIRED

Three Masked Men Rob Crap Shooting Party

WHITINSVILLE, Aug. 20.—Three men, whose faces were masked by handkerchiefs held up a party of between 40 and 50 craps shooters in the woods on the West Side of this town at dusk last evening and got away with several hundred dollars.

One man is said to have been robbed of \$600. The robbers, who arrived in an automobile, fired three revolver shots and cried, "Hold up your hands!" Some obeyed, while others scampered off into the woods and saved their rolls.

After collecting what cash they could, the three robbers boarded their automobile.

At the junction of Main and North Main streets a box of 32-calibre cartridges was found. It is thought it was thrown away by the robbers.

MIKE DOYLE'S IDEA

SHADES MR. PONZI

BY JACK CARBERRY

N.E.A. Staff Correspondent

MATAMORES, Mex., Aug. 20.—For sale—1100 Mexican farms, fully equipped. Cheap. Write or wire Mike Doyle, care of El Buckhorn Bar, Matamoros, Mex.

Mike Doyle, saloonman here, is seriously considering running ads like that in American papers.

Not that Mike has the 1100 ranches, but that he believes he will have them, soon.

Doyle is forming a syndicate here to buy up the farms given Pancho Villa's soldiers in Coahuila.

Under the "unconditional surrender" terms made by Villa to President Adolfo De la Huerta, each of his men receives a farm, fully equipped, together with a year's pay in advance. Villa himself, in addition to his farm, gets \$2,000,000 in gold for his surrender.

"Show me a Mexican with a year's pay in his pocket, and a farm, who will be contented to stay on that farm and I'll show you a miracle," says Doyle.

"Why, a man with \$50, a Stetson hat and a pair of duck pants can take over the best piece of land in the state of Coahuila," he says. "Furthermore," he adds, "I'm the boy who's going to do it."

Doyle has already received promises from 50 Villa men that they will sell him their farms, he says.

MAY SEASON MINCE

PIES WITH LIQUOR

WASHINGTON, Aug. 20.—"Mince pie parties" are likely to grow in style and popularity under a ruling by the prohibition enforcement commissioner that mince meat may be seasoned with "intoxicating liquor." This is expected to allay somewhat the fears entertained by many New England congressmen when prohibition was before congress.

The ruling of the commissioner does not restrict the percentage of alcohol to be added, but simply requires the manufacturers of mince meat to obey orders from time to time. He has been advised by chemists that properly made mince pies are not intoxicating.

BIG INCREASE IN DRUNKENNESS

IN ENGLAND AND WALES

ANNOUNCED

LONDON, Aug. 20.—Convictions for drunkenness in England and Wales in 1919 were nearly double the figure for 1918. The total was 57,248 as compared with 29,075, according to an official report just issued. Greater London and Northern England accounted for 53 per cent. of the total.

Among some of the reasons given for the increase are that there are more men at home and fewer of them in khaki, more policemen and those less overworked available for street duty, more hours for drinking and stronger liquor.

110 OFFICERS DISCIPLINED

BERLIN, Aug. 20.—The war office has disciplined 109 naval officers as a result of inquiry into their conduct during the Kapp revolt. Some were cashiered and others retired, suspended, transferred or subjected to other penalties.

*In Pleasant Anticipation of Your Approval, This New Store
Extends to You a Cordial Invitation to Attend*

THE OFFICIAL OPENING

SATURDAY, August 21, at 9 A. M.

An occasion which signalizes the opening of a finely appointed new Drug Store that embodies virtually every convenience which modern store designing has evolved.

The many weeks of preparation are now over. We are ready to take the greatest pride in presenting to the people of Lowell and vicinity, for their approval, GREENS DRUG STORE—a store that is the latest word in its particular sphere. The best that money and brains could buy are represented in this newest acquisition to Lowell's mercantile centre.

All well known standard advertised goods—those given the seal of approval by such authorities as "Good Housekeeping" and the "Ladies' Home Journal"—will be carried in stock constantly.

Opening Day Courtesies

With every purchase amounting to \$1.00 or over in any department, on opening day, we will present, FREE, a 25c can of Vivaudou's Violet V. or Rose V. Talcum. A delightfully perfumed powder that will suit the most fastidious taste.

With every purchase amounting to \$1.00 or over in any department, on opening day, you will receive, FREE, \$5.00 worth of MUTUAL PROFIT SHARING COUPONS, which are redeemable for standard merchandise at our Premium Department.

With every purchase amounting to \$1.00 or over, at our Cigar Department, on opening day, we will present, FREE, a 35c tube of Johnson's Shaving Cream Soap. This soap is recognized as the finest shaving cream on the market.

How Best to Serve the Public

is the question that will take up most of our waking hours.

We know that profit is the big by-product of good service. Good service to us means:

- Complete stocks of fresh, new goods always.
- Salespeople who know our merchandise and its application to your needs.
- A first fair price to all.

This Store Will Be Engaged

not alone in selling goods, it will be equally concerned:—

- That those goods satisfy.
- That their sure satisfaction will bring the purchasers back again and again.
- That each transaction be mutually profitable.
- That every transaction carry with it a broad flow of human interest.

— A Foreword —

Every city has its Drug Store, the store toward which the populace set their faces. It will be our aim to have the people of Lowell and vicinity visit our store convinced that buying here is SAFE, that they can depend upon our assertions as facts, not theories.

We have set our course straight ahead—unwaveringly will we follow those precepts of merchandising which concern themselves with the principle of "Patron First." We shall endeavor to CONSERVE your interests, PRESERVE your confidence, and DESERVE your patronage.

Among the Many Features

you will find the following:—

- Postage stamps on sale for your convenience.
- Delivery at all hours.
- Telephone stations ideally located.

Profit Sharing For All

Every customer will receive Mutual Profit Sharing Coupons, which, when exchanged for standard merchandise at our own Premium Department, mean a very substantial saving.

We Will Present \$5.00
Worth of

**MUTUAL PROFIT
SHARING COUPONS**

with a purchase amounting to \$1.00 or over on opening day.

MURRAH FOR POLAND!

Murrah for Poland! Murrah for Pilsudski and the French generals who are helping him to drive back the Bolsheviks, from the gates of Warsaw!

In the momentous issues involved, there is little doubt that this defeat of the Red army, if it saves Poland, may be fully as important as the first battle of the Marne. It saves not only Poland but probably all of western Europe.

It is a glorious reversal of a situation that seemed replete with indications of coming disaster. The defeat of the Reds in the moment of victory is due to the prowess of the Poles and the military genius of the French generals directing the defense of Warsaw. The counter attack launched against the Russians is said to be one of the most brilliant movements executed in any war. It shows in a striking manner the force and power of military genius such as the French generals possess.

France has come to the rescue of Poland while England holds aloof and is suspected of having an understanding with the Reds that she will not interfere in the Polish conflict if the Reds cease to move toward India. It was probably under this arrangement that the allied high commissioner at Danzig held up war munitions for Poland during the supreme hour of battle. That act alone might have given the final victory to the Bolsheviks, but fortune, let us hope, has ordained otherwise.

The stand taken by the United States on the Polish question is logical and right. It is the only ground that any honest and unselfish nation could consistently take. It is most cordially endorsed by France, and now that Warsaw is likely to be saved, there is hope that the tide has turned against the Reds and that the retreat from Warsaw is the first real blow that presages the downfall of their regime after having run through the gamut of all the worst forms of revolutionary madness.

General Wrangel in the south of Russia stands for the constitutional party; but how far he will be able to contend with the Reds is problematical unless he receives liberal aid from the allies. But England is pledged against this course while Italy takes a similar position, thus leaving to France and the United States, the responsibility for whatever aid may be forthcoming. He has already been notified by Lloyd George of England that he need not rely on any further British aid. Thus the allied powers are divided, France alone standing by Wrangel against the Reds. The United States, while not extending recognition to Wrangel's government, is in full sympathy with his cause and regards him as the chief instrument by which the Bolsheviks may be overthrown.

What the outcome of the European struggle will be cannot yet be predicted; but should Poland fall to the Reds, the result would be either recognition of the Soviet Russia by the allied nations, or war to destroy their power.

THE PRINTING INDUSTRY

When Gutenberg placed the first pieces of movable type side by side and discovered the art preservative of all arts, he would have been the most surprised man that ever trod the earth, probably, if he could have foreseen, even in a dim way, the mighty changes that he was to bring about in the world. Alexander, Caesar and Napoleon were all mighty men. They set vast armies in motion. They conquered great empires. They set up and threw down governments. Not all of these, however, have been so much in changing the course of the world's life as did the father of the printing art.

Presses have recently become available regarding the printing trade in Massachusetts. They are of more than ordinary interest.

In the city of Boston, for instance, more than \$20,000,000 is paid every year by the public to the newspapers.

In the state as a whole there are 647 printing plants with a capital investment of \$22,407,000. They use every year raw material valued at \$14,528,000 and turn out finished products having a value of \$34,976,240. Nearly 10,000 persons

are employed in the printing establishments.

Statistics are commonly dry enough reading but those quoted above are worth thinking about.

JUNIOR HIGH SCHOOL

It seems that in spite of all objections, the school board is about to introduce the junior high school system in Lowell. We suggested when the matter was under discussion before, that it would be well first to adopt the eight-year grammar course. After making that a success, if the necessary buildings were available, the board might then adopt the junior high school system with reasonable hopes of success. But apparently without either suitable buildings or other necessary preparatory steps, the board is determined to adopt the system. If we could see how it can be properly applied under present conditions, we should promptly favor it as desirable. It is to be hoped that the school board knows its ground and that the changes proposed will not be analogous to what happened when somebody brought about the adoption of vertical handwriting in the schools.

REPUBLICAN BLUSTER

Governor Cox has already got the republicans scared and excited. They are making general charges of mismanagement and extravagance against the democratic party, but without proof in any particular instance. The fact is, the republicans haven't a leg to stand on when they charge the democratic party with incompetency. The record of the republican congress shows that the so-called "Grand Old Party" has lost its capacity for business and is now floundering like a ship without a rudder. It has failed to provide a single measure of reconstruction worthy of commendation and it is already apparent that its attempt to start our merchant marine has been a hopeless failure. The republican ticket is reactionary, the democratic stands for peace, progress and prosperity.

PASSING THE BUCK

It is noticeable that Senator Lodge, while expressing great sympathy for Poland, passes the responsibility over to President Wilson. In reply to a delegation of Poles who waited upon Secretary Colby, that official equally expressed profound sympathy for Poland, but said that very little in the line of material assistance could be done without authorization by congress. Thus it seems like a passing of the buck, although it is known that President Wilson is quietly rendering aid to Poland. Just what steps he has taken in that direction is not announced but it may assume the contribution of munitions and food, both of which are greatly needed.

MEXICO

It is announced that Mexico will probably reject conditions upon which the United States has proposed recognition of the new government. This is a matter, however, in which Mexico must meet the requirements of our government or suffer the consequences of delay. The United States demands only reasonable guarantees of the observance of established international customs and the protection of Americans within the borders of Mexico. Now that Villa and some other bandits are out of the way, the protection of foreigners may be less difficult and our relations with Mexico more harmonious.

That the life-guard corps at the municipal bathing beach is highly efficient, almost everyone will agree, but unless some further cut-out governments. Not all of these, however, have been so much in changing the course of the world's life as did the father of the printing art.

Presses have recently become available regarding the printing trade in Massachusetts. They are of more than ordinary interest.

In the city of Boston, for instance, more than \$20,000,000 is paid every year by the public to the newspapers.

In the state as a whole there are 647 printing plants with a capital investment of \$22,407,000. They use every year raw material valued at \$14,528,000 and turn out finished products having a value of \$34,976,240. Nearly 10,000 persons

Kentucky says, "The real big issue of this campaign is that we want to get rid of the democratic administration." A shorter way of putting it would be, "we want the offices because we want them." That is about the only issue from the G. O. P. standpoint.

It is good to accord honor where honor is due. The board of assessors of the city of Lowell kept its expenditures for the month of July down to \$38. You have won the prize for helping to keep down the mounting costs of government. Messrs. Assessors, although you did allow the tax rate to mount higher.

The acting governor of the Philadelphia Federal Reserve bank says that \$3,000,000,000 is stored away in the "old-stocking banks" of the country. It is better to keep it there than have it "Ponzed." But better still have it in a Massachusetts savings bank.

Professor T. S. Adams of Yale, chairman during the war of the United States treasury advisory board, expresses an opinion that is probably pretty prevalent hereabouts when he says taxes on soft drinks are "widely evaded and unequal, unfair and ridiculous."

The smoothly shaven face, represented in the pictures of the Russian soviet minister of war that are being printed in the newspapers, gives rise to the suspicion that the photographs are fakes. A whiskerless Bolshevik? Never.

The American Telephone and Telegraph company reports that "there has been a marked improvement in our service to the public, and this improvement will continue as plans now underway mature." Thank you.

Confession is sometimes good for the soul. Here is the way the republican Boston Herald owns up: Our man-made politics are at a pretty low ebb just now, with Fred J. Burrell, the choice of the male electorate of the republican party for treasurer.

Governor Cox spoke last night before an Indiana association of democratic editors. There is a glad-hand welcome awaiting him from another little bunch of democratic editors up in this neck of the woods if he shall decide to visit it.

The Koreans, who are plotting to abduct and hold onto a party of American congressmen who are touring the Far East, show a much keener appreciation of the value of congressmen than we commonly do over here.

The ostrich, hiding its head under its wing at the approach of danger, was a wise and sensible creature compared with the governments of the allies trying to shut out the "Red" menace from their fields of vision.

We refuse to believe the story that the newly enfranchised voters intend to insist that the ballot boxes of the future shall be painted egg-shell blue and that a satin ribbon rosette shall be attached to the corner of each one of them.

It does not take much to make a hero with the Bolsheviks when they can throw up their hats and cheer for Bela Kun, one-time foreign minister of Hungary and apostle of impractical communism.

For topsy-turvyism take a look at Japan where labor unions are forbidden by law and the labor unions are protesting against the passage of a legislative act that will make labor unions lawful.

We are reminded of the mountain laboring and bringing forth a mouse when the widely-heralded drop in sugar prices materialized in a cut of one cent a pound.

Of course Ponzi could not have foreseen that he was destined to be the man to put a republican state treasurer out of the advertising agency business.

It begins to look as though the ultimate consumer was to be the one to push prices down even as he was the one who boosted them up.

berited \$3,250,000. Unto him that bath shall be given, and from him that bath not the price-hoover shall take away even that which he bath.

What's the use of being a city official anyway if you have to pay for your telephone like ordinary folk?

Premier Lloyd George is in Switzerland on a vacation. Possibly he may attempt to inspect the Swiss navy.

SEEN AND HEARD

My dear! Wouldn't it be simply terrible if the speaker of the Tennessee house should change his mind?

Ponzi collected more on his 50 per cent. idea than Alexander Hamilton received for putting the financial foundation under the United States of America.

Did it surprise you to read that a prohibition raid had taken place at Ponzi's home? That's just one of wealth's little drawbacks.

Exports have estimated that 20 million tons of paper pulp can be produced each year from India's bamboo and grasses. Guess we better move our newspaper plants over there or transplant some of the roots in this country.

If we began paying the farmer as much for food he produces as we do the speculator for not producing the food we want, we couldn't coax farmers' sons to city jobs.

This is a cruel reminder, but don't forget, boys and girls, that the school bells will call you in from play in another week or two.

Wonder what the 20th amendment is going to be, now that the 15th and 17th have had their share of discussion.

Just about now look for heavy crops of fanned faces and peeling skins. The exodus from the beaches has begun.

Pity the poor "pols" who can't go away for their August vacation because the state primaries are so near at hand that fences must not be left unguarded.

And the Follage, Too!

Charter investigation to begin its sweeping investigation; chamber of commerce to start better street campaign; presidential election, city departments to exhaust funds. Verily, it will be an autumn worth waiting for.

Thanks Are Shining

A British butcher is said to employ carrier pigeons to bring in orders from outlying country districts. Now, if he only modernizes his business and makes all deliveries via airplane he may assure his customers of food unimpaired by the dust of the streets and roads.

Truth

(Copyright, 1920, N.E.A.)
Thou God, in whom the great suns shine,
In whom the grass renews its youth,
O all thy gifts I ask as mine.
This only, that I seek the Truth.
Riches and honors, fame and power
Are pleasant dreams for some, in youth.
Yet, let me scorn them in the hour
Thou givest me to find the Truth.
And though it bring me crown or cross,
Or perfumed words, or scorpion's tooth,
Whatever the gain, whatever the loss,
Let me with all men share the Truth.
EDMUND VANCE COOKE.

MAN ABOUT TOWN

While some of the workmen were moving the large steel girders on the high school lot recently, they found a dead cat wedged in amongst them. The body was very much decomposed and it was evident that it had been there for some time. Some of the workmen immediately began to conjecture as to how the cat got in there under the girders, why it did so and why it couldn't get out. All kinds of theories were put forward. Perhaps the cat chased a mouse in there and couldn't turn around to come out; or it might have crawled in there and been drowned during a storm; or it might have been chased in there by a dog and died of starvation; or it might have been overcome by the heat; or it might have been frozen to death by the cold, such were the conjectures of the workmen. But speaking of cats in connection with building matters, Architect Davis informs me that when the Chalfoux building was being erected a cat ran into a sewer pipe that was open only at one end. The workmen did everything they could to entice the cat to come out but to no avail. Not even food placed at the mouth of the pipe served to bring her out. Finally, the men had to seal up the pipe and leave her in there.

Several men in such positions in this city as to be authoritatively informed about the draft dodgers' list which the government plans to give to the public within a short time, say that the Lowell list will create a furor of excitement. Whether or not the list will be given to the press is not known or whether it will be turned over to the American Legion, local post, is also unknown. One man prominently connected with the local post of the legion has been talking with the government authorities in regard to the matter of putting the list in the hands of the legion for action.

The Lowell list of draft dodgers was at first quite lengthy but it is gradually being lowered by registrants who either were drafted or enlisted in other cities. It is expected that the list will be ready next week.

That subject of snow and story, of banishment and molestation, the New England climate, put in one of its best examples of quick changes Wednesday and sent people scurrying into closets for overcoats who 24 hours before were sweltering in even the lightest of summer clothing. After a period of oppressive humidity which began a week ago Sunday and continued without a let-up until Tuesday, the weather man suddenly took a change for the better and gave Lowell a regular fall evening. Overcoats on men were common around Merrimack square and few women passed who did not have either a coat or suit of heavy material. Pizzas that only a day or two before were sought as havens of comfort were mighty uncomfortable unless one had plenty of clothing. It was a regular October evening and one instinctively looked at the trees to see if the leaves were falling. But Friday Summer, undoubtedly, still has a few more days of heat to offer before the snow flies.

BLOODY WORK IN IRELAND

Soldiers Murder Innocent People Nightly and Wreck Business Places

Mild Order Against Reprisals Has Not Been Enforced by the Government

The following despatch to the New York World by its special writer gives an insight to the actual conditions in Ireland:

LONDON, Aug. 19.—Gen. Sir Nevill Macready, Irish commander-in-chief, has tardily issued a perfunctory notice to the police and military fire-rangers, looters and murderers, that reprisals will be punished by the severest disciplinary measures. Not in one single case has any officer, soldier or policeman yet suffered anything but protection at the hands of his superiors for acts of this kind. The Daily Mail correspondent says:

"Coercion is to be given a free hand in Ireland. Soldiers now doing police work and the military are determined to arrest all Irish Volunteer leaders they can lay their hands upon. Certain responsible military officers believe the given adequate power they can subdue the country. They do not recognize the fanatical elements in the Irish Volunteers. Men like Lord Mayor MacSweeney will cheerfully die for the cause they have espoused."

"As a matter of fact, political martyrdom is the religion of young Ireland. This spells ruin and chaos. Both sides subscribe to a policy of violence. Men are being shot and property destroyed every day, both sides hiding their own complicity and condemning the activities of the other."

Military Reprisals

The correspondent then gives a long list of police and military reprisals within the last three weeks, but cannot say Macready has even, by word or deed, shown his disapproval of them. Sinn Feiners regard these government reprisals as justifying their claim that a state of war exists, which indeed, cannot be denied. A typical example of military methods is afforded by the case of Mr. Biggs the most important merchant in Bantry. Recently soldiers destroyed his whole business premises and now officers of the battalion that did this have commandeered his private residence, thrown his family out on the roadside and intend making an officers' club of his house.

Allowance must be made for the military who have suffered a series of humiliating defeats at the hands of the Volunteers, who outmaneuver and beat them every time there is a straight fight. The soldiers take revenge by shooting up and burning houses at night and killing Sinn Feiners in cold blood.

This week, near Thurles, soldiers raided the house of Patrick Lynch at night, searched everywhere for arms and documents and found nothing; then tearing him from his frantic wife and children took Lynch outside and shot him dead, and afterward threw his body into his father's garden. These soldiers were led by an officer.

Sinn Feiners' Claim

The Sinn Feiners claim they have never harmed a single one of the hundreds of soldiers who have surrounded them after a fight, but set them free disarmed, thus liberally interpreting the laws of war.

Henry Harrison, the secretary of the Irish Dominion league, who has been striving to bring moderate opinion in Ireland into the league movement, warns the government that the reprisals on innocent people of nightly occurrence throughout south and west Ireland, are rendering his task impossible.

ENORMOUS LOSS OF LIFE CAUSED BY FLOODS

HONOLULU, Hawaiian Islands, Aug. 20.—Tremendous floods are sweeping portions of the islands of Kysluu and Shikoku, southwest of Honahu, the principal island of the Japanese group, overwhelming towns and villages with an enormous loss of life reported, according to cable advices to Nippon Jiji, Japanese language newspaper.

MOTORBOAT RACES ON RIVER NEXT MONTH

The Lowell Motorboat club will conduct its annual races sometime next month, the exact date to be announced later, it was announced after a meeting of the organization last evening. The full program has not yet been arranged but, owing to the large membership of the club, it is expected that there will be more entries than ever. As in past years, the races will be held on the Merrimack river. The committee in charge is composed of Walter S. Shaw, J. Levesque, E. O. Gaudette, A. J. Page and Edward J. Barrett, Jr.

ADVENTURES OF THE TWINS

by Olive Roberts Barton.
MR. TURTLE'S ANCESTORS
Torty Turtle hadn't his rent money, so Tingaling and Nancy and Nick had to go home with him to get it. "It's funny," said Nick, "for you to have another home. I thought you carried yours along with you like Sugar Snail." "I do," confided Torty, "but I have to have some place to park myself, don't I? Sort of a garage, you know." Which was a very reasonable argument. Torty's home was in a rocky cavity.

TORTY LAUGHED. "OF COURSE I LOOK LIKE THEM. THEY'RE MY ANCESTORS."

ern over the shallow water beside Ripple Creek, and he soon carried his guests there upon his back. At first it was so dim the children could see almost nothing at all, but their eyes soon became accustomed to the darkness, and they looked around curiously. "What an interesting place," cried Nancy jumping down. "I'm so glad we came!" "What are all those funny round stones?" asked Nick sliding off. "They look like you, Mr. Turtle, when you're all folded up."

BURNED TO DEATH IN HAMPTON FIRE

Mrs. F. F. Sweet, only daughter of Mrs. Clara B. Williams, of 119 Middlesex street, this city, was fatally burned in a fire which totally destroyed her cottage at Hampton beach

last Saturday morning. Mrs. Sweet died at the Newburyport hospital and funeral services were held in Haverhill. Mrs. Williams lost out in a race with death, as her daughter died before she could reach the hospital.

Only 45 persons out of every 1000 population reach the age of 60 years.

Look The Best Two

Putnam & Son Co.

166 CENTRAL STREET

DRACUT'S NEWS OF DAY

Streets and Roads Demand
Attention and Police on
Trail of Hidden Stills

With employees of the Dracut street department actively engaged in repairing and renewing the roads of the town; the water department then at work on a large main in Hildreth street and the members of the police department under Chief Cuff, constantly on the watch for violators of the Volstead act and meeting with considerable success, the summer season is not too dull in the town across the river. There is also the ever increasing building boom in Hildreth street.

Although they have not been required to answer many alarms this year, it may be said that the members of the fire department are so on the alert that they were footed last night about 7:45 o'clock.

Trying Out Fire Whistle

Dracut is provided with two fire whistles, one at the mills in Collinville and the other at the Centre fire station. Because they are not used very often it has been the custom of the fire officials to try them out every so often, especially the one at the centre. Last night, at the time mentioned, the whistle sounded with a voice more husky than the one heard at any of the town's biggest fires. And what is more, it fooled some of the firemen, who ran to the station bell-rings, spurred on by visions of a roaring conflagration, so piercing did the whistle seem to be in the quiet town. Finally, sitting quietly at home at the close of the evening meal, jumped from their comfortable chairs, hardly saying adieu to members of their family and rushed out prepared for the worst. After all thoughts of a fire were dispelled it was said that someone had tested the alarm, or else it went off accidentally. During all this the chief of the department sat undisturbed at home because the bell in his house didn't ring.

Hildreth Street Work

If the labor supply does not improve immediately the laying of the water main in Hildreth street will not be completed within the specified time of one month. Ground was broken on the job early this week and already the men have put down 2400 feet of pipe at an estimated cost of \$1 per foot. Help shortage at present is threatening to delay the work, however. This main will connect with the large number of new houses being erected in that section and with the Dracut slaughter house which heretofore has not been so supplied.

One remarkable feature about the

Hildreth street home building is that many of the structures are built for only temporary purposes, undoubtedly due to the high cost of building materials. The building boom has been going on at full stride for the last year, so that in reality a new colony has arisen in Dracut.

Street Work

As soon as present roadwork on Pinrose Hill and patching in Lakeview avenue is completed the construction of the new road to Lakeview will be resumed, the town, county and state having appropriated sufficient funds to warrant a continuance of the work. Work on cutting down the steep incline on Pinrose Hill, which has been a constant danger to traffic in that section, will be completed next week at an estimated cost of \$1000. Upon completion, the road will be of a much lower per cent grade and will be made of dirt.

The repairing of the main road to

the Pelham line was completed last week and today, Supt. Henry Parker started a gang of men to work patching up holes in the Lakeview avenue road.

Activities of Police

Chief of Police Cuff and Officer Clinton Coffin have been keeping close watch for "moonshiners" and they have been of great assistance to the federal officers who have made a number of visits to the town. Recently, in company with federal officers the town police brought about the arrest of Foster for violation of the Volstead act and seized a still and 10 gallons of whiskey on his premises. Foster is now awaiting trial before Commissioner Hayes in Boston.

On the same morning they arrested Manuel Sousa on a similar charge. They found Sousa in Bridge street near the Pelham line, driving a wagon in which was found a jug of "moonshine." After arresting Sousa they

later raided his property just over the New Hampshire line and seized a still, two barrels of mash and a few barrels of molasses. The federal officers accompanied them into New Hampshire.

Miscellaneous News

The Dracut Centre church will be closed for the next two Sundays, this month having been given as a vacation period to the pastor, Rev. A. C. Jenkinson. During the first two Sundays of this month the pulpit was supplied by Rev. Mr. Robinson of the Billerica Congregational church. The church will reopen with a grand rally day on September 5.

Mrs. Frances and Roberto Smith have just returned from a two weeks' vacation in New Hampshire.

Mr. Frank Huntley and wife are spending their vacation at Rock pond, N. H., and Mr. and Mrs. Clinton Coffin and son are also at the same resort. A daughter has been born to Mrs. Ray Leroy.

FIVE FIREMEN INJURED ON
WAY TO FIRE

BOSTON, Aug. 20.—Five Cambridge firemen attached to Engine 5 were injured yesterday when the piece of apparatus responding to a general alarm, sounded for a blaze at the American Fire Prevention Products company on Albro street, "side-swiped" a Harvard square bound car in front of Cambridge city hall.

The injured are:
Capt. Herman Gutheim, 29 Bigelow street; arms bruised.
Lieut. William Kelly, 46 Maple street; bruises of head and right elbow.
Hoseman William Johnson, 11 Springfield street; sprained wrist.
Hoseman Harry Findley, 218 Prospect street; sprained wrist.

Driver Hugh Powers, 271 Putnam street; bruises of arm.
Only quick action by Driver Hugh Powers prevented the truck crashing squarely into the car and injuring passengers. Seeing that a collision was unavoidable, he quickly swung the big piece of apparatus so that it struck the trolley at any angle, sending the truck up onto the sidewalk. It was sent to the repair shop for a week.

Captain Gutheim was thrown from the seat and against the car when Driver Powers swung the truck to prevent it from boring through the middle of the trolley. Hosemen Johnson and Findley were also thrown to the ground, but Lieut. Kelly, hung on until the great piece of apparatus climbed up on the sidewalk. Then he slipped off the back.

The fire, the cause of which is unknown, was discovered by William Powers, who was nearly overcome by smoke as it belched forth from the workshop. Frank J. Lohan and Martin B. Dowd, owners of the establishment, rushed to his aid.

The blaze had gained such a headway that it was impossible for any of them to reach the fire extinguishers. Before the apparatus reached the scene the roof of the brick structure caved in. A rumbling accompanied it that sounded much like an explosion, giving rise to a report that contents of the building had exploded.

The United States public health service estimates there is one rat to each person in the country.

70 BURIED ALIVE WHEN
MOUNTAIN COLLAPSED

MANILA, Aug. 20.—Collapse of a mountain top on this island in a recent storm buried an entire Ilocos village under hundreds of feet of earth, killing 70 natives, according to official notices received here yesterday. The village was located in the mountain province within 200 miles of Manila.

The top slid down upon the village at midnight. No bodies have been recovered.

LOCAL A. O. H. MEMBERS
TO HOLD GALA DAY

The local Hibernian divisions will hold a gala day at Revere beach Sunday, September 5. A number of trucks have been secured to transport members and the A. O. H. drum corps has been engaged for the day.

The building campaign committee of the A. O. H. building corporation met last evening in Urban hall, Middle street, and received optimistic reports from team captains and workers on the progress of the drive for a new building. Several shares of stock were sold during the evening.

TO VOTE AT 101

Miss Annie Stone Registers
at Boston

BOSTON, Aug. 20.—Miss Annie Stone at the age of 101, does not intend to allow the new day for women to pass without having her say. Registrars of voters today entered on the city's voting list the name of Miss Stone, the centenarian having hastened to make herself eligible to vote with receipt of word of the action on suffrage in Tennessee.

At the Home for Aged Men and Women, where she is an inmate, Miss Stone expressed a lively interest in the national campaign. She is in good health and up to three years ago, was active as a writer of poems and prose. Physically she says she has suffered little impairment, and she walks up and down stairs, disdaining the use of the elevator. She was born in Bangor, Maine.

APPROVE RAISE

IN R. R. TICKETS

BOSTON, Aug. 20.—Approval of the 20 per cent. increase in passenger fares on the New Haven, Boston & Maine and Boston & Albany railroads, which are to go into effect next week Thursday, Aug. 26, was announced by the state department of public utilities yesterday.

This includes the 12-rider, 60-rider and other forms of commutation tickets, all of which will be 20 per cent. higher in price in fulfillment of the decision of the interstate commerce commission allowing such an increase in the country's passenger rates.

FINAL REHEARSAL

COMES TONIGHT

The final rehearsal for the concert to be given by the Mathew Temperance Institute musical troupe at Lakeview theatre next Sunday evening takes place in Mathew hall tonight, and it is necessary for every principal and member of the chorus to be on hand to receive important instructions from Director Clarke.

The prospects are excellent for an unusually good performance Sunday. The soloists have their numbers well in hand, the character singers are performing in their best manner, the end-men have prepared an endless stream of jokes and comedy which will flow freely throughout the concert, and the chorus is fully capable of taking care of its share of the work.

WIFE FORGIVES

RETURNED HERO

CHICAGO, Aug. 20.—More than two years ago, Frank Wlanoski of Exchange street disappeared from home without warning, and his wife went to the clerk of the court and secured a warrant for his arrest on a charge of abandonment. Time went on, and he could not be found, so the warrant had a thick coating of dust when the policeman on the Exchange street beat saw the man at his home Wednesday night.

When discovered he was being honored as a hero by his friends, but the party was broken up by the serving of the warrant. His wife appeared in court yesterday morning, and explained that he had been in the service, and so she would not prosecute, and he agreed not to be mad at his spouse for swearing out the warrant.

Banish the Old Broom

For the Efficient ROYAL ELECTRIC CLEANER

Up-to-date housewives everywhere are fast substituting the efficient, easily operated ROYAL Electric Cleaner for the old, dust-scattered, rug destroying broom. The result is—

1. Homes are thoroughly clean.
2. Housework is minimized.
3. Carpets wear longer.
4. The health of the family is protected.

Come in and see the new 1920 model, fully guaranteed ROYAL and learn how easily it will be for you to purchase one for your home on our convenient payment plan.

SIGN OF BETTER TIMES AT HAMBURG

HAMBURG, Aug. 20.—In one day last week 22 steamers passed Cuxhaven on the way to Hamburg or to enter the Kiel canal. This was the largest number of ships to come into the Elbe in 24 hours since the early days of the war, and the event was hailed with intense satisfaction here as a sign of better times. Five years ago it was a dull day when only a score of vessels arrived. The Hamburg-American line alone usually had from 25 to 30 big ships in port and the harbor was so crowded with shipping that the problem of docking often became acute.

In those days few flags other than those of the German companies were seen in the harbor. Today Hamburg is literally under foreign colors. Shipping companies of all the principal nations have set up offices here and the formerly powerful German lines, having lost their ships, are acting now only as agents. American, British, Japanese, French, Italian, Spanish, Dutch and Brazilian companies display their advertisements in the shipping papers. Advertisements of German companies are so few that one must search for them.

There is some life again in the harbor but the ships are nearly all foreign. One passes long rows of splendidly equipped docks and warehouses, once a hive of industry but now empty and still. And in the absence of the many ships that used to make Hamburg a thriving commerce center, trade has died away and the great market places on the waterfront are practically deserted. Before the war Hamburg had become one of Europe's chief coffee markets. Now only a few sacks of that staple and their way there.

While Hamburg was losing its glory as a port, death was taking a heavy toll of the so-called "royal heads" of the big German companies, including Albert Ballin, president of the Hamburg-American line and the brothers Adolph and Edward Woermann, who guided the affairs of the great Woermann Indian and African lines. "Africa house," the scene of their labors, was the nerve center of Germany's vast colonial trade. It stands today a silent memorial of German imperialism.

It is realized that Hamburg faces a long up-hill struggle to regain its former prestige. A well-known banker told the correspondent he believed Hamburg had irretrievably lost its financial power and would never again enjoy the independent position it had in the past.

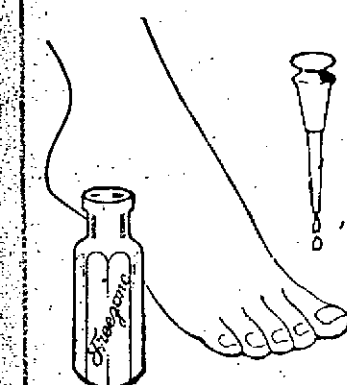

"Germany," he said, "is more closely united today than ever before. This means that Hamburg must work not only for itself but for all Germany as well. Until the country as a whole begins to get back on its feet, Hamburg's prospects are dim."

SAY "DIAMOND DYES"

Don't streak or ruin your material in a poor dye. Insist on "Diamond Dyes." Easy directions in package.

"FREEZONE"

Lift Off Corns! No Pain!

Doesn't hurt a bit! Drop a little Freezone on an aching corn. Instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly, your druggist sells a tiny bottle of Freezone for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and calluses, without ointments or irritation.—Adv.

burg's progress toward recovery must be slow.

At the moment, unemployment is a grave problem here. Between 30,000 and 35,000 workers are unemployed and Hamburg is spending more than 1,000,000 marks a week in donations to them. Labor here is generally discontented and strikes are frequent.

START WORK ON PACIFIC ARCH

VANCOUVER, B. C., Aug. 20.—Work has been started on the Pacific arch which is to stand at the crossing of the Pacific highway at the international boundary.

According to the men in charge of the work the structure will be completed in time for the official opening on October 26, when the queen of Rumania, her daughter, Princess Marie, Marshal and Madame Joffre, representatives of the Canadian and United States governments, of the Mikado and of the president of China are expected to be present.

The arch, it is estimated, will cost about \$50,000. It will be of steel and concrete and will stand 100 feet high. The simple inscription, which will be raised in bold letters for all the world to see is: "Children of a Common Mother."

A cataract bigger than Niagara is located on the Iguaçu river, which partly separates Brazil from Argentina.

FEED NERVES PLENTY OF PHOSPHATE IN SUMMER

Keen Minded Men, Energetic and Successful
Rely on It Asserts Prominent N. Y. Physician.

Bistro-Phosphate a Godsend
Men and women, nervous and fretful, easily upset and often fatigued need plenty of organic phosphate, and the sooner they heed this advice the better their health will be.

In every one of the millions of cells that make up your body, phosphorus is a most important part.

Your nervous system, your brain, your blood and even your bones must have a sufficient supply of phosphorus or weariness, nervousness and a general run-down condition, as well as lack of normal mental power is sure to result.

Big men of affairs—mighty men who control industries because of their will power and nervous force, know this, or if they don't, are clever enough to have a physician who does.

Physicians more and more are realizing that Bistro-Phosphate, as dispensed by A. W. Dows and all leading drug stores, is a necessity to over forty per cent of men and women, because present day foods do not contain enough phosphate to give the body and especially the nervous system the supply it needs.

Speaking on this very subject, Dr. Frederick S. Kolbe, Editor-in-Chief of

BLAME EX-EMPEROR CARL FOR COLLAPSE OF AUSTRIAN FORCES

ON PIAVE RIVER

VIENNA, Aug. 20.—Chief blame for the collapse of the Austrian forces on the Piave river, in the Austro-Italian campaign, is placed on the former Emperor Carl by the report of a commission appointed to investigate war delinquencies.

On the fateful November 2, 1918, the report says, the then emperor issued three conflicting orders within a few hours. The first was for the conclusion of an armistice. Forty minutes later this was revoked and 95 minutes afterwards it was issued again. During this period, it was said, the emperor consulted no one on the matter.

"We must ask," the report says, "whether the emperor and his advisors were not guided by the fear of the army flooding back on Vienna rather than by any other circumstances. It may be, perhaps, that by express intention but rather subconsciously, that the desire prevailed with more than one of these men that the troops had better not return home at all."

GREAT CRACKS IN EARTH

HUTCHINSON, Kans., Aug. 20.—Geologists and scientists of this part of the state are displaying much interest in great cracks in the earth reported to be appearing in Kiowa county. On the John Marriage ranch crevices 12 feet deep, half a mile long and some of them three feet wide have appeared recently. Attention to them was attracted by the finding of two steers in one of the crevices. The cattle were wedged in, apparently having fallen in when the earth cracked.

Geologists generally agree that the cracks are due to hot dry weather and the counter effect of the subterranean supply of water. In Meade county, farther west, the under-flow of water is tapped by many wells.

EVERETT TRUE

BY CONDO

WHALE HUNTING

FROM BABY BLIMP

LONG BEACH, Cal., Aug. 20.—Whale hunting from a baby blimp is a project of Captain John D. Loop, a resident here, who has had many years' experience whaling in the old-fashioned way. Captain Loop has invented an aerial harpoon to be dropped upon the whale with a buoy attached to trace the leviathan after he is struck. When the whale comes up for air after he is struck the captain proposes to attack him with a bomb gun. A blimp is being rigged at a Los Angeles flying field to try out Captain Loop's method.

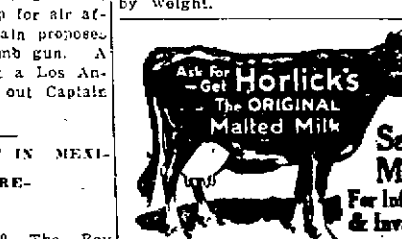

BOY SCOUT MOVEMENT IN MEXICO IS BEING REVIVED

MEXICO CITY, Aug. 20.—The Boy Scout movement in Mexico is being revived. A call has been issued by the leaders of the movement, for all lads between 12 and 17 years of age to present themselves for enrollment. The Boy Scouts, or "The Corps of

Mexican Explorers," as they are called here, formerly enjoyed a number of privileges from the government which provided them with uniforms, shoes, and even a small money allowance to pay their expenses during their excursions.

During the revolution, the movement virtually ceased. It is planned to give it new impulse along the lines formerly followed.

In Japan dresses are frequently sold by weight.

FIELD DAY FOR TEWKSBURY PARISH

The annual field day of the Tewksbury Catholic parish will take place next Saturday, August 21, on the beautiful grounds at the Centre, directly in front of the new town hall, and promises to excel by far the one held a year ago under the same auspices. Nearly a dozen committees are enthusiastically working for the success of the affair, which promises to be the one big event of the season.

A number of attractions will be brought here for the occasion, which will place both young and old and the townspeople are looking forward to a real good time.

The sports program, which is open to all, will include many games, races, contests, etc., and suitable prizes will be awarded the winners.

The midway with its lane of decorated booths promises to be a big feature.

During the afternoon there will be a band concert, by a band of 30 pieces. Dancing will be the main feature of the evening. This will take place in the new town hall. Music will be furnished by Sheehan's orchestra of Lowell.

During the evening hundreds of

lighted Japanese lanterns will tend to turn the village into a veritable fairy-land.

It is expected that people will come in large numbers from Lowell and elsewhere and the street railway will run extra cars where necessary, to accommodate all.

In case of unfair weather, the event will be postponed until a later date, which will be announced in the papers.

One variety of Japanese fan is made of waterproof paper, which can be dipped in water and creates coolness by evaporation.

CRASH ALWAYS COMES

Ponzi Case Just One More to Add to Already Imposing Array

BY EDWIN D. RIDER
N.E.A. Staff Correspondent
BOSTON, Aug. 20.—The crash always comes.

The Ponzi case is just one more proof to add to the long list of famous get-rich-quick schemes that have invariably blown up with a loud echo.

"226 Per Cent Miller" spent several years in Sing Sing in financial retro-spection.

New Charles Ponzi, the "money wizard" of Boston, is behind the bars. This crash of his "50 per cent in 45 days" scheme found him, government agents allege, with notes totaling \$1,000,000 outstanding and possibly \$2,000,000 in assets.

But Ponzi and Miller are only "little bubbles."

Exactly 100 years ago a bubble burst that was a bubble. It was the "Mississippi bubble"—probably the most famous get-rich-quick scheme in all history. Its founder was John Law.

What "Bubble" Did

Here are just a few of the results of the "Mississippi bubble":

It almost precipitated a revolution in France against the regent, the Duke of Orleans.

It made thousands in France beggar.

It closed the French national bank.

It resulted in the colonization of the present state of Louisiana and the founding of New Orleans and Mobile.

One difference between Ponzi and Law is this: Ponzi, an ex-convict, and ex-dishwasher, tried to bubble in foreign exchange—something not one person in a thousand understands.

John Law, however, was known as a celebrated financier long before he started his Mississippi scheme.

It was because of his recognized ability in mathematics, finance and speculation that he was able to get the ear of the Duke of Orleans, then regent of France.

His Plan Adopted

In 1715, Law, a man of 44, settled in Paris and opened a private bank. Its success was tremendous. Soon, due to pressure on the exchequer, the regent was persuaded to adopt Law's plan of a national bank. The bank was formed and issued a huge sum of notes, which for a time commanded perfect credit.

Meanwhile the old national bonds remained at a price far below normal.

With French finances nearing the rocks, Law conceived the idea of exploiting America—the lands around the mouth of the Mississippi, which he claimed were "as rich in minerals as Peru and Mexico," and which would soon yield tremendous profits to the French.

Sharks Gobbled Up

Accordingly, the Compagnie d'Océant was formed, with the exclusive right to exploit the region around the lower Mississippi for 25 years. The company started with a capital of about \$20,000,000.

Two hundred thousand shares were placed on the market and were eagerly bought. A great wave of speculative mania swept France. The price

of the shares rose soon to 20 times the original value. Fifty thousand additional shares were placed on the market—but there were more than 300,000 applicants!

The company, which also had the right of coining money in the colony of Louisiana, changed its name in 1715 to Banque Royale, and the regent guaranteed the notes. The next year it obtained a monopoly of trading to the East Indies, China and the South Seas.

Frenzied Finance

The alluring vista now opened to the French was irresistible.

Public enthusiasm reached the point of frenzy.

Meanwhile 621,000 shares had been issued and the price early in 1720 of a share was about 50 times the value of the original!

They were blowing bubbles in Paris.

Thousands poured to the city from other countries. Trade boomed. Money was everywhere—except gold, for many persons had become suspicious and had started exchanging their paper for gold and shipping it out of the country.

Then—

In America—Law's colonizers didn't find gold and rich minerals in the lands around the mouth of the Mississippi.

They found Indians, the Spaniards in Texas swamps and a mighty river. They founded the present cities of New Orleans and Mobile.

Then—the crash

The growing scarcity of gold and silver soon became felt in Paris and a general run was started on the national bank, which in 1719 had been merged with the Banque Royale, and was now called the Compagnie des Indes.

In May, 1720, the government issued a decree which cut the value of the shares in half. This hurried the crash.

Law, who was now controller general of finances, made frantic efforts to avoid the crash.

The bubble burst in July, 1720. The bank stopped payment. Law fled the country. Upwards of 100,000 people in France had been made beggars.

The ruined people threatened to overthrow the regency.

Law lived the rest of his life in Venice, gambling. He died a pauper there in March, 1729.

BOSTON SCHOONER

YACHT ASHORE

SOUTHWEST HARBOR, Me., Aug. 20.—The schooner yacht reported ashore last night 10 miles northeast of Cranberry Isles coast guard station was the Gemasol owned at Boston. Her identity was established today upon the return of the boat sent from the station.

The yacht while bound to Bar Harbor with her owner aboard struck on Hallowell ledge, near Winter Harbor, at high tide. The food tide early today did not prove high enough to float her, but when the guardsmen returned to Cranberry Isles, a steamer was standing by with the intention of pulling her free of the ledge at high tide late this afternoon.

The yacht's bow was fast, though it was not thought it had been punctured.

Tellier Beaten

Continued

Clarence Hackney of Atlantic City, 4 and 3.

The other semi-finalists are George McLean of Great Neck, who will meet J. Douglas Edgar of Atlanta. McLean at one time yesterday looked hopelessly beaten, but he came back in the home stretch and trimmed Peter O'Hara of Shickamaxon, 1 up, in 32 holes. Edgar, another sterling player, disposed of Bob MacDonald of Bob o' Link, 5 and 1, after Bob had rested on 1 down at the fourth interval. It looks like Edgar and Hutchinson or Hampton in the deciding contest.

THIRD PARTY STUFF

played the first nine holes in 35, one under par, and came home in 36, two under perfect figures, for a total of 71, or three under par. Tellier had 36, 37, 33, and was 2 down to the Glen View player. After luncheon Louie practically blew up, although Jack did not play the game he exhibited in the forenoon.

Edgar and MacDonald on the first 15 holes had duplicate medal scores of 71, three under par, but Bob went to luncheon 1 down to the Atlanta sharpshooter. Bob found a trap on his second at the home hole which prevented an adjournment on even terms.

Bob like McLean, evidently was not refreshed by the noon repose, as he slumped badly.

Edgar's card on the first nine holes in the afternoon was little short of marvelous. He putted like a wizard and made the distance in 22 or four under par. On the last nine, he was a little wild, picking up at the 10th, and also the 12th, after a few shots into the pond at the latter hole. Despite this, MacDonald was hors de combat the 33d green.

McLean's comeback was exceptional.

At the end of the 25th hole he was 5 down to Peter O'Hara. McLean staged a great rally, however, squared matters at the home green and won at the 35th. His comeback flash was evidenced by a card of 33 on the last nine holes, five under par.

Hampton's defeat of Hackney was not unexpected, but few of the ordinary believers would win by such a liberal margin. Hackney appeared third toward the finish. The summary:

George McLean, Great Neck, beat Peter O'Hara, Shickamaxon, 1 up in 35 holes.

Douglas Edgar Atlanta, beat Bob MacDonald, Bob o' Link, 5 and 1.

Harry Hampton, Richmond, Va., beat Clarence Hackney, Atlantic City, 4 and 3.

Jack Hutchinson, Glen View, beat Louis Tellier, Boston, 6 and 5.

CHARGED WITH MURDER OF HER INFANT

NEWARK, N. J., Aug. 20.—Charged for the second time within three years of having murdered her new born infant, Mrs. Joseph Ehrlinger, 28 years old, today awaited action by a grand jury which will determine whether she is to go on trial for infanticide. Mrs. Ehrlinger was arrested yesterday after a search which began last Monday when police were informed she had strangled her infant daughter and disappeared after wrapping the body in a newspaper.

AMUSEMENT NOTES

By Theatre's Own Press Agents

B. F. KEITH'S THEATRE

Whirlwind finishes that really ouse an audience are the kind which Finlay and Charley Hill provide at the B. F. Keith theatre, this week, in "Vodvil a la Mode." The act has snatches from many things which have gone before, all compressed into a high-pressure performance.

Ed. E. Ford, the Australian physiognomist, will excite much wonderment. His facial contortions are far different from any others made on the stage. And they interest.

The best Irish sketch in many years is "A Friendly Call," played by Charles Mack & Co., while "Seven A. M." with Billy Frawley and Edna Louise playing it is a very lively concoction. The remainder of the bill is good, including the Jack Hughes duo in instrumental music, story and Clark in "Songs" and Kennedy and Nelson, Lumphin gymnasts.

THE STRAND

"Tonight if people dance, if you are there you may dance with me—perhaps kiss me." That was the inducement offered a red-blooded young American by a charming senorita. The risk was great, but he dared—and if you want to know what happened see "Rio Grande" today or tomorrow at The Strand, Rosemary Theby and Allan Sears are the principals involved. George Walsh in "Sink or Swim" 100 per cent thriller, is the other big feature on this extraordinary bill. Other features besides.

MERRIMACK SQUARE THEATRE

"Crooked Streets," the absorbing story of the orient in which Ethel Clayton is being starred at the Merrimack Square theatre today and tomorrow.

YANKEES IN ANTWERP

Running and Jumping Olympians Turn Sleeping Quarters Into "Madhouse"

BY J. H. DUCKWORTH
N.E.A. Staff Correspondent
(Special Cable)

ANTWERP, Aug. 20.—"Madhouse" is the nickname by which headquarters here is known to the American Olympic team. Head Coach Jack Mackay, team sponsor at the christening.

Fandomontum describes the conditions under which the Yankee contingent lives.

Healthy young athletes are as mischievous as a lot of bull-pups and as hard to manage as a bunch of staminal mules. Mackay knows.

"Quare Town"

Pat Ryan says: "Every day is like New Year's in this quare town."

This is the daily program for the boys: Up at 7; cold shower and breakfast at 8.

The Americans have their own chefs, to get fried eggs and griddled steaks just as they like them.

Chow is taken in the gymnasium, the men going to mess in three batches.

Like the Army

At 10 o'clock U. S. army trucks take the boys who are to compete that day to the stadium and the rest to the practice grounds.

However, the wretches spend the morning with boxing gloves, throwing

the medicine ball, skipping rope, or on the mat in the picturesque stone-paved quadrangle.

Dinner is served at 2 p. m., after which the boys are allowed to stroll around town, but must be in bed with lights out, at 10 o'clock. This may sound like a simple life, but it is not.

Peace-Makers

Lawson Robertson and Paul Pilgrim have to pacify the obstinate and temperamental belligerents.

The wretches kick that there are not enough tables for rubbers. They send out a raiding party to get the necessary paraphernalia. Then up goes a comic howl from the cross-country

squad that the Olympic committee is not looking after their interests properly and that the French, the Austrians, or somebody else is trying to put something over on them.

Keep Goo Busy

Then Gustavus Kirby has to straighten out all this.

Some men develop extraordinary capricious and dainty appetites. They refuse the schoolhouse extra and insist

on being taken to the Grand hotel for chicken and asparagus tops.

The rest of the athletes hear of this and start a strike.

But the real trouble starts in the evening. About 10:30 the coaches and trainers have roll-call. Some of the men are missing. Patrols are sent out on the Avenue de Keyser to hunt them up.

Crushed Streets

Late comers complain that they got lost. "It's worse than Frisco," says Morris Kirksey. "You can't keep on the same street for as soon as you're out of one you are into another."

Suddenly there is a frightful racket heard up the third floor. Up rushes Secretary Ruben of the A.A.U. to find the middle-distance men having a terrific pillow fight with the marathons.

Silence is finally restored, but not for a long time.

Crash! Crash!

Crash follows crash outside on the pavement below. Somebody has thrown the water up out the window at the passing gendarme-comic. The men commence to file down into Judge Weeks' den in pajamas to complain that they can't get to sleep.

Then Coach Mackay and Pilgrim go

upstairs and count noses. They find the empty cots have been stuffed with the absentees' clothing. Out go the lights and up go shouts of "Don't give your right names, boys," and the supreme council holds a midnight confab.

Night Spirit

Coach Robertson is a psychologist and has the right idea. He says how glad the boys feel that way. It shows they are good, he says.

The meeting adjourns. Somewhere around 1 o'clock there is loud banging at the front door. Somebody seems to be pulling down the building. No, it is only Pat McGrath and Paddy McDonald coming home.

These big fellows are a law unto themselves. Late hours can't hurt them.

Hard Coal to go up \$2 Ton

Continued

\$1.05 a gross ton. Under the new tariff the charge will be \$1.47 a ton. This is an increase of 42 cents a ton.

This city, however, will not be greatly affected by the increase in the rates from Boston. It is the lift in charges for transportation by rail of coal from the mines that will make itself in the new price schedules of the dealers.

Rates from Mines

The cost of transporting a gross ton of coal from the mines to Lowell at the present time is from \$1 to \$1.50 a ton. A 40 per cent. increase will represent \$1.60 to \$1.80. This increase, the dealers say, they will have to tack onto the prices that they are now charging unless they are to transact business at a loss.

For good measure, it is generally believed, the dealers will add an even \$2 to their charges. Some of the coal men say that they are justified in absorbing the extra 20 cents because of the costs of transacting business, and that whether or not freight rates had been advanced they would have be-

compelled to advance charges to some extent if they were to remain in business.

The prices of the most used sizes of coal as they are at present and as they are likely to be after the prospective advance has been made, are as follows:

No. 2 nut Present \$15
Re \$17
Stove and nut 17.50 19.50

Outlook Is Brighter

The outlook for a sufficient supply of household coal to carry the people of the city through the winter is a little brighter than it has been earlier in the summer. W. A. Staples, manager of the Lowell Terminal company, wholesale distributors of coal, informed Traffic Manager Whitcomb during a conference in Boston yesterday, that the company has a satisfactory supply of coal at the mines, and that it will be able to do its share toward keeping the fuel bins of Lowell filled if the railroads continue to hustle the commodity over the irons as they have lately been doing. Up to August 18 the Terminal company had received 2055 tons, which is approximately the normal quantity that the concern has received in past years.

Other coal dealers, however, report that they are not in such a fortunate condition as regards supplies as the Terminal company appears to be. They say that coal is hard to get in sufficient quantities to meet the needs of their customers, and that the commodity is arriving in the city only in dribbles.

Skyrocketing Prices

Prices for bituminous coal show no signs of halting the skyrocketing career on which they started quite awhile ago.

Soft coal is being delivered to consumers of less than carload lots in ber of commerce is in receipt of Lowell today at a cost of \$19.50 per

ton. The price at the mines on coal selling at this price is \$13.25 a ton. To this must be added \$4.12 a ton for freight from the mines, and \$2.13 to cover the cost of delivery, carrying and overcharges of the local dealer. Under the new rate schedules of the railroads the freight rates will be advanced \$1.65 a ton. If the dealers follow the same ruling in adding to bituminous charges that they are said to be planning to follow in the case of hard coal, the price of bituminous fuel in this city some time shortly after August 20 will be \$21.50 per ton. The cost of bituminous fuel to the mills that order in carload lots will be approximately \$19.50 a ton.

Other Freight Charges

Traffic Manager Whitcomb received today the revised freight rates between Boston and Lowell that are to become effective Aug. 22. They call for an increase of about 12 cents per 100 pounds.

Higher freight charges are not to be the only addition that is to be made to the expenditure of Lowell people August 22. On the same date the new passenger tariffs become effective.

Under the present schedule the present rate for a single trip ticket between Boston and Lowell is 53 cents. Under the new tariff the charge will be \$1. The price includes the 8 per cent. war tax in both instances. Sixty-ride tickets between Boston and Lowell, good for use within 30 days of the date of purchase, are to be raised in price after next Thursday from \$10.55 to \$12.65, including war tax. Tickets purchased previous to August 22 may be used without an additional charge.

The traffic department of the chambers of commerce is in receipt of information that the proposed drastic

emergency measure providing a rate of \$10 per day (in addition to regular freight and demurrage charges) for each day's delay after the first 48 hours, on all open to cars and on all other cars containing coal and coke, which was to be put into effect on August 19th, and continue in effect until January 1, 1921, has been suspended by the interstate commerce commission.

The present demurrage charges at \$2 per car for the first four days and \$5 each day thereafter, charges common 48 hours after arrival at destination.

STREETS AND ALBANIAN IN FIERCE BATTLE

ROME, Aug. 20.—A wireless message from Scutari, Albania, to the Times says fierce fighting is proceeding with of that place between Serbs and Albanians and that Serbian regiments, in their defense of Tarabose yesterday, lost 220 dead and 250 prisoners. It adds that a revolution has broken out at Kostovo, and the Albanian government has called to the colors for new classes, numbering 60,000.

TO REMOVE PLAT

General Electric Discontinues Lynn Workers

LYNN, Aug. 20.—Manager Edward H. Rice of the Lynn plant of the General Electric company announced tonight that the greater part of the mail motors department will be moved to the Bridgeport, Conn., plant. This will mean that several hundred workers will be either dropped from the rolls or transferred to other departments.

Plans had previously been made for doubling the production of this department. Manager Rice attributed the step taken by the directors of the company to the failure of the Lynn employees to keep pace with the employees in other plants. Mr. Rice said that until the employees decide to produce work to their full capacity and not curtail production, no additions can be made to the Lynn department.

He said that in the past the superior skill of the Lynn employees offset the disadvantages of the location of the city so far from the source of raw materials, but that lately the skill of the employees had been impaired by their refusal to run out more than 15 per cent. of the capacity.

BALD HEAD CLUB

Official Documents Filed With Conn. Sec. of State

HARTFORD, Conn., August 20.—Official documents now on file with the secretary of state, declare that raven loons or auburn tresses are not to be taken as signs of trustworthiness. This statement and others pertaining to the hirsute adornment of the male of the species are included in articles of association filed by the Bald Head club of America, Inc.

The club was organized about 15 years ago and has achieved fame. Its papers filed with the secretary of state are dated at Salisbury, August 19. One of the subjects of the club, as set forth, is "to promote and foster a sentiment of fraternity among those whose domes of thought protrude through and tower above the foliage that merely affords shade and adornment."

CHEER SIR THOMAS AT SING SING

OSSING, N. Y., August 20.—Sir Thomas Lipton yesterday visited Sing Sing prison and was given a long ovation by the inmates, whom he addressed in the prison yard.

"I am very much gratified, boys," said Sir Thomas when the cheers subsided. "There never was a man born who did not make a mistake. The thing is, when we grow older, not to make the same mistakes again. I've made them and I guess most of you have."

The Irish baronet was presented with a hand-painted souvenir made by the inmates.

POLICE COURT

Elazar Levergne, arrested for drunkenness was declared defaulted for non-appearance this morning in police court.

The charge of breaking, entering and larceny against Thomas Harding, continued from Aug. 22, was filed. Similarly disposed of was the charge of assault and battery against Joseph Gauthier.

Three first offenders for drunkenness were released.

LEGAL NOTICES

Commonwealth of Massachusetts—Middletown, ss. Probate Court.

To the heirs-at-law, next of kin and all other persons interested in the estate of Louise O'Connell, late of Lowell, in said county, deceased.

Whereas, a certain instrument purporting to be the last will and testament of said deceased has been presented to said court, and probate of Catherine E. O'Connell, Mary V. O'Connell and Anastasia O'Connell, who pray that letters testamentary may be issued to them, the executors therein named, Catherine E. O'Connell being therein named as Catherine E. O'Connell, without giving a surety on their official bond.

You are hereby cited to appear at a Probate Court, to be held at the Court house, in said County of Middlesex, on the fourteenth day of September, A. D. 1920, at nine o'clock in the forenoon, to show cause, if any you have, why the same should not be granted, and said probate court is hereby directed to give said notice thereof, by publishing this citation once in each week, for three successive weeks, in the Lowell Sun, a newspaper published in Lowell, the last publication to be on one day, at least, before said Court, and by mailing postpaid, or delivering a copy of this citation to all known persons interested in the estate, seven days at least before said Court, and to give said notice to the Clerk of said Court, George F. Lawton, Esquire, First Judge of said Court, this eleventh day of August in the year one thousand nine hundred and twenty.

B. M. F. STY, Registrar.

Aug. 12-20-21.

Lowell Faces Big Boost in Coal Prices

Great Polish Military Successes Continue Under Direction of French Officers

POLES OCCUPY BREST-LITOVSK

Gen. Weygand of France in Active Command of Advancing Polish Forces

French Battleships Rush to Danzig to Aid in Unloading Polish Munitions

WASHINGTON, Aug. 20.—Brest-Litovsk has been occupied by the Polish army, according to advices received here today by the state department from the American commissioner on a Berlin. His dispatch was based on a report received by him from Posen.

Successes Continue

PARIS, Aug. 20. (By Associated Press).—The military successes of the Poles continued yesterday, according to a report to the foreign office today from the military mission in Warsaw, under plans elaborated by the French general Weygand and his staff of more than 600 French officers.

All these officers now are either actively in command of the forces that are freeing Warsaw from the Russian soviet menace or are aiding the Polish commanders.

It is considered that French and Polish co-operation in the commands of the various forces now has reached a satisfactory stage.

The situation at Danzig is still causing worry, but it is expected to be cleared up when two French battleships, now on their way there, arrive and offer Sir Reginald T. Tower the allied high commissioner sufficient force to control the docks and permit the unloading of Polish munitions.

Russian War Report

LONDON, Aug. 20.—The Russian soviet forces have abandoned Lukow, 68 miles southeast of Warsaw and Radin, 80 miles to the southeast of the Polish capital, according to Thursday's communique issued by the Moscow government. The communique claims that the Poles were driven back seven miles from Ciechanow, 45 miles northwest of Warsaw.

The statement reads: "The fighting at Pionsk (northwest of Warsaw) continues. Southwest of Ciechanow

CONTINUATION SCHOOL

Arrangements Made to Hold Classes Afternoons in High School Annex

By a rearrangement of the hours of the freshmen class of the high school when the new school term opens in September, the high school annex in Paige street will be given over five afternoons a week for the use of continuation classes of boys and girls between the ages of 14 and 16, as provided in a state law which goes into effect in September, Hugh J. Molloy, superintendent of schools, announced today.

Instead of beginning their session

EXPLOSION KILLS TWO

2000 Gallon Gasoline Reservoir Blew Up at Syracuse, New York

SYRACUSE, N. Y., Aug. 20.—Two men were killed and 13 hurt today, when a 2000 gallon gasoline reservoir, the property of the C. E. Mills Oil Co., exploded. Fragments of the station were blown around a radius of three blocks. The explosion was heard miles away.

Tons of dirt and heavy timbers were taken from the hole which was at least 10 feet deep, before the bodies of the victims were recovered. Thousands of workers in the vicinity became panic stricken when bricks and heavy mortar slabs blown high into the air struck the surrounding buildings, in some instances going through the roofs. Persons nearby at the time were covered. The dead are H. R. Greenland, 23, and Harry S. Watkins, 30.

PRINCE OF WALES SAILS FOR SAMOA

MELBOURNE, Aug. 19.—The Prince of Wales, having concluded his visit to Australia, sailed aboard the cruiser Renown today for Samoa, en route to England by way of the Panama canal.

NO MOVE TO RECONSIDER

Suffrage Leaders Forced Adjournment of Tennessee House Today

Opponents Thus Lost Right to Offer Motion to Reconsider Vote

NASHVILLE, Tenn., Aug. 20.—Suffrage leaders today forced adjournment of the Tennessee house before Speaker Walker made any motion to reconsider the ratification of the federal suffrage amendment. Opponents thus lost their right to offer a motion to reconsider but the suffrage forces planned to make such a motion tomorrow and then to table it, thus making impossible any further parliamentary tactics to reconsider the house's original action.

After the amendment was ratified on Wednesday, Speaker Walker changed his voice from nay to yea, in order that he might be in a position to offer a motion for reconsideration, but the time in which he could make his motion expired today.

PLOT TO KILL LLOYD GEORGE DISCOVERED

LUCERNE, Aug. 20.—The Swiss police have taken measures to protect the British premier, David Lloyd George, declaring they have discovered a plot against his life. The police claim to have the plotters under surveillance in Geneva.

Mr. Lloyd George and his party remained indoors throughout the day, but a member of the party stated that this was not due to the alleged plot but because of the inclement weather.

THOUSANDS PAY FINAL TRIBUTE TO CHAPMAN

CLEVELAND, Ohio, Aug. 20.—Funeral services were held here today for Raymond Chapman, shortstop of the Cleveland American league team, who died in New York Tuesday morning following an operation for a fractured skull, sustained in Monday's New York-Cleveland game.

The service was held in St. John's Roman Catholic cathedral. Thousands of friends and admirers of Chapman gathered at the church to pay their final tribute to the dead man, one of the

HARD COAL TO GO UP \$2 A TON

Sweeping Advance in Practically All Grades Will Come Within Fortnight

Dealers Say Increase Necessary to Balance New Card of Freight Rates

No Signs of Fuel Shortage—Similar Raise Probable for Bituminous Fuel

The people of Lowell are facing a boost in the cost of hard coal that will probably amount to \$2 per ton. The advance will probably become effective sometime within the next two weeks.

The advance will be made necessary, dealers say, by the increase in freight rates of 40 per cent. that is to go into effect August 26. Information regarding the new rates was received today by W. F. Whitcomb, traffic manager of the chamber of commerce. Under the old rates coal could be brought from Mystic wharf or Boston to Lowell for

"AS YOU WERE" REPLIED THE COURT

As Ben O'Hara, charged with drunkenness, settled up his affairs in the local court this morning, he slapped two brand new \$10 bills down on the judge's bench, saying: "Here's \$20 from the Irish Prince."

Ben was so delighted that he was obliged to pay off an \$18 debt to his landlord that philanthropy bided and blossomed in his soul.

The money was gently but firmly pushed back into his hand by the court and Benjamin turned to leave the room. As he reached the door, he clicked to attention and facing the judge, snapped a salute, with the words:

"Your Honor, I salute you."

NEW ARRESTS IN PLOT TO KILL VENIZELOS

ATHENS, Aug. 18.—Among the new arrests in the attempt to assassinate Premier Venizelos and the alleged plot to restore former King Constantine to power is that of Col. Calomenopoulos, a leader of the nationalist movement.

The investigation continues to produce evidence that at least some royalists here were aware that an attempt to assassinate the premier would be made and that it was intended simultaneously to overthrow the government, fire the arsenal and arrest or kill the cabinet officers.

The government obtained information regarding the plot and put out patrols, frightening the royalists.

SUGAR PRICES NOT TO DROP

NEW YORK, Aug. 20.—Retail sugar prices will not drop before January 1, and they may increase, John B. Floyd, special agent of the department of justice "flying squadron of profiteer hunters" announced today after a conference with officials of three large refining companies and representatives of wholesale grocers.

LE POINT DU JOUR

Unless Something Breaks the New Day Break, WOMAN HAS WON THE FULL RIGHT OF SUFFRAGE in this country. We have heard but one woman thus far declare her Ballot. Her declaration was "Now I Can Vote For Calvin Coolidge." Seemingly that Woman had been doing some thinking.

Banking and Politics make a poor mixture, still the Country's Welfare and that of a Bank are inseparable. We have a large number of Women among our Customers. We wish them well. May this newly acquired and Tremendous Power be appreciated at true value. May it be used with Wisdom and for Universal Good and may all Doubting Minds live to admit the ACT WAS RIGHT, that denial of the Vote was OPPRESSION.

LOWELL WOMEN AND THE BALLOT

Will Have Chance to Vote in State Primaries Unless Tennessee Reconsiders

More Registration Sessions if Amendment Becomes Law Prior to Sept. 7

If the action of the Tennessee legislature in ratifying the 19th amendment to the constitution is not reconsidered, Lowell women will undoubtedly have the opportunity of voting at the state primaries two weeks from next Tuesday, Sept. 7, according to the best information available at the office of the local election commissioners.

Since the announcement that Tennessee had ratified the suffrage amendment, many Lowell women have been anxious to learn what will be their first opportunity to vote. If the Tennessee vote is not changed, the amendment will be operative as soon

STRUCK BY AUTOMOBILE Mary Abram, of 72 Charles street, is confined at the Lowell Corporation hospital suffering from slight injury and a bad shaking up sustained when she was struck by an automobile shortly after 1 o'clock this afternoon in Gorham street. She was taken to the hospital in the ambulance.

Foss of Chicago Breaks Two Pole Vault Records at Olympics

ANTWERP, Aug. 20.—(By Associated Press)—Frank K. Foss of Chicago broke two pole vault records in the seventh Olympiad contests here today. After winning first place in the final of the pole vault event, Foss continued upward and eventually cleared 4.9 metres, or 13 feet 5 1-8 inches, which is both a new Olympic and world's record.

Soviets Eager for Peace With Poland

MINSK, Russia, Aug. 17.—(By Associated Press)—Soviet Russia is eager for the establishment of peace with Poland and does not desire to interfere with the integrity of that country, said a Bolshevik report in addressing Polish delegates to the peace conference here today.

The conference began yesterday, the first session lasting several hours. After an exchange of views, an adjournment was taken so that delegates might confer regarding developments.

MINERS FAIL TO REACH WAGE AGREEMENT

CLEVELAND, O., Aug. 26.—Officials of the United Mine Workers of America conclude their conferences here yesterday and departed for their homes in various parts of the country after having failed to reach a wage agreement with the bituminous coal operators of the central competitive field.

There will be no general suspension of the work, John L. Lewis, president of the mine workers, declared, before boarding a train.

"I anticipate the whole matter can be adjusted without inconvenience to the public," he said. "There may be sporadic strikes, in fact some locals were out yesterday when they heard the conference was not getting any where."

At a policy meeting of the miners here yesterday it was decided to meet the operators separately in the four states of the central field—Ohio, Indiana, Illinois and western Pennsylvania—and make separate supplemental wage agreements.

President John Moore, of the Ohio Mine Workers, announced that the Ohio executive board will meet in Columbus Monday afternoon to decide when and how to request a scale conference with operators of this state. Mr. Moore said the Ohio miners would remain at work and that efforts would be made to supplement the present agreement, which continues in

force with whatever increases are obtained throughout the central field. Frank Farrington, president of the Illinois miners declared that the miners of that state would meet the operators in Chicago Monday. The original demands of \$2 a day increase for day or month men, for which the Illinois miners went on strike several weeks ago, would be presented, he said.

Miners' officials believed that an agreement would be signed quickly in Illinois and that Indiana operators were expected to resist making an agreement.

GETS SIX MONTHS FOR NON-SUPPORT

MONTPELIER, Vt., Aug. 26.—George Tinkham was sentenced by Judge Erwin M. Harvey in Montpelier City court yesterday to from six months to two years for non-support of his wife and three children.

Tinkham is 25 and his wife 18. He worked with a Central Vermont construction crew and received \$3.20 a day, board and sleeping quarters. He gave his wife \$3 to live on for three weeks, according to her story.

TO RECEIVE BIDS FOR HOG ISLAND OCT. 1

WASHINGTON, Aug. 26.—The shipping board last night announced that bids for the purchase of Hog Island shipyard, Philadelphia, would be received up to Sept. 20. They must be accompanied by certified cheques, the amount of which is to be determined by Chairman Benson, and will be opened Sept. 21.

Possession of the property will be given the successful bidder about Oct. 1, the board said. Title to the property will not pass until full purchase price has been paid.

At the same time, the board announced that bids would be opened Sept. 1, for the purchase of the steel ships of the government merchant fleet.

The vessels are to be sold in accordance with the policy recently announced by Chairman Benson which fixed minimum prices of from \$150 a ton to \$155 a ton for the various types with provision for payments over a period of 10 years. When ships are taken "as is and where is" and the whole amount paid in cash, a discount of 10 per cent will be allowed, the board stated.

From the beginning of the British offensive in 1915, to the time of the armistice, 700,000 tons of artillery ammunition were spent by the British army on the western front.

PRES. WILSON REGAINS FORMER WEIGHT

WASHINGTON, Aug. 26.—President Wilson has regained his normal weight of 175 pounds, according to an article appearing in the Washington Times quoting Rear Admiral Cary F. Grayson, the president's personal physician, as having made that statement yesterday. The article also depicts "according to Dr. Grayson" the things the president does in a "normal" day at the White House, including the following:

"Exercises his left arm by extending and withdrawing it.

"Shaves himself, sometimes with a safety razor.

"Climbs stairs with a cane to exercise his leg muscles.

"Dictates rapidly and frequently writes shorthand notes of what he wants done.

"Uses an indelible pencil to sign most letters to department officials."

At the White House it was said last night that Dr. Grayson was out of the city and not expected to return until today. Secretary Tamm also was out of town and no other official would comment on the article.

Within the last 25 years, the birth-rate has decreased in British and German cities from 36 to 23 for each 100,000 population.

WILL HOLD OUTING AT LAKE ALPHA

An old-fashioned New England boiled dinner—corned beef, cabbage, beans, turnips and potatoes—will be the gastronomic feature of an outing tomorrow at Lake Alpha, in Tyngsboro, of the employees of Hobson & Lawler. The trip to the lake is to be made in auto trucks.

In the afternoon the steamfitters will meet the plumbers on the baseball diamond. Bertram Nield, an employee in the plumbing department of the

firm, has been a leader in arranging the details for the outing.

TO FORM ARMY AND NAVY UNION

Organization of a branch of the Army and Navy union, a benefit organization open to veterans of all wars in which this country has engaged in the past 36 years is in process in Lowell with Arthur J. Brown taking a prominent part in the work. It is hoped to get the union formally under way early in September. Civil war veterans will be

invited to become honorary members. According to its promoters, the Army and Navy union is not intended to conflict in any way with the American Legion.

LABOR DAY PLAYS

Plans for a Labor Day parade were discussed at a meeting of the Trades and Labor council held at labor headquarters last evening. President Warneck presided and gave a detailed report of the proceedings at the recent state labor convention.

WALL PAPER DEPT.

Wall Paper Talks

When your chamber needs new Wall Paper, remember this: Pick a paper, best suited to your room. A stripe for a low posted room—an all over effect for a large or high posted room. This season has seen a change in that we find many more all-over effects are being sold. There are many fine tapestry effects now on the market, colored in softer shades for bedrooms. And they make wonderfully clever rooms. Years ago we thought of tapestry papers as suitable only for halls. Today they are sold for nearly all rooms, and they deserve their popularity. Tapestries for chambers come in beautiful pastel shades. Let our salespeople tell you more along these lines. One of a series of helpful hints for those in need of wall papers.

RUSH OF IMMIGRANTS

25,000 a Week Expected
Soon to Begin Passing
Through Ellis Island

NEW YORK, Aug. 20.—At least 25,000 immigrants a week are expected soon to begin passing through Ellis Island, according to Frederick A. Wallis, immigration commissioner. Steamship companies have reported, he said today, that the incoming tide for the next few years will be limited only by the capacity of the ships.

"Italian steamship lines," said the commissioner, "have reported that there are at least two million Italian applicants for passage to America, and the Jewish sheltering society has made arrangements to receive one thousand Jews a week. There is also an unprecedented rush of German applicants for passage."

In accordance with this resuscitation of immigration, Commissioner Wallis said a complete reorganization of the island is under way and hundreds of additional employees will be added to take care of the rush. Among other changes will be the elimination of the old system of keeping the incoming behind high iron gratings during the examination for admission, and an "honor system" allowing the immigrants the freedom of the spacious walks, will be instituted, he said.

PROBE WHISKEY GIFTS

Hammerstein Summoned—
Charged With Distributing
Whiskey at Theatre

NEW YORK, Aug. 20.—Arthur Hammerstein, theatrical producer, was the principal of some 200 witnesses summoned to appear today before a United States grand jury which is investigating charges that he caused distribution of whiskey to "a surprised but delighted audience" at the opening performance of a musical comedy Tuesday night.

Those subpoenaed, include critics, press agents and the chorus girls who are alleged to have passed out tiny one ounce bottles containing the forbidden beverage which Mr. Hammerstein claimed was "stage tea."

James S. Shevlin, federal prohibition enforcement agent, said the government had one bottle, gleaned from a search of the theatre yesterday to offer in evidence. The bottle, he said, contained about four drops of pure whiskey.

PHILIP ENDS UP RIGHT
WHERE HE STARTED

Philip Letourneau, an operative, of Cheever street, this city, who was arrested by Officers Kilroy and Franchette in Lakeview avenue last night about 10.25 o'clock and booked at the police station on charges of drunkenness and operating an automobile while under the influence of liquor, was arrested again at 8.25 a. m. and locked up at the station on two similar charges, after being released on bail very early this morning.

Letourneau's case would have been called in police court today, but he now awaits trial on four charges on two counts. He was arrested the second time by Sergeant McGuire and Officers John Conway, Shapiro and Wallace in Gorham street near the court house, where his machine was smashed after a collision with another automobile and an electric car. Frank Michelin, of the same address in Cheever street was also arrested this morning as being with Letourneau and was booked for drunkenness, while another occupant was released with no complaint.

When arrested last night, Letourneau had \$292.05 in his possession, according to the police records, and this morning he had \$70 in Canadian money and \$1.95 in American money. A bottle containing a little "moonshine" was also found on his person, the police say.

After being bailed out this morning Letourneau took his machine, it is said, from the station and picked up his two companions and proceeded to ride around the city. Before he was arrested in Gorham street reports were received at the station that he was seen in Thorndike and South streets. Because of the accident this morning the police had to put on a new tire and straighten the steering gear before they could tow the defendant's machine to the station.

MAN-EATER ON
SHOW AT LAKEVIEW

The real, man-eater shark captured off Nahant last Sunday and which has been on exhibition at Gushkin's boat house at the Willow Dale entrance on Wednesday and Thursday of this week was on display again today and will be exhibited Saturday and Sunday for other interested spectators. The shark measures 11 feet long and is the one which terrorized beach vacationists about Boston for some time before being killed in Lynn harbor.

Accuracy and promptness backed by our years of experience is a proposition that should call for your serious consideration.

NOW IS THE TIME to have the children's eyes examined before school days begin.

Lowell Women and the Ballot

Continued

as Secretary of State Colby promulgates the new law and notifies the secretary of each state. When the secretary of the commonwealth, Albert P. Langtry, gets word from Sec-

retary Colby at Washington, he will immediately notify the local election commission and by that time all the formalities necessary before Lowell women can vote will have been taken care of.

It is the general opinion at city hall that official notification will come

before the state primaries unless politics are played in Tennessee and the formal notification of Secretary Colby that the amendment is law is purposefully delayed.

There are at the present time 7554 women in Lowell who will automatically be entitled to vote as soon as the

DENY KOREAN PLOT

Report Attempt to Hold
Americans Called "Ground-
less Fabrication"

WASHINGTON, Aug. 20.—Cabled reports from Tokio that a plot to "hold" the party of American congressmen now visiting the far east, when it arrived in Korea, has been unearthed, were characterized today by Kimm Kimm, chairman of the Korean commission, as "another groundless Japanese fabrication."

"No sane or even insane Korean would dream of holding the American congressional party," Mr. Kimm declared, not only because of the absurdity of such an action, but because the Koreans are extremely anxious at this time to gain the sympathy and moral support of the outside world. What was planned, he said, was to present a memorial to the party, and he quoted despatches to Japanese vernacular newspapers as showing that this object was well understood in Tokio.

amendment definitely becomes law. The election commission through its chairman, Hugh C. McOsker, announced this morning that if the amendment does become law, additional registration sessions for women will be held next week in anticipation of the state primaries. This action will be taken because it is believed that many Lowell women have refrained from registering.

On the 1919 voting list 6331 women were entitled to vote for school committee and since Aug. 2 of this year 1223 additional female names have been added to the list. This brings the total voting strength of the city at the present time, including men and women both, to approximately 25,809.

A number of women have asked if they will be compelled to pay a poll tax this year if they are allowed to vote. As far as is known, they will not, inasmuch as they were not voters on April 1 and for the even better reason, there are no provisions in the statutes for the assessment of poll taxes on any wealth, but male inhabitants of the common-

DENIES PETITION OF B. & M. STOCKHOLDERS

CONCORD, N. H., Aug. 20.—Judge Edgar Aldrich, of the United States court in an opinion handed down this morning, denied the petition of Edward F. Brown of Ipswich, Mass., and others, minority stockholders of the Boston & Maine railroad, for an injunction against the railroad and the appointment of a temporary receiver, a hearing upon which was held yesterday afternoon. The petition for a permanent receiver for the railroad is left pending.

The opinion states that in view of the fact that the recent receivership of the railroad has been closed and the road set at large, that increased rates have been recently authorized to go into effect Aug. 25, that the road is presently embarrassed by reason of its having been taken over by the government during the war, that the validity of the \$17,000,000 bond issued is still pending, that the fact that the railroad business as well as other business is in the midst of economic changes resulting from war and other causes, "make it seem reasonable that the railroad should have an opportunity of trying out its present situation of working out its salvation and putting itself upon a safe and sound business basis."

The value of the argon gas in the air was not known until its introduction into electric lamps recently.

SEN. HARDING SPEAKS

Says All Branches Will Function, if Elected—Praises Senate's Course

MARION, O., Aug. 20.—In reply to democratic criticisms of the republican senate and of the policy of government by party, Senator Harding declared in a speech yesterday to members and former members of the Ohio legislature that his purpose if elected president would be to give to each branch of the federal government its constitutional part in government functions.

"In a cartoon, in solemn editorial, in many utterances from the platform," he said, "it has been suggested that in case of a republican victory, the incoming president proposed to permit the senate to have something to do in determining the policy of the government. I gladly proclaim all these suggestions to be literally correct. I rejoice that the United States senate is functioning again. We need it to save America."

"If a republican administration is chosen next November you can be very certain that the senate, theoretically, is not actually composed of 26 leading men of the republic, will have something to say about the foreign relations as the constitution contemplates."

"It has become quite the fashion among unheeding partisans of democratic faith to cry out against the senate and the part it plays in the federal government. One might as well proclaim the conviction a fraud. The senate is in reality the security of stable, popular government."

Praising the record of the present senate, the nominee declared it had "saved American nationality" when the executive branch had proposed to surrender it.

He dissented from arrogation of unconstitutional powers by the president and said it was the purpose of the republicans to "have done with personal government" and to "put an end to autocracy." The rule requiring a two-thirds vote in the senate to ratify treaties he characterized as one of the wisest provisions of the constitution.

The League of Nations was touched on briefly, Senator Harding declaring article 10 would break down the order of processes of the federal government by transferring from congress to a foreign council the power to decide when the nations should go to war.

The speech was delivered from the front porch. It was the second the senator had delivered yesterday, a group of Civil war veterans having induced him to make a brief talk when they paid him a noon day visit. In his speech to them he reiterated his belief that it was for American rights that

the nation entered the world war and added a promise that if he were elected there would be no surrender of American nationality.

The speech of the legislatures followed a reunion luncheon in a grove near the senator's home. The address of greeting to Senator Harding was delivered by former Representative Ralph D. Cole of Findlay, who said that Ohio had given the nation numerous republican presidents but that "she has never provided a democratic president, and, thank God, never will."

The nominee began his speech by recalling his days in the Ohio legislature and by reciting the accomplishments of republican governors and legislatures in the state. "The record," he said, "had been one of 'progressive policies' and he named among other achievements steps to regulate public utilities, workmen's compensation, tax reforms and highway and banking laws."

"It would be a sorry thing," said Senator Harding, after commenting on his early legislative impressions, "for public men to forget the oath of office to which they subscribe in taking up their public responsibilities. Somehow, there has been a tendency of late to ignore this solemn obligation. It is not easy for me to forget the oath which I assumed when I entered the federal senate. It was the reminder of that oath that impelled me many a time in opposing the unreserved ratification of the League of Nations covenant which the president had negotiated. I could not accept the covenant as written and be faithful to that oath."

"You and I, jointly, have been witnesses to the advantage and security in the divided responsibility which comes of two legislative branches. Some of us have been witnesses to the work of the federal senate during the past five years and I confess amazement at the ignorance of some who cry out against the senate or the contempt of others for the senate's very proper and constitutional part in the federal government."

"I am not disparaging the house of congress. Indeed, I could entertain no such thought. Many of the brilliant contributors to American statecraft have left the impress of their exceptional statesmanship on the activities of the house of congress."

"In the senate are 36 men, elected by the people from 48 states and the safeguards in the senate in the exercise of its constitutional authority are security of the American republic."

"I do not hesitate to say that the senate saved American nationality in 1919 and 1920, when the executive proposed to surrender it. The senate preserved our independence of action when the executive insisted that a foreign council should decide our future place in the activities of the world, and call us to war and our destiny."

"The practices of the senate are not so ancient or so firmly fixed that they do not yield to reform, and the senate is not insensible to intelligent public opinion nor unheeding of a righteous public demand."

"In a cartoon, in solemn editorial, in many utterances on the platform, it has been suggested that in case of a republican victory the incoming president hopes to permit the senate to have some say in determining the policy of government. I gladly proclaim all these suggestions to be literally correct. I rejoice that the United States senate is functioning again. We need it to save America. It submerged itself for the period of this war and surrendered to the executive because we wanted to marshal all of our forces and resources under one supreme authority, but we are at peace, though not formally proclaimed, and we need the restoration of constitutional government quite as

much as we need the restoration of the stable ways of peace.

"If a republican administration is chosen next November you can be very certain that the senate, theoretically if not actually, composed of 36 leading men of the republic, will have something to say about the foreign relations as the constitution contemplates."

"There has been no failure on the part of the house, because that joins the senate in the abiding policy of committing this republic to fidelity of contract. If we failed to keep any covenant we should be held in contempt throughout the world."

Urges Policy of Aloofness

"This thought may well be applied to the proposal that this republic can subscribe to Article 10 and enter into the League of Nations and submit to the rule of a council of foreign powers, on the theory that only congress can make an appropriation of money to carry a covenant with a foreign power, then we should be guilty of a bad faith, utterly unbecoming of this republic, if congress did not keep the compact and provide for the warfare

RED PILLS

The Invigorating and Reparative Tonic for Women

After the birth of my first child, I became excessively nervous, and frequently had such bad attacks that I would faint and would have to call the doctor. I was following a treatment for one year, but with no avail, as I was getting no better. One day a close friend urged me to try RED PILLS for Pale and Weak Women, and I took them. After taking a few boxes with no apparent results, I was beginning to get discouraged, but my husband advised me to continue taking them very regularly, and after four months I was happy to be able to notice quite an improvement in my health. About a year after I was feeling fine in every way.—Mrs. Roch Guerin, 59 White Street, Cohoes, N.Y.

RED PILLS are a priceless treasure for women. They are perfectly harmless and are so easily digested that even the most delicate women can take them. They are especially adapted to anæmic women. The different ailments and discomforts which the weak and anæmic woman very often has to suffer, such as headaches, upset stomach, neuralgia, dizziness, flashes, swellings, palpitations, nervousness, melancholia, discouragement, metritis, displacements, are all caused by the weakness and poverty of the blood, and therefore gradually disappear as a woman gets stronger under the influence of the RED PILLS for Pale and Weak Women.

RED PILLS are sold in boxes, of 50 pills, 50 cents a box, 6 boxes, \$2.50. If they are not at your merchant's they will be sent to you by mail on receipt of price.—Franco American Chemical Company Limited, 212 Milk Street, Boston.

When I was eighteen years of age I took RED PILLS for Pale and Weak Women, and they proved so helpful to me that I am pleased to have the opportunity of advising other young girls to take them whenever necessary. Through carelessness I had become weak and pale as wax, and for a whole year I was unable to do any work at all. The best part of my time was spent in bed, and the different kinds of medicine which I was taking were doing me absolutely no good. Someone told me of RED PILLS, which soon restored my health. Since that time I have great confidence in this remedy.—Mrs. John F. Sousa, 499 Moody Street, Lowell, Mass.

For Itching Eczema, Old Sores and Piles

"I guarantee my ointment," says Peterson of Buffalo, "to cure eczema, stop the itching at once and any reliable druggist will cheerfully refund your money if PETERSON'S OINTMENT doesn't do everything I say it will do."

William A. Carley of Franklin, N. Y., is surely a wise man. He writes: "I used PETERSON'S OINTMENT on a little boy suffering terribly with eczema. It did the work."

Then there is Alex. Louttel, a brave fireman of Buffalo, who is glad to write for many years. The best thing ever hit for itching piles is PETERSON'S OINTMENT. A big box for 35 cents. Mail orders filled by Peterson Ointment Co., Inc., Buffalo, N. Y.—Adv.

which the foreign council has ordered.

"I would think it much better to hold aloof from international relationship than to stamp out that relationship with perjury from the very beginning. If the obligation is one of contract we will keep it, if it is a moral obligation, we must keep it."

"I want America to understand that a republican administration stands unalterably, avowedly and proudly for constitutional government, with the recognized and sustained powers of the legislative and judicial branches of the government, as well as that of the executive."

"I want members of the house to feel themselves a part of a republican administration, seeking to serve the interests of all the people of our common country. I want members of the senate to understand and the public to know that the senate has its functions to perform in making good the plight of faith in the republican platform and the fulfillment of promises to the American people."

"I had rather have the counsel of the senate than all the political bosses in any party in America."

"The tendency has been for the executive to abrogate to himself all the powers of government. May be it is old-fashioned to get back to the constitution but I can well believe it will be a wholesome change from the conditions we are experiencing at the present time."

"I have said something heretofore about party sponsorship in government. I do not think any intelligent person can have misconstrued my meaning. When I speak of party sponsorship which belongs to a political party for the determination of

politics and the fixing program for the highest service to the American people. I want to have done with personal government in this country. I want to put an end to autocracy, which has been reared in the name

of democracy. I want a government of laws rather than of men."

"There can be no permanent good fortune," Senator Harding concluded. "If the awards of toil are bestowed upon particular groups. There can be no assurance of stability if one great group in American life preys upon another. Our thought is to work out such just laws and see to their proper enforcement that government will not be influenced by any element in American life made influential through its physical might or strength of possessions, but that representative government shall ever be righteous and just and give of its concern to the good fortunes of all the American people."

A Simple Way To Remove Dandruff

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid arvon from any drug store (this is all you will need), apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.—Adv.

MINOR ACCIDENT

Philip Demers, of Roxbury, was treated at the Lowell Corporation hospital for scalp wounds last evening about 6:30 o'clock. His injuries were sustained when his automobile collided with one driven by F. L. Holland of Arlington, in Gorham street near the Billerica line.

JUDGMENT

Judgment Is a Big Factor In Any Business--Especially the Clothing Business

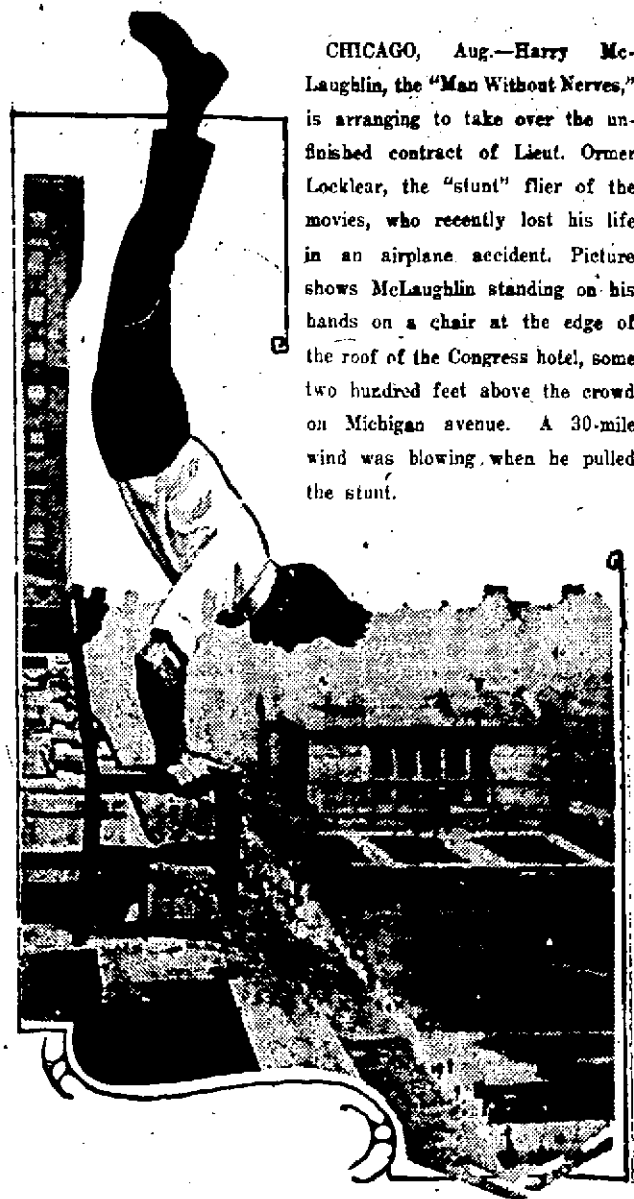

Rainy Saturdays and other conditions over which we had no control made our Judgment in buying for this season look like a two-cent piece. With the result that we stand here at the close of the season with a stupendous stock of Men's, Women's and Boys' Clothes—the finest it has ever been our good fortune to possess. A stock that would cost us today 15 to 25 per cent. more to replace. But Regardless of its value or how much we dislike to part with it, we must kiss it goodbye. It was purchased to sell this season and sold it must be, regardless of cost, profit or replacement price. So if you are in need of any good clothes and don't want to spend all out of doors to possess them, come along now and take advantage of our position.

Merrimack Clothing Company

New Daredevil Takes Locklear's Place in World of Stunts

CHICAGO, Aug.—Harry McLaughlin, the "Man Without Nerves," is arranging to take over the unfinished contract of Lieut. Ormer Locklear, the "stunt" flier of the movies, who recently lost his life in an airplane accident. Picture shows McLaughlin standing on his hands on a chair at the edge of the roof of the Congress hotel, some two hundred feet above the crowd on Michigan avenue. A 30-mile wind was blowing when he pulled the stunt.

DENIES BUYING LIQUOR AT LAMBS

NEW YORK, Aug. 20.—Denial by attorneys for John C. McGraw, manager of the New York Giants, that he had purchased whiskey from the Lambs club on Aug. 8 featured yesterday's investigation of occurrences at the club the evening before John C. Stavin, comedy actor, was found lying injured on the sidewalk in front of McGraw's home.

William J. Fallon, one of McGraw's attorneys, admitted yesterday that McGraw "might have gotten whiskey at the club," though he maintained that his client did not purchase the liquor of the club itself.

James Shevlin, supervising prohibition enforcement agent, said yesterday that the investigation to determine whether bootleggers were operating at the Lambs would be vigorously prosecuted.

Continuation School

Continued
Shortly before 8:30 in the morning, as has been the custom in past years, members of the high school freshmen class will report shortly before 8 o'clock and will be dismissed at 1 o'clock instead of 1:20, as formerly. This will give continuation school pupils an opportunity to begin their work promptly at 1 o'clock and continue until 5.
The annex will be especially adapted

ed for continuation school work as it has facilities for both academic and vocational instruction. The four hours per week which the continuation school pupils will be compelled to spend in school will be equally divided between these classes of instruction. Boys will be taught wood-working, carpentry and other vocational subjects, and girls sewing, millinery, etc. In addition, the usual academic subjects will be taught.

Supt. Molloy estimates that between 1000 and 1200 boys and girls in Lowell will enter the continuation classes in the fall. The law provides that every employed minor between 14 and 16 must attend this school four hours a week sometime between the hours of 8 a. m. and 5 p. m. on any day except Saturday and Sunday.

In Lowell a corps of 12 teachers, six men and six women, with Thos. A. Ginty supervising, will be the instructors. In addition to their four hours of teaching in the afternoon, they will spend two hours each morning in so-called "follow up work," seeing that all the children between the specified ages are attending school, learning of their environment, etc.

During the month of August these teachers, together with continuation school teachers from all over the state, have been taking a special course at Hyannis. Supt. Molloy visited the school yesterday and reports the course most successful.

Cattle, other than milch cows, on farms in the United States are estimated at 44,555,000 head.

NEW DESTROYER MAKES GOOD SHOWING

ROCKLAND, Me., Aug. 20.—The torpedo boat destroyer Pruitt entered upon the third day of its builders' acceptance trials today, with a four hour run at 30 knot speed. This was to be followed by a four hour run at 15 knots. Both are fuel economy tests in which the Bath built craft is making an exceptionally strong showing, according to data compiled by the board of inspection and survey from yesterday's trials.

MORE CENSUS FIGURES

WASHINGTON, Aug. 20.—Today's census bureau announcement follows: Rutland, Vt., 14,554, increase 1408, or 10.4 per cent.
Santa Fe, N. M., 7236, increase 2164, or 42.7 per cent.
Marlinsburg, W. Va., 12,515, increase 1517, or 17.0 per cent.

NAVAL DESERTER

Charles Joseph Lancelot of 724 Suffolk street has been declared a deserter from the U.S.S. naval torpedo station, Mayor Perry D. Thompson has been notified.

SEN. J. J. WALSH SCORES HARDING

BOSTON, Aug. 20.—Senator John J. Walsh, democratic candidate for governor, in the first formal statement he has made concerning the national political campaign, last night declared that this year's contest was not one between parties, as of old, but rather a contest between individuals.
Governor Cox he classed as a "virile leader of men, whose mind is adjusted to progress." Senator Harding was

designated as a "reactionary who lives in a dead past and boasts of it, a servant of a greedy group of men who sing the song of selfishness."

Senator Walsh condemned the action of State Treasurer Fred J. Hurrell in combining official duties and private business. Mr. Walsh declared this

was a violation of "moral law and order." Financial law and order, he stated, was violated in the Ponzzi case. "Now that people have begun to catch the real significance of the party platforms framed at Chicago and San Francisco," said Senator Walsh, "democratic prospects brighten. The con-

test for the presidency is not between a democrat and republican on old lines, but between a virile leader of men whose mind is adjusted to progress and a reactionary who lives in a dead past and boasts of it, a servant of a greedy group of men who sing the song of selfishness."

HIGH COST OF LIVING HITS TURKISH HAREMS

CONSTANTINOPLE, Aug. 20.—Nowhere has the high cost of living been felt more keenly than in Turkish harems. Men who were formerly able to maintain many wives and concubines find their incomes insufficient to keep up large establishments and are forced to turn some of the women adrift.

American women relief workers who have been investigating social and economic conditions say the tragedies Turkish women have undergone as a result of the war are even worse than in other European countries because of the utter helplessness of women and their lack of training which might make them self-supporting.

The sufferings of Moslem women are worse in cities than in the country, for the country women are frequently trained to do farmwork and are an asset to their husbands rather than a liability. Furthermore the economic conditions have not been disturbed so seriously in rural districts. Farming goes on much as usual. Women can find employment in olive groves, at silk culture, in fruit orchards and even in grain fields.

Since the war has robbed so many women of the husbands, fathers or other male relatives upon whom they were dependent, many city women have forced themselves into employment which was never before regarded as proper for Moslem women. Turkish women with their veils thrown back from their faces may now be seen as saleswomen in scores of Constantinople shops. They are even employed as street sweepers.

There has been a great outcry against Moslem women accepting employment which forces them into association with men, especially Christian men, but the economic pressure has been so strong that religious prejudices had to make way. The need for nurses with the army gave Moslem women their first opportunity to get hospital training and become nurses. That was the entering wedge which has opened the way into other employments monopolized by Greek and Armenian women. Turkish women may now be found in telephone exchanges. They are acting as cashiers, janitors and even street car conductors.

Stern necessity has won for Turkish women an independence which was undreamed of six years ago, and the wall of the untrained women forced to earn their livelihood has aroused Turkish leaders to a realization of the necessity for better and more practical education for women.

TO EXTEND BOYCOTT AGAINST BRITISH

NEW YORK, Aug. 20.—Six additional modes of attack in the boycott by Hindus and Mahometans against the British government in India, the first of which were reported to have been put into effect on Aug. 1, were made public here yesterday by the India Information bureau. The boycott has Hindu and Mahometan terms of the Turkish peace treaty, the provisions of which are said to deprive the Mahometans of the world of "every vestige of power."

Four other measures of opposition, including the relinquishment of British titles and honors, resignations from government offices, refusal to serve in the army and to pay taxes, were announced on July 18. The new phases of the boycott are:

Non-participation in loans floated by the British Indian government for military purposes, railway and canal of the boycott are:

Suspension by Indian lawyers of practice and settlement of civil disputes by private arbitration instead of in government courts.

Boycott of government schools by Indian parents.

The boycott of reform councils, meaning a refusal on the part of the Indian community to participate as

candidates or voters in the elections which will be held in India next November, according to the provisions of the new government of India act.

Non-participation in government social functions and Durbars.

Vigorous development of the Swadeshi movement (cultivation of home

industries and purchase of Indian-made goods only.)

Dr. N. S. Herdiker, director of the bureau, also announced that a recent despatch from Lucknow said "that there was a complete 'hartal' or cessation of business and that joint Hindu and Mahometan meetings in Bombay, Hyderabad, Calcutta and other places was attended by thousands of persons who subscribed to the non-cooperation movement against the British government."

The only instance of disturbances, he said, was at Hyderabad, Sind, when a Mahometan priest was arrested and placed in jail. The prisoners threw down their tools, he said, and refused to work. Thereupon a crowd congregated outside, but there was no actual disorder. The entire movement, according to Dr. Herdiker, is one of passive resistance.

A special session of the All-India political body—the India National congress—will be held in Calcutta in September, when the results of the boycott will be determined and the future course of the movement decided. Lajpat Rai, who lived in New York for four years as a political refugee, will preside at the sessions.

Be sure to ask for the double strength Othine as this is sold under guarantee of money back if it fails to remove freckles.—Adv.

There's no longer the slightest need of feeling ashamed of your freckles, as Othine—double strength—is guaranteed to remove these homely spots.

Simply get an ounce of Othine—double strength—from any druggist and apply a little of it night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than an ounce is needed to completely clear the skin and gain a beautiful clear complexion.

To the Man or Woman who owns any Small Car

AT one time or another in your experience, you have no doubt felt the influences that are at work, setting the small car owner apart from other motorists.

The time that you felt it most, perhaps, was when it came to a question of tires for your car.

* * *

What every tire dealer hasn't yet found out is that you can't judge a motorist's intelligence by the length of his car's wheel base.

Some of the most critical and experienced motorists in the country are found among the owners of small cars.

Men and women who could afford to own any type of car made, but who were led to the small car for logical reasons.

These are the men and women whom the indifferent type of tire dealer has left out of his calculations.

Intent as he is on looking merely at the cars that drive up to his store, instead of at the men and women who own them.

* * *

The United States Rubber Company has never assumed that the best was too good for the owner of any small car—whether Ford, Dort, Chevrolet, Maxwell or any other.

It has never built a high grade of tire for the large car and then cheapened it for the small car.

All of its unlimited facilities—greater and more widespread than those of any other rubber manufacturer—have been devoted from the beginning to building tires of standard and uniform quality.

The same quality in the 30 x 3½ inch size as in the largest size tire it builds.

And nothing less.

* * *

U. S. 30 x 3½ inch tires come in four treads—Nobby, Chain, Usco and Plain—a tread for every road.

They are built by experienced workmen in a factory devoted exclusively to the manufacture of small size clincher tires.

A factory which has produced more tires every year for the last three years—and still is unable to produce them fast enough.

* * *

The good tire dealer—the man who treats all car owners alike—never even suggests that you be satisfied with anything less than U. S. Tire quality.

He encourages and aids his customers in their search for the best.

Until you have met him, you will never know what it is to get the utmost economy out of your car.

DOCTORS ORGANIZE COX CHARGES 15 MILLION

Form Protective Fraternity—

Act on Restrictions on
Liquor Prescription Blanks

CHICAGO, Aug. 20.—The American Protective Medical Fraternity was launched last night at a meeting of Chicago physicians, held to discuss the restrictions on liquor prescription blanks by the federal prohibition director.

One of the objects of the fraternity is "to secure for the physicians an unlimited number of prescription blanks." Among the other expressed objects are to co-operate with the prohibition authorities in upholding the 15th amendment and assist in enforcement of the Volstead act.

A committee of five physicians was named to draw up rules and by-laws. They are headed by Dr. E. W. Scott, who was chief medical officer in charge of the Emergency Influenza hospital at Washington, D. C. during the war.

Dr. Scott said the physicians themselves should be the ones to decide the number of blanks needed. Chicago physicians now are allowed 200 blanks every three months by the prohibition director. Dr. M. L. Smith said that the way things were run now about all a physician could do was to sell the blanks to the highest bidder.

DRACUT MAN'S AUTO
LICENSE REVOKED

(Special to The Sun)
STATE HOUSE, Boston, Aug. 20.—Max Cohen of Dracut has been notified of the revocation of his license to operate an automobile, by the state registrar of motor vehicles.

According to the state registrar, Frank A. Goodwin, Cohen was found guilty in the Lowell police court on Aug. 10, on the charge of endangering the safety of the public, and paid a fine of \$25. His license may not be restored to him within six months, unless the judge imposing the penalty intervenes.

Only 891 buffaloes were left in North America in 1858. Now there are 7370 in Canada and the United States.

REPUBLICAN FUND

SOUTH BEND, Ind., Aug. 20.—Charge that at least \$15,000,000 is being contributed to the republican campaign fund by selfish interests were made yesterday by Gov. Cox, democratic presidential candidate, during the course of two addresses opening the Indiana democratic campaign.

"Sky is the limit," he said, "and the sky apparently is the limit. In Ohio \$500,000 was raised in the twinkling of an eye. They have subdivided America into seven districts and influential men, representing selfish and greedy interests, are passing the hat. They are trying to buy a governmental underhold. It is a mere bagatelle with what the contributors expect to get back."

Pleas for the League of Nations, denunciations of what he said was the republican plan for a separate peace with Germany, promises of tax reductions and problems of the high cost of living were other features of Governor Cox's addresses. He spoke to a crowd of several thousand late yesterday on the court square, attended a banquet of the Indiana Democratic Editors' association and addressed another large crowd at the Coliseum last night.

With republican campaign funds a special object of the governor's attack, he declared that Wall street interests were planning to "emasculate" the federal reserve act, in event of a republican victory, by providing that bankers only shall be eligible to a federal reserve board membership; to secure power over credits and interest rates.

Gov. Cox also urged federal regulation of packers and other cold storage concerns, with time limits for storage of foodstuffs.

To the editors in his audience, comprising about 500, Gov. Cox gave his views on the print paper situation, urging reforestation involving against a print paper combination and declaring manipulation and panic have contributed to the paper shortage. He suggested federal supervision. He also took sharp exception to Senator Harding's depreciation of the disappearance of political organs. Urging an "Independent press," Gov. Cox said that Senator Harding's was "a dangerous

The hornbills of Africa and India plaster up and imprison the hen birds in a hole in the tree, with only a small opening left in the plaster through which to feed them and their young when hatched.

Acids in Stomach
Make Sour Food

CAUSE INDIGESTION

"Experience has taught me that most people who complain of stomach trouble and indigestion possess stomachs that are perfectly healthy and normal," says a well-known authority. The real trouble, which causes all the sourness, gas and pain, is excessive acid in the stomach. This acid irritates the delicate stomach lining, sours and ferments the food before the point of digestion is reached.

Artificial digestants are not needed in such cases. They give only temporary relief, do not correct the cause and often do great harm. A better plan, if you suffer after eating, is to drink a glass of hot Magnesia water made from a teaspoonful of four tablets of pure Bismarck Magnesia which can be obtained from any reliable druggist. This instantly neutralizes the acid, sweetens the stomach and your meal digests naturally without pain. Try this for a few weeks and see if your stomach does not feel one hundred per cent. better.—Adv.

proposal," suggesting control of papers by the "senate oligarchy."

Tennessee's ratification of the woman suffrage amendment brought from the candidate in his advocacy of the league the statement that "war is more impossible today than yesterday."

"Because, thank God," he added, "the mothers of America have a voice now in saying when war shall or shall not be."

Praising women as "progressive, intuitive and patriotic," Gov. Cox continued:

"I think they are going to help things. Their mother instinct is going to stay the hand of war, and that in itself is sufficient to justify the cause of woman suffrage."

The league, Gov. Cox declared, is necessary "to keep faith with the boys who died in France," and also, he said, involves "the purse, the home, the happiness and the self-respect of every man, woman and child." It is needed, he said, to reduce the cost of living by decreasing taxes for armament and by stabilizing agriculture and industry. It is "the great transcendent issue" of the campaign, he declared.

The hornbills of Africa and India plaster up and imprison the hen birds in a hole in the tree, with only a small opening left in the plaster through which to feed them and their young when hatched.

The Store That is Never Undersold

SUGAR PROFITEERS ARE CAUGHT IN SLUMP

WASHINGTON, Aug. 20.—Retribution is coming apparently to many big sugar dealers, who, a few months ago, were fattening their bank accounts by the abnormally high sugar prices. The very prices that they created are in a large part responsible for their losses.

Within a week, when prices have dropped from 23, 24 and 25 cents a pound to 18, 17 and 15 cents, certain dealers have lost tens of thousands and perhaps hundreds of thousands of dollars of their former profits. The end is not yet. Yesterday one of the largest concerns in the country, to meet competitors, planned to put sugar on the market at 15 cents.

It would not be surprising if prices dropped even to lower levels before they stabilize. Prospects are gloomy for those with large supplies who are wondering how they will get through the next week or two without impairment of credit and actual collapse.

Ladies Keep Your Skin Clear, Sweet, Healthy With Cuticura Soap and Cuticura Talcum

Efforts to keep the situation quiet in order not to disturb bank credits have failed. According to present indications, the concern that can unload before there is an actual stampede fare the best chance of escaping unhurt.

A miscalculation about the effects of prohibition really started the break in sugar prices. A contributory cause is the haste of sugar dealers all over the world, some of them never before seeking the American market, to rush their supplies here to get the benefit of high prices. Many of these foreign supplies have already landed or are en route. They come from Brazil, Peru, Argentina, China, and even from Africa, none of which countries has figured in the sugar market here in years past.

Interesting inside information as to the start of the break in prices a week or 10 days ago was obtained today.

Big candy and soft drinks manufacturers and speculators calculated last summer and fall that nation-wide prohibition would create a demand for candies and soft drinks never before known in this country. They made a rush for the available sugar supplies and gobbled them up. One result was that for weeks last spring the average individual was informed by his grocer there was no sugar to be had. Refiners took advantage of the demand to boost prices until they reached as high as 25 and 30 cents a pound, virtually prohibitive to many small consumers.

This summer the candy and soft

drink manufacturers were rudely awakened by the realization that the public had not gone as crazy over candy as anticipated. Accordingly they began to unload.

Much of the sugar is being sold at a loss now averaging five cents a pound.

Another circumstance that makes it difficult at this time to halt the downward competitive slide is the approach of the best sugar yield, which will supply large quantities that will become available for the western states. This is expected to cut down the market for eastern refiners and bring the sugar market into an even sharper competitive stage.

Ask Aid of Government

WASHINGTON, Aug. 20.—Sugar dealers caught in the recent price slump with large stocks on their hands are appealing to the department of justice to save them from loss, according to John F. Crosby, acting head of the department's campaign to lower the cost of living.

Many dealers who have been prohibited from selling sugar at more than one cent a pound profit, Mr. Crosby said yesterday, complain that because they bought sugar when prices were high they now face heavy losses. Unless refiners violate the Lever act, he added, the department has no remedy for the situation.

To produce a diamond in the rough costs approximately \$7 a karat.

SLOGANS ARE FLYING

Political Parties Speak up
Tritely Behind Jimmy Cox
and Ohio Warren

N.E.A. Staff Special.

CLEVELAND, Aug. 20.—Have you a case of sloganitis in your home? 'Tis an odd affliction and has been nipping Mr. and Mrs. General Public haphazard.

Elections often hinge on snappy campaign slogans which strike a responsive chord in the people. Remember "McKinley and a full dinner pail" and "He kept us out of the war."

What will the 1920 slogans be? Campaign leaders of both parties are said to have chosen their war cries. But they haven't announced them yet.

In the meantime Chicago, Cleveland and New York papers have been running slogan contests and the people are pouring in their prize campaign appeals. Some of the best for both Cox and Harding so far submitted follow:

And, oh! what a response! Sloganitis has swept the nation! And is still "sweeping."

Here are just a few of the Cox and Harding slogans that have swamped the slogan editors:

Democrat

Elect Jim—There's pep to him!
Cox—Ahead by a league.
Sinny Jim—We'll win with him!
Wilson did his best; leave it to Cox—He'll do the rest.

Don't delay the next war—make it impossible! Vote for Cox.

'If heroes brave you would remember, vote for Cox this coming November!

I favor going in—You've spoken the demand of millions, Jim!
Vote for Cox and tell the world America is not a quitter.

Vote for Jimmy Cox and keep the nation off the rocks.

Every time that Jimmy speaks, a front porch down in Marion squeaks.

Woody, dust off that chair—Jimmy Cox is coming there.

Governor James M. Cox—his record talks.

Choose the boat that never rocks; sail with Pilot Jimmy Cox.

Cox is the bird to keep our word.

Down the political bosses at the ballot-box by electing Jimmy Cox.

Wall Street—Yah! Jim Cox—Yah! Ohio knows your staunch and true Jim Cox; I'm with you, too.

Republican

Beat Wilsonism, waste and woe—Harding!

Harding 50-50, not 5 to 1.

Cut the comedy—elect Harding.

League us not into temptation.

Restore the reign of common sense Harding—a resident president.

Nothing foreign about Warren.

Vote for Harding—he's the star; make Liberty bonds sell at par.

Harding—Home rule for America! We'll win with Warren; without Woodrow, without whiskey, without watchful waiting.

Be wise, Pard, keep on guard; play your card and vote for "Hard."

The H. C. L. will never fail until we answer Harding's call.

The next eight years we'll be content with Harding as our president.

Harding—No league, no war, no hell.

Harding and Coolidge—That's the stuff; whoever says no just treat 'em rough!

Nov. Second, happy day; autocracy

IRISH CIVILIANS KILL BRITISH OFFICER

MACROOM, Ire., Aug. 20.—Lieut. Sharmen, commanding a military patrol, was killed, and four of his men were badly wounded near Ballyvourney, in a pitched battle with armed civilians, who delivered a surprise attack.

The attacking party had dug trenches and felled a tree across the road where the patrolling military passed. No casualties are reported among the civilians.

Irish "Moderates" in Center

LONDON, Aug. 20.—Irishmen of moderate views concerning the problem of dominion home rule will gather at Dublin from all parts of Ireland next Tuesday for a conference.

This meeting, says a Dublin despatch to the Daily Mail, has "been endowed with considerable importance by the change in policy in Downing st. Although the premier's statement in the house of commons last Monday puzzled Irish politicians," the despatch says, "it is wrong to take a pessimistic view of the situation, as the way to peace is by no means closed."

Continue to Hold Up Trains

DUBLIN, Aug. 19.—The holding up and robbing of mail trains and mail motors by armed and masked gangs is continuing apace. A party boarded a Dublin southeastern train at Ferns last night, holding up the officials and taking all the official mails.

Twenty raiders held up a mail car near Kiltbritain and seized six bags of mail. Postal officials with mails from Buncrana, an important naval and military center, were waylaid and the mails taken, while a number of official letters were removed from another train which had been held up near Buncrana.

Boycott of Belfast Farms

BELFAST, Aug. 20.—A resolution advocating a general boycott of Belfast farms, owing to alleged persecution

of Catholics, has just been adopted by the Leitrim county council.

MacSweeney Gets Two Years

CORK, Aug. 20.—The court martial which recently tried Terence MacSweeney, lord mayor of Cork, on a charge of having under his control the secret police cipher and sedition, sentenced him to two years imprisonment.

The trial of Mr. MacSweeney was conducted under the defence of the realm act. When arrested he immediately went on a hunger strike. On Tuesday he was deported to England aboard a torpedo boat destroyer and arrived in London Wednesday under a heavy military escort.

He was still on a hunger strike and was looking ill when he reached London.

DISMISSAL OF PRISON GUARD UPHELD

BOSTON, Aug. 20.—Judge Charles S. Sullivan of the Charlestown municipal court affirmed the order of Warden Elmer E. Shattuck of the state prison, suspending William J. Crowley from the prison service, at a hearing yesterday afternoon in that court petitioned for by Crowley, who requested a review of the testimony at the recent hearing in the state house and reinstatement as an officer at the state prison.

Attorney F. J. Connelley for Crowley, contended that the petitioner was not negligent in his duty at the time of the escape of Ward, Barney and Blanner. He said that when Crowley learned of the trouble he headed for the north wing of the prison and when half way down he met officer Hannigan, who told Crowley he was getting out through the roof. Hannigan went back and Crowley went outside to guard the east side of the prison. He supposed that two officers were on the other side.

Judge Sullivan's verdict follows: "Crowley knew that he was dealing with dangerous characters and he

should have fired either to detain the men on the roof, frighten them or sound the alarm for assistance. There is a twofold reason for having revolvers, one for attack and the other for defense. He could have fired one, two or three shots and still held a couple in reserve should the men come at him. His first duty is to protect the public. He should have first fired at them, or in the air.

"There is no testimony here that he was told there were officers on the roof. He was told, however, that there were prisoners getting out. If there were men on the roof it was his duty to find out who they were and go forward and seek the game. He was the hunter. On the evidence and facts presented the warden is justified in making the judgment he did. This is a correctional institution, and it is absolutely necessary to have discipline. Breaking down the discipline by having outside influence to place an officer in another position against the wishes of the warden is absolutely bad, and I wouldn't think much of the warden if he didn't resent it."

EVERY FLOWER HAS A STORY OF ITS OWN

Rarity is the significance of the mandrake in the language of flowers.

Many uncanny and unpleasant superstitions are associated with this flower. It was said that it grew only near gallows or criminals' graves.

Shrieked and Groaned

A superstition that was current in ancient times was that the plant gave forth terrible shrieks and groans that were almost human, when it was gathered, and that any person hearing them would die immediately. It was a custom, therefore, to gather the plants, which had great value medicinally, by tying them to the tail of a dog and driving him on. The humans stuffed their ears up carefully, but the dog would fall dead when the plant emitted the ghastly shrieks.

The juice of the plant was used for eye diseases, as a narcotic and for love potions. It was said, however, that the odor would make persons dumb if it were inhaled to excess.

Chorus Against Evil

In the middle ages, little dolls carved from the roots of mandrakes were used as charms against all evil.

This plant is sometimes called devil's candle because of the luminous quality of its leaves at night.

Many of the uncanny superstitions were still current in recent centuries. The murder of a French nobleman was attributed to his having broken a contract with the devil. Two mandrakes of extraordinary beauty were found in his room, and his friends considered this conclusive evidence of his compact with the devil.

FOR IMMEDIATE EMBARGO ON TIDEWATER COAL

WASHINGTON, Aug. 20.—An immediate embargo on the movement of coal to tidewater except upon a definite showing that the coal upon arrivals at piers would be unloaded into vessels with reasonable promptness, has been agreed up by the railroads. It was announced yesterday by the American Railroad association.

In an explanatory statement, the association said:

"Chairman Willard of the Association of Railway Executives and Col. D. B. Wentz, president of the National Coal association, met in conference yesterday with representatives of the commission of car service of the American Railroad association, tidewater coal-carrying lines serving Hampton Roads and the north, various tidewater coal exchanges and the American Wholesale Trade Coal association, to consider what more effective means could be adopted to reduce the accumulation of bituminous coal cars, awaiting transportation at tidewater.

"The conference considered particularly a report of the special committee of the National Coal association in the matter of shipment of tidewater bituminous coal," the statement said, "and unanimously reached the conclusion that such changes should be made

in the regulations of the tidewater coal exchange which handles shipments through New York, Philadelphia and Baltimore, as would result in penalizing the holding of bituminous coal by individual members of the exchange beyond the free time permitted in established coal demurrage tariffs.

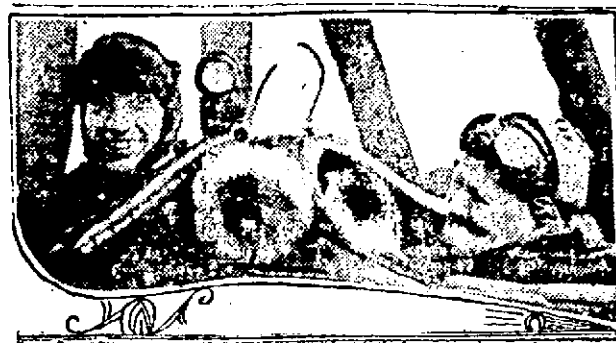

"Further than this, the meeting unanimously agreed that as the only effective means of adequately controlling the situation, all tidewater coal-carrying lines should immediately embargo the movement of tidewater coal and simultaneously provide for the acceptance of such traffic only upon permits to be issued by the tidewater bituminous coal terminal railroads.

"It was recognized that the issue of the permits must depend in the first instance upon transportation conditions, upon the railroads concerned, but beyond this it was unanimously agreed that no permits should be granted, except upon a definite showing that the coal upon arrival at the pier at tidewater would be unloaded into vessels with reasonable promptness, this ability on the part of the permittee to be ascertained by his showing as to vessels under charter and his record in meeting the conditions of permits hitherto issued.

"The meeting also agreed, without dissent, that the issue of permits should be to the loading lines with provisions made that if the amount to be loaded was exceeded, the mine so violating the permit should be penalized in its car supply so long as the coal so billed without permit remained unconsignee elsewhere and disposed of."

English Woman, Aged 100, Enjoys Record Airplane Flight

BY MILTON BRONNER
European Manager, N.E.A.

MANSFIELD, England, Aug. 20.—"Scared? Not me. I am going to take another trip by air very soon." The speaker was Mrs. Ann Sessions, who is 100 years old and who has a world's record as the oldest person who ever made an ascent in an airplane. Her pilot was Herbert Sykes, who is seen in the machine with her. "It was a very nice ride and not the least bit uncomfortable. I was not dizzy or anything. Mr. Sykes wants to take me on a longer trip to visit my birthplace, and I have a strong notion to go."

WOMEN WON'T HAVE TO PAY POLL TAX

BOSTON, Aug. 20.—Many women have been anxious to know if they will have to pay an annual poll tax, now that they have the vote. Some, especially those in Boston, where constables are rounding up the delinquents, had visions of being lugged off to jail by hard-hearted minions of the law for failure to pay at a given time. But they needn't worry. Under the present law only men are taxed. And anyway, the poll tax has nothing to do with voting. It is merely a way of raising revenue.

Not Savings For Which You Have To Take Our Word--But Savings That You Can See As Plainly As The Shoes Themselves, For The Regular Prices Are Printed On Every Box.

Tomorrow morning we start another week's selling of NEWARK shoes for women that is certain to be the greatest we have ever known.

Every pair, regardless of their value, or cost, or the very low price they were up to this time, will be sold at these two astoundingly low prices. And every pair is GUARANTEED just as if you bought at the regular prices. It would be very poor economy to buy shoes, no matter how little you paid, and not be satisfied with them. So we say to you, if any purchase you make in this sale is not perfectly satisfactory, return them for refund or exchange.

At \$2.98: Patent Leather Smoke Gray Suede and F. B. C. White Kid and White Buck Pumps. All \$6 and \$7 values.

At \$3.98: Stunning Gun Metal Patent Leather and Mahogany Oxfords with military and Louis heels. All \$7 and \$8 values. The regular price is printed on every box. Every pair Genuine NEWARKS.

Go where you will, you cannot find bargains to equal these. In every instance you get practically DOUBLE VALUE for your money. There isn't a single pair of "sale" shoes in our store. Every pair is our own regular stock NEWARK Shoes, strictly first quality and new this season. See these wonderful values tomorrow.

World's Altitude Holder To Pilot United States Speed Plane in Race for Bennett Trophy

DAYTON, O., Aug. 19—Uncle Sam is depending on a new speed plane and Captain R. W. Schroeder, holder of the world's altitude record, to bring the Gordon Bennett trophy to America, by a win in the international airplane

race in France, September 27.

France and America have both won the cup twice. If either takes it in the coming race it becomes the permanent possession of that country.

The new plane represents the results

of several years of experimental work. It is a monoplane, but the credit for designing the airplane goes to Alfred Ver-ville, McCook field civilian designer, at McCook field. Many experts con- sider it the best plane yet designed. Figures on speed attained in experi-

mental tests are held secret, but is expected to make better than 200 miles an hour.

"Do I expect to win? I certainly do," says Schroeder. "But I will feel just about as good if either of the other two American entries wins the prize. We want the cup for America."

SHORTAGE OF LUMBER SLOWS UP WORK

Commissioner George E. Marchand of the public buildings department is having a little difficulty in getting lumber for the \$10,000 addition to the Boys' Vocational school in Broadway which the school department has asked to have ready early in September.

However, workmen of the department are devoting their attention to minor features of the building, such as window frames, etc., for which materials are available and it is expected that lumber will be received early next week so that the work may go along without further delay.

The Morey grammar school 14-room addition which was started last October and was to have been ready for the opening of the fall term next month will not be completed until well into the fall and perhaps the early winter.

Another portable schoolhouse has been erected by employees of the department, this one in the yard of the Edson school. This makes the seventh of this type of building now ready for use in Lowell.

PROBE OF ANTHRACITE COAL STARTED

BOSTON, August 20.—Investigation into the anthracite coal situation started yesterday, when William A. Clark of the New England Coal Dealers association, appeared before the commission on the necessities of life, James C. Hulpman, chairman. This body will have charge of New England's hard coal and intends to secure all data on the subject.

Questionnaires will be forwarded dealers throughout the state starting today, to ascertain the amount of coal on hand in various communities, and all remedial measures will be handled through the commission. The work will take but a few weeks, and communities can enter the coal burning months with some hope of relief from serious shortage.

Yesterday's conference between the head of the New England dealers and the chairman of the commission was merely to find out some conditions about the coal situation and some facts pertaining to the handling of the commodity after it leaves the mines.

Complete canvass of the state for the amounts of coal on hand, it is expected, will be finished within a short time, but the final returns will rest with prompt filing of the questionnaires by dealers.

EXAMINATIONS

Chauffeurs May Use Room at County Court House

Commissioner George E. Marchand today addressed a letter to the board of county commissioners asking them to provide accommodations at the court house in Gorham street for the use of inspectors of the state highway department who conduct a chauffeurs' examination here every Friday.

The commissioner's action follows the request of the Lowell charter commission that the old councilmanic chamber at city hall be fitted up for its use on and after Sept. 3. The chauffeurs' examination has been held in this chamber for a number of years but once the charter commission takes it over, desks will be installed and the room will no longer be available for chauffeurs.

The Lowell Community club in Dutton street has offered the state authorities the use of a part of its building for the weekly examination, but to date the offer has not been acknowledged.

VACCINATION FOR SCHOOL CHILDREN

The vaccination season is on in full swing at city hall with the approach of the opening of schools. Between the hours of 4 and 5 yesterday afternoon Dr. E. G. Livingston and Dr. W. A. Johnson vaccinated 54 children in the dispensary in the basement of city hall. On Wednesday 43 were vaccinated, 29 on Tuesday and 16 on Monday. Vaccination sessions are held every day except Saturday, Sunday and holidays from 4 to 5 p. m.

Three Named in Ponzi Case (Continued)

dered that they qualify in bonds of \$50,000 each.

The amount of assets to be handled is uncertain. Ponzi's statement that they would aggregate \$4,000,000 being the only estimate available.

The receivers will be called upon to adjust claims which already aggregate more than that sum on the basis of records of note-holders tabulated by the state attorney general, and the total is likely to run to \$7,000,000, according to the estimate of Edwin L. Pride, the accountant who has been making an audit of Ponzi's liabilities for the federal authorities. These figures include the 50 per cent. profits promised by Ponzi to his investors and incorporated in the notes which he issued for payment in 90 days.

With the probability that settlement of claims will be on the basis of actual investments, the figures will be pared down by approximately one-third. The receivers also will be called upon to decide whether they will proceed against those persons to whom Ponzi paid the 50 per cent. profit before he stopped doing business.

He asserted yesterday that he had paid out \$7,500,000. Some of these payments were refunds of actual investments only, hundreds of persons having hastened to abandon their prom-

ised profits in the run of withdrawals which marked several of the later stages of the operations of Ponzi's Securities Exchange Co. Accordingly the amount of money paid out by Ponzi in interest, and subject to action by the receivers should it be held that undue preference was given the persons who received it, would be approximately \$2,000,000.

Of the receivers named by Judge Morton, Sears and Thurston are lawyers, and Perkins a business man. Sears appeared at the hearing on the petition for receivers as the representative of the Legal Aid society of this city, and in behalf of some of the creditors. Thurston is a former chairman of the republican state committee. Perkins is a former secretary and treasurer of the Calumet & Hecla Mining Co.

Receiver For Old Colony

The Old Colony Exchange company, a rival of Ponzi in offering high rates of interest for investments, also was placed in receivership by Judge Morton, John E. Hannigan of this city, a lawyer, being named as receiver.

A belief that creditors of the company would receive 90 per cent. of

their investment was expressed in the federal court by Robert Gallagher, counsel for the company. This figure is considerably higher than the estimate of Attorney General Allen of Massachusetts, who said yesterday that the visible assets thus far amounted to something like \$150,000, and that the total of the company's business in notes was probably \$250,000.

Mr. Gallagher told the court that aside from the assets in the possession of Attorney General Allen and the police, there was a deposit of \$1500 in a Boston bank in the name of the wife of the president of the company, Charles Brightwell, a deposit in a New York bank of \$15,000, and the office furniture.

Judge Morton said that the receivership would cover the three petitions filed in the case, one against the company and one each against President Brightwell and the secretary, Raymond Myers. In this respect the action was different from that in the Ponzi receivership where only one of the several petitions was acted on.

MINORS WORKING IN SUMMER MONTHS

More than 450 working certificates entitling minors between the ages of 14 and 16 to work during the summer vacation have been issued by the attendance officers of the school department at city hall this summer. These certificates expire Sept. 11 and upon their expiration the boys and girls for whom they were issued will be obliged either to attend regular sessions of a public or private school, or if they plan to continue to work, must enroll in a continuation school class.

TRANSFERRED TO NEW PASTORATE

Rev. Daniel A. Barry, a former resident of this city and a brother of Mrs. Michael Barry of 11 Dracut street, has been transferred from St. Patrick's church of Silverton, Colo., to a new pastorate at Holly, Colo. Rev. Fr. Barry had served in Silverton for more than five years and had made a large number of friends there. He is also well known in this city.

DISTRIBUTE THOUSANDS OF WAR TROPHIES

NEW YORK, Aug. 20.—Thousands of war trophies brought from the battlefields of France for use during the Liberty loan and other drives are being distributed at the warehouse of the French mission here. The material includes guns of all kinds used by the French, British and Germans, cavalry swords, cuirasses, shells and soldier equipment.

Large demands for trophies have come from inland cities, according to Maj. Jean Malye, director of the bureau of information, direction generale des services Francais Aux Etats Unis, now in this city.

One of the largest single collections, with the exception of that given to Washington for the National museum, was presented to the Army and Navy club of America. The trophies will be preserved in a suitable environment to be included in the plans for the new \$2,000,000 clubhouse that is to be erected in honor of the officers killed in the war.

The collection of 50 pieces is made up of cannon, flame throwers, trench mortars, machine guns, bayonets, rifles, swords, cuirasses, wire cutting machines, trench stoves, brasses, marmites, shells and shell baskets, marine signal flags and other interesting and valuable trophies. The selection was made by Capt. Adrian Duane Doty, U. S. Signal corps, representing the club. Tanks and German field pieces weighing from one ton to ten recently have been given to cities like Chicago, St. Louis, Chattanooga and others as far away as Texas.

A huge German listening post has been given to Bloomfield, N. J. Montclair received a whippet tank, while the National museum at Washington was awarded a large 16-man tank. Other valuable pieces were sent to Washington, including an airplane, sample pieces of all the foreign artillery used during the war, uniforms and field kitchens.

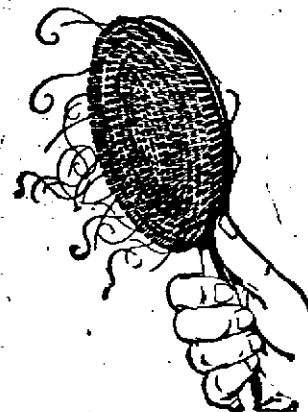

The prize of the collection, a Big Bertha, was claimed by Mt. Kisco, N. Y., and will be placed in a prominent position there. The state university of Baton Rouge, La., has requested the immediate shipment of a German minnen werfer. Chattanooga has been given a German 150 millimeter gun weighing three tons.

The Chicago collection was chosen by Col. E. M. Marr. It will be shipped to that city within the next few days. Sgt. Fred Eneth, French army, who has been in charge of the material for two years, announced. An idea of the demands made for trophies, he said, could be gained from the fact that more than 3000 French helmets and an equal number of uniforms had been disposed of.

To various posts of the American Legion field pieces have been given. All requests are filed at the office of the director generale, 65 Broadway, before permission is given to inspect and select the trophies.

"DANDERINE"

**Stops Hair Coming Out;
Doubles Its Beauty.**

A few cents buys "Danderine." After an application of "Danderine" you can not find a fallen hair or any dandruff, besides every hair shows new life, vigor, brightness, more color and thickness.—Adv.

SHOTS FIRED

Three Masked Men Rob Crap Shooting Party

WHITINSVILLE, Aug. 20.—Three men, whose faces were masked by handkerchiefs held up a party of between 40 and 50 craps shooters in the woods on the West Side of this town at dusk last evening and got away with several hundred dollars.

One man is said to have been robbed of \$600. The robbers, who arrived in an automobile, fired three revolver shots and cried, "Hold up your hands!"

Some obeyed, while others scampered off into the woods and saved their rolls.

After collecting what cash they could, the three robbers boarded their automobile.

At the junction of Main and North Main streets a box of 32-calibre cartridges was found. It is thought it was thrown away by the robbers.

MIKE DOYLE'S IDEA SHADES MR. PONZI

BY JACK CARBERRY
N.E.A. Staff Correspondent

MATANORES, Mex., Aug. 20.—"For sale—100 Mexican farms, fully equipped. Cheap. Write or wire Mike Doyle, care of El Buckhorn Bar, Matamoros, Mex."

Mike Doyle, saloonman here, is seriously considering running ads like that in American papers.

Not that Mike has the 1000 ranches, but that he believes he will have them, soon.

Doyle is forming a syndicate here to buy up the farms given Pancho Villa's soldiers in Coahuila.

Under the "unconditional surrender" terms made by Villa to President Adolfo de la Huerta, each of his men receives a farm, fully equipped, together with a year's pay in advance. Villa himself, in addition to his farm, gets \$2,000,000 in gold for his surrender.

"Show me a Mexican with a year's pay in his pocket, and a farm, who will be contented to stay on that farm and I'll show you a miracle," says Doyle.

"Why, a man with \$50, a Stetson hat and a pair of duck pants can take over the best piece of land in the state of Coahuila," he says. "Furthermore," he adds, "I'm the boy who's going to do it."

Doyle has already received promises from 50 Villa men that they will sell him their farms, he says.

MAY SEASON MINCE PIES WITH LIQUOR

WASHINGTON, Aug. 20.—"Mince pie parties" are likely to grow in style and popularity under a ruling by the prohibition enforcement commissioner that mince meat may be seasoned with "intoxicating liquor." This is expected to allay somewhat the fears entertained by many New England congressmen when prohibition was before congress.

The ruling of the commissioner does not restrict the percentage of alcohol to be used, but simply requires the manufacturers of mince meat to obey orders from time to time. He has been advised by chemists that property made mince pies are not intoxicating.

BIG INCREASE IN DRUNKENNESS IN ENGLAND AND WALES

ANNOUNCED

LONDON, Aug. 20.—Convictions for drunkenness in England and Wales in 1919 was nearly double the figure for 1918. The total was 57,948 as compared with 29,075, according to an official report just issued. Greater London and Northern England accounted for 33 per cent. of the total.

Among some of the reasons given for the increase are that there are more men at home and fewer of them in khaki, more policemen and those less overworked available for street duty, more hours for drinking and stronger liquor.

110 OFFICERS DISCIPLINED

BERLIN, Aug. 20.—The war office has disciplined 110 naval officers as a result of inquiry into their conduct during the Kapp revolt. Some were cashiered and others retired, suspended, transferred or subjected to other penalties.

*In Pleasant Anticipation of Your Approval, This New Store
Extends to You a Cordial Invitation to Attend*

THE OFFICIAL OPENING

SATURDAY, August 21, at 9 A. M.

An occasion which signalizes the opening of a finely appointed new Drug Store that embodies virtually every convenience which modern store designing has evolved.

The many weeks of preparation are now over. We are ready to take the greatest pride in presenting to the people of Lowell and vicinity, for their approval, GREENS DRUG STORE—a store that is the latest word in its particular sphere. The best that money and brains could buy are represented in this newest acquisition to Lowell's mercantile centre.

All well known standard advertised goods—those given the seal of approval by such authorities as "Good Housekeeping" and the "Ladies' Home Journal"—will be carried in stock constantly.

Opening Day Courtesies

With every purchase amounting to \$1.00 or over in any department, on opening day, we will present, FREE, a 25c can of Vivaudou's Violet V. or Rose V. Talcum. A delightfully perfumed powder that will suit the most fastidious taste.

With every purchase amounting to \$1.00 or over in any department, on opening day, you will receive, FREE, \$5.00 worth of MUTUAL PROFIT SHARING COUPONS, which are redeemable for standard merchandise at our Premium Department.

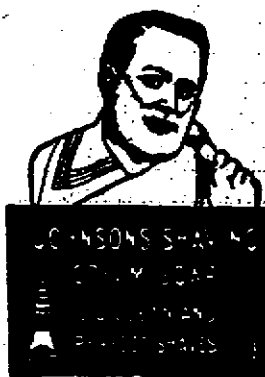

With every purchase amounting to \$1.00 or over, at our Cigar Department, on opening day, we will present, FREE, a 35c tube of Johnson's Shaving Cream Soap. This soap is recognized as the finest shaving cream on the market.

How Best to Serve the Public

is the question that will take up most of our waking hours.

We know that profit is the big by-product of good service. Good service to us means:

- Complete stocks of fresh, new goods always.
- Salespeople who know our merchandise and its application to your needs.
- A first fair price to all.

This Store Will Be Engaged

not alone in selling goods, it will be equally concerned:—

- That those goods satisfy.
- That their sure satisfaction will bring the purchasers back again and again.
- That each transaction be mutually profitable.
- That every transaction carry with it a broad flow of human interest.

— A Foreword —

Every city has its Drug Store, the store toward which the populace set their faces. It will be our aim to have the people of Lowell and vicinity visit our store convinced that buying here is SAFE, that they can depend upon our assertions as facts, not theories.

We have set our course straight ahead—unwaveringly will we follow those precepts of merchandising which concern themselves with the principle of "Patron First." We shall endeavor to CONSERVE your interests, PRESERVE your confidence, and DESERVE your patronage.

Among the Many Features

you will find the following:—

- Postage stamps on sale for your convenience.
- Delivery at all hours.
- Telephone stations ideally located.

Profit Sharing For All

Every customer will receive Mutual Profit Sharing Coupons, which, when exchanged for standard merchandise at our own Premium Department, mean a very substantial saving.

We Will Present \$5.00
Worth of
**MUTUAL PROFIT
SHARING COUPONS**

with a purchase amounting to \$1.00 or over on opening day.

MURRAH FOR POLAND!

Murrah for Poland! Murrah for Pilsudski and the French generals who are helping him to drive back the Bolsheviks, from the gates of Warsaw!

In the momentous issues involved, there is little doubt that this defeat of the Red army, if it saves Poland, may be fully as important as the first battle of the Marne. It saves not only Poland but probably all of western Europe.

It is a glorious reversal of a situation that seemed replete with indications of coming disaster. The defeat of the Reds in the moment of victory is due to the prowess of the Poles and the military genius of the French generals directing the defense of Warsaw. The counter attack launched against the Russians is said to be one of the most brilliant movements executed in any war. It shows in a striking manner the force and power of military genius such as the French generals possess.

France has come to the rescue of Poland while England holds aloof and is suspected of having an understanding with the Reds that she will not interfere in the Polish conflict if the Reds cease to move toward India. It was probably under this arrangement that the allied high commissioner at Danzig held up war munitions for Poland during the supreme hour of battle. That act alone might have given the final victory to the Bolsheviks, but fortune, let us hope, has ordained otherwise.

The stand taken by the United States on the Polish question is logical and right. It is the only ground that any honest and unselfish nation could consistently take. It is most cordially endorsed by France, and now that Warsaw is likely to be saved, there is hope that the tide has turned against the Reds and that the retreat from Warsaw is the first real blow that presages the downfall of their regime after having run through the gamut of all the worst forms of revolutionary madness.

General Wrangel in the south of Russia stands for the constitutional party; but how far he will be able to contend with the Reds is problematical unless he receives liberal aid from the allies. But England is pledged against this course while Italy takes a similar position, thus leaving to France and the United States, the responsibility for whatever aid may be forthcoming. He has already been notified by Lloyd George of England that he need not rely on any further British aid. Thus the allied powers are divided, France alone standing by Wrangel against the Reds. The United States, while not extending recognition to Wrangel's government, is in full sympathy with his cause and regards him as the chief instrument by which the Bolsheviks may be overthrown.

What the outcome of the European struggle will be cannot yet be predicted; but should Poland fall to the Reds, the result would be either recognition of the Soviet Russia by the allied nations, or war to destroy their power.

THE PRINTING INDUSTRY

When Gutenberg placed the first pieces of movable type side by side and discovered the art preservative of all arts, he would have been the most surprised man that ever trod the earth, probably, if he could have foreseen, even in a dim way, the mighty changes that he was to bring about in the world. Alexander, Caesar and Napoleon were all mighty men. They set vast armies in motion. They conquered great empires. They set up and threw down governments. Not all of their power can be found to pass on the put together, though, ever followed that the cause, there seems to be as much in changing the course of the world's life as did the father, the state of the industrial world of the printing art.

Figures have recently been made available regarding the printing trade in Massachusetts. They are of more than ordinary interest.

In the city of Boston, for instance, more than \$20,000,000 is paid every year by the public to the newspapers.

In the state as a whole there are 647 printing plants with a capital investment of \$22,000,000. They use every year raw material valued at \$14,525,000 and turn out finished products having a value of \$34,970,240. Nearly 10,000 persons

are employed in the printing establishments. Statistics are commonly dry enough reading but those quoted above are worth thinking about.

JUNIOR HIGH SCHOOL

It seems that in spite of all objections, the school board is about to introduce the junior high school system in Lowell. We suggested when the matter was under discussion before, that it would be well first to adopt the eight-year grammar course. After making that a success, if the necessary buildings were available, the board might then adopt the junior high school system with reasonable hopes of success, but apparently without either suitable buildings or other necessary preparatory steps, the board is determined to adopt the system. If we could see how it can be properly applied under present conditions, we should promptly favor it as desirable. It is to be hoped that the school board knows its ground and that the changes proposed will not be analogous to what happened when somebody brought about the adoption of vertical handwriting in the schools.

REPUBLICAN BLUSTER

Governor Cox has already got the republicans scared, and excited. They are making general charges of mismanagement and extravagance against the democratic party, but without proof in any particular instance. The fact is, the republicans haven't a leg to stand on when they charge the democratic party with incompetency. The record of the republican congress shows that the so-called "Grand Old Party" has lost its capacity for business and is now floundering like a ship without a rudder. It has failed to provide a single measure of reconstruction worthy of commendation and it is already apparent that its attempt to start our merchant marine has been a hopeless failure. The republican ticket is reactionary, the democratic stands for peace, progress and prosperity.

PASSING THE BUCK

It is noticeable that Senator Lodge, while expressing great sympathy for Poland, passes the responsibility over to President Wilson. In reply to a delegation of Poles who waited upon Secretary Colby, that official equally expressed profound sympathy for Poland, but said that very little in the line of material assistance could be done without authorization by congress. Thus it seems like a passing of the buck, although it is known that President Wilson is quietly rendering aid to Poland. Just what steps he has taken in that direction is not announced but it may assume the contribution of munitions and food, both of which are greatly needed.

MEXICO

It is announced that Mexico will probably reject conditions upon which the United States has proposed recognition of the new government. This is a matter, however, in which Mexico must meet the requirements of our government or suffer the consequences of delay. The United States demands only reasonable guarantees of the observance of established international customs and the protection of Americans within the borders of Mexico. Now that Villa and some other bandits are out of the way, the protection of foreigners may be less difficult and our relations with Mexico more harmonious.

That the big game camp at the tropical bathing beach is highly in motion. They captured great numbers of birds and mammals. They set up and threw down governments. Not all of their power can be found to pass on the put together, though, ever followed that the cause, there seems to be as much in changing the course of the world's life as did the father, the state of the industrial world of the printing art.

We expected Mr. Harriet, a prominent vice chairman of the G. O. P. national executive committee, to be with the club "With the club" but he was not. Nothing was heard of him. He didn't show up. The G. O. P. didn't look up. "Of course we did it." Governor Edwin P. Morrow

Kentucky says, "The real big issue of this campaign is that we want to get rid of the democratic administration." A shorter way of putting it would be, "we want the offices because we want them." That is about the only issue from the G. O. P. standpoint.

It is good to accord honor where honor is due. The board of assessors of the city of Lowell kept its expenditures for the month of July down to \$38. You have won the prize for helping to keep down the mounting costs of government, Messrs. Assessors, although you did allow the tax rate to mount higher.

The acting governor of the Philadelphia Federal Reserve bank says that \$3,000,000,000 is stored away in the "old-stocking banks" of the country. It is better to keep it there than have it "Ponized." But better still have it in a Massachusetts savings bank.

Professor T. S. Adams of Yale, chairman during the war of the United States treasury advisory board, expresses an opinion that is probably pretty prevalent hereabouts when he says taxes on soft drinks are "widely evaded and unequal, unfair and ridiculous."

The smoothly shaven face, represented in the pictures of the Russian soviet minister of war that are being printed in the newspapers, gives rise to the suspicion that the photographs are fakes. A whiskerless Bolshevik? Never.

The American Telephone and Telegraph company reports that "there has been a marked improvement in our service to the public, and this improvement will continue as plans now underway mature." Thank you.

Confession is sometimes good for the soul. Here is the way the republican Boston Herald owns up:

Our man-made politics are at a pretty low ebb just now, with Fred J. Burrell, the choice of the male electorate of the republican party for treasurer.

Governor Cox spoke last night before an Indiana association of democratic editors. There is a glad-hand welcome awaiting him from another little bunch of democratic editors up in this neck of the woods if he shall decide to visit it.

The Koreans, who are plotting to abduct and hold onto a party of American congressmen who are touring the Far East, show a much keener appreciation of the value of congressmen than we commonly do over here.

The ostrich, hiding its head under its wing at the approach of danger, was a wise and sensible creature compared with the governments of the allies trying to shut out the "Red" menace from their fields of vision.

We refuse to believe the story that the newly enfranchised voters intend to insist that the ballot boxes of the future shall be painted egg-shell blue and that a satin ribbon rosette shall be attached to the corner of each one of them.

It does not take much to make a hero with the Bolsheviks when they can throw up their hats and cheer for Bela Kun, one-time foreign minister of Hungary and apostle of impractical communism.

For topsy-turvy-ness take a look at Japan where labor unions are forbidden by law and the labor unions are protesting against the passage of a legislative act that will make labor unions lawful.

We are reminded of the mountain laboring and bringing forth a mouse when the widely-heralded drop in sugar prices materialized in a cut of one cent a pound.

Of course Ponzi could not have foreseen that he was destined to be the man to put a republican state treasurer out of the advertising agency business.

It begins to look as though the ultimate consumer was to be the one to push prices down even as he was the one who boosted them up.

Inherited \$3,250,000. Unto him that hath shall be given, and from him that hath not the price-beater shall take away even that which he hath.

What's the use of being a city official anyway if you have to pay for your telephone like ordinary folks? Premier Lloyd George is in Switzerland on a vacation. Possibly he may attempt to inspect the Swiss navy.

SEEN AND HEARD

My dear! Wouldn't it be simply terrible if the speaker of the Tennessee house should change his mind?

Ponzi collected more on his 50 per cent. idea than Alexander Hamilton received for putting the financial foundation under the United States of America.

Did it surprise you to read that a prohibition raid had taken place at Ponzi's home? That's just one of wealth's little drawbacks.

Experts have estimated that 20 million tons of paper pulp can be produced each year from India's bamboo and grasses. Guess we better move our newspaper plants over there or transplant some of the roots in this country.

If we began paying the farmer as much for food he produces as we do the speculator for not producing the food we want, we couldn't coax farmers' sons to city jobs.

This is a cruel reminder, but don't forget, boys and girls, that the school bells will call you in from play in another week or two.

Wonder what the 20th amendment is going to be, now that the 18th and 19th have had their share of discussion.

Just about now look for heavy crops of tanned faces and peeling arms. The exodus from the beaches has begun.

Pity the poor "pols" who can't go away for their August vacation because the state primaries are so near at hand that fences must not be left unguarded.

And the Follage, Too!

Charter commission to begin its sweeping investigation: chamber of commerce to start better street campaign; presidential election, city hall, parliament to exhaust funds. Verily, it will be an autumn worth waiting for.

Things Are Starting

A British butcher is said to employ carrier pigeons to bring in orders from outlying country districts. Now if he only modernizes his business and makes all deliveries via airplane, he may assure his customers of food unsullied by the dust of the streets and roads.

Truth

(Copyright, 1920, N.E.A.)
Thou God, in whom the great suns shine,
In whom the grass renews its youth,
Of all thy gifts, I ask as mine
This only, that I seek the Truth.
Riches and honors, fame and power,
Are pleasant dreams for some, in youth,
Yet let the scorn them in the hour
Thou givest me to find the Truth.
And though it bring me crown or cross,
Or perfumed words, or scorpion's tooth,
What'er the gain, what'er the loss,
Let me with all men share the Truth.
EDMUND VANCE COOKE.

MAN ABOUT TOWN

While some of the workmen were moving the large steel girders on the high school lot recently, they found a dead cat wedged in amongst them. The body was very much decomposed and it was evident that it had been there for some time. Some of the workmen immediately began to conjecture as to how the cat got in there under the girders, why it did so and why it couldn't get out. All kinds of theories were put forward. Perhaps the cat chased a mouse in there and couldn't turn around to come out; or it might have crawled in there and been drowned during a storm; or it might have been chased in there by a dog and died of starvation; or it might have been overcome by the heat; or it might have been frozen to death by the cold, such were the conjectures of the workmen. But speaking of cats in connection with building matters, Architect Davis informs me that when the Chalfoux building was being erected a cat ran into a sewer pipe that was open only at one end. The workmen did everything they could to entice the cat to come out but to no avail. Not even food placed at the mouth of the pipe served to bring her out. Finally, the men had to seal up the pipe and leave her in there.

Several men in such positions in this city as to be authoritatively informed about the graft dodgers' list which the government plans to give to the public within a short time, say that the Lowell list will create a furor of excitement. Whether or not the list will be given to the press is not known or whether it will be turned over the American Legion, local post, is also unknown. One man prominently connected with the local post of the legion has been talking with the government authorities in regard to the matter of putting the list in the hands of the legion for action.

The Lowell list of draft dodgers was at first quite lengthy but it is gradually being lowered by registrars who either were drafted or enlisted in other cities. It is expected that the list will be ready next week.

That subject of song and story, of benediction and malediction, the New England climate, not in one of its best examples of quick changes Wednesday and sent people scurrying into closets for overcoats who 24 hours before were sweating in even the lightest of summer clothing. After a period of oppressive humidity which began a week ago Sunday and continued without a let-up until Tuesday, the weather man suddenly took a change for the better and gave Lowell a regular fall evening. Overcoats on men were common around Merrimack square and few women passed who did not have either a coat or suit of heavy material. Piazas that only a day or two before were sought as havens of comfort were miserably uncomfortable unless one had plenty of clothing. It was a regular October evening and one instinctively looked at the trees to see if the leaves were falling. But Friday morning, undoubtedly, still has a few more days of heat to offer before the snow flies.

BLOODY WORK IN IRELAND

Soldiers Murder Innocent People Nightly and Wreck Business Places

Mild Order Against Reprisals Has Not Been Enforced by the Government

The following despatch to the New York World by its special writer gives an insight to the actual conditions in Ireland:

LONDON, Aug. 19.—Gen. Sir Nevill Maccrenny, Irish commander-in-chief, has tardily issued a perfunctory notice to the police and military fire-razers, looters and murderers, that reprisals will be punished by the severest disciplinary measures. Not in one single case has any officer, soldier or policeman yet suffered anything but protection at the hands of his superiors for acts of this kind. The Daily Mail correspondent says:

"Coercion is to be given a free hand in Ireland. Soldiers now doing police work and the military are determined to arrest all Irish Volunteer leaders they can lay their hands upon. Certain responsible military officers believe that given adequate power they can subdue the country. They do not recognize the fanatical elements in the Irish Volunteers. Men like Lord Mayor MacSwiney will cheerfully die for the cause they have espoused. "As a matter of fact, political martyrdom is the religion of young Ireland. This spells ruin and chaos. Both sides subscribe to a policy of violence. Men are being shot and property destroyed every day, both sides hiding their own complicity and condemning the activities of the other."

Military Reprisals

The correspondent then gives a long list of police and military reprisals within the last three weeks, but cannot say Maccrenny has even, by word or deed, shown his disapproval of them. Sinn Feiners regard these government reprisals as justifying their claim that a state of war exists, which indeed, cannot be denied. A typical example of military methods is afforded by the case of Mr. Higgs the most important merchant in Bantry. Recently soldiers destroyed his whole business premises and now officers of the battalion that did this have commandeered his private residence, thrown his family out on the roadside and intend making an officers' club of his house.

Allowance must be made for the military who have suffered a series of humiliating defeats, at the hands of the Volunteers, who outnumber and beat them every time there is a straight fight. The soldiers take revenge by shooting up and burning houses at night and killing Sinn Feiners in cold blood.

This week, near Thurles, soldiers raided the house of Patrick Lynch at night, searched everywhere for arms and documents and found nothing; then tearing him from his frail wife and children took Lynch outside and shot him dead, and afterward threw his body into his father's garden. These soldiers were led by an officer.

Sinn Feiners' Claim

The Sinn Feiners claim they have never harmed a single one of the hundreds of soldiers who have surrendered to them after a fight, but set them free unarmed, thus liberally interpreting the laws of war. Henry Harrison, the secretary of the Irish Dominion league, who has been striving to bring moderate opinion in Ireland into the league movement, warns the government that the reprisals on innocent people of nightly occurrence throughout south and west Ireland, are rendering his task impossible.

ENORMOUS LOSS OF LIFE CAUSED BY FLOODS

HONOLULU, Hawaiian Islands, Aug. 20.—Tremendous floods are sweeping portions of the islands of Kishu and Shikoku, southwest of Honshu, the principal island of the Japanese group, overwhelming towns and villages with an enormous loss of life reported, according to cable advices to Nippon Jiji, Japanese language newspaper.

MOTORBOAT RACES ON RIVER NEXT MONTH

The Lowell Motorboat club will conduct its annual races sometime next month, the exact date to be announced later. It was announced after a meeting of the organization last evening. The full program has not yet been arranged but, owing to the large membership of the club, it is expected that there will be more entries than ever. As in past years, the races will be held on the Merrimack river. The committee in charge is composed of Walter S. Shaw, J. Levesque, E. O. Gaudette, A. J. Page and Edward J. Barrett, Jr.

Tapestry Work

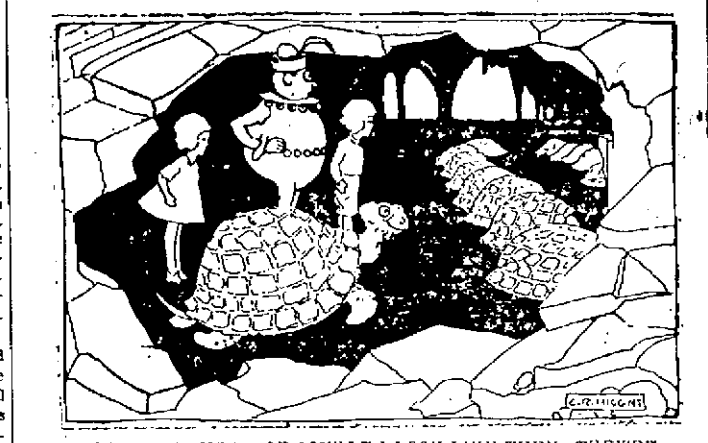

Is used in a variety of warp chair seats, foot stool covers, fire screens, etc.

ADVENTURES OF THE TWINS

by Olive Roberts Barton

MR. TURTLE'S ANCESTORS
Torty Turtle hadn't his rent money along, so Tingaling and Nancy and Nick had to go home with him to get it. "It's funny," said Nick, "for you to have another home. I thought you carried yours along with you like Slugger Snail." "I do," confided Torty, "but I have to have some place to park myself, don't I? Sort of a garage, you know. Which was a very reasonable argument. Torty's home was in a rocky cavity. Torty laughed. "Of course they do," he replied, "or rather I look like them. They're my ancestors!" Tingaling then dismounted and had a look himself. "Why, I declare, Mr. Turtle," he exclaimed, "this is most interesting. It's better than having a picture gallery of all your kith and kin, like kings do. And you never need to have any trouble about convincing people how aristocratic you are, with so many grandfathers." "Yes," Torty drew himself up proudly. "I have rather good blood in me."

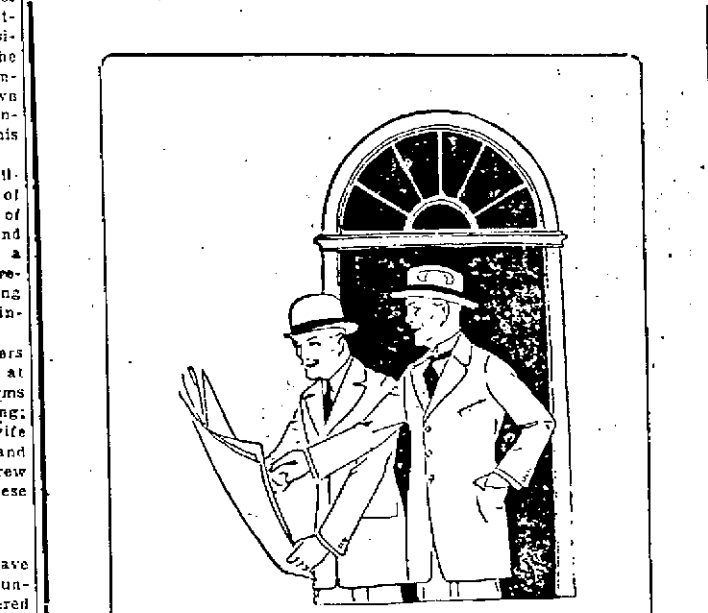

TORTY LAUGHED. "OF COURSE I LOOK LIKE THEM. THEY'RE MY ANCESTORS."

ern over the shallow water beside Nipple Creek, and he soon carried his guests there upon his back. At first it was so dim the children could see almost nothing at all, but their eyes soon became accustomed to the darkness, and they looked around curiously. "What an interesting place," cried Nancy jumping down. "I'm so glad we came!" "What are all those funny round stones?" asked Nick sliding off. "They look like you, Mr. Turtle, when you're all folded up." I can trace my people back to that tortoise who beat the hare, and I'm sure that was several hundred years ago. There he is back there at the beginning of the line. But I'll be getting my rent now, Mr. Tingaling, if you'll excuse me." So the fairyman and the twins were left alone with the shades of Torty Turtle's ancestors, each one looking for all the world like an over-turned butter-bowl. (Copyright, 1920, N.E.A.)

BURNED TO DEATH IN HAMPTON FIRE

Mrs. P. F. Swift, only daughter of Mrs. Clara B. Williams, of 119 Middlesex street, this city, was fatally burned in a fire which totally destroyed her cottage at Hampton beach last Saturday morning. Mrs. Swift died at the Newburyport hospital; funeral services were held in Haverhill, Mrs. Williams lost out in a race with death, as her daughter died before she could reach the hospital.

Only 15 persons out of every 1000 population reach the age of 60 years.

166 CENTRAL STREET

DRACUT'S NEWS OF DAY

Streets and Roads Demand Attention and Police on Trail of Hidden Stills

With employees of the Dracut street department actively engaged in repairing and renewing the roads of the town; the water department men at work on a large main in Hildreth street and the members of the police department under Chief Coff, constantly on the watch for violators of the Volstead act and meeting with considerable success, the summer season is not too dull in the town across the river. There is also the ever increasing building boom in Hildreth street.

Trying Out Fire Whistle

Dracut is provided with two fire whistles, one at the mills in Collinsville and the other at the Centre fire station. Because they are not used very often it has been the custom of the fire officials to try them out every so often, especially the one at the Centre. Last night, at the time mentioned, the whistle sounded with a voice more husky than the one heard at any of the town's biggest fires. And what is more, it fooled some of the firemen, who ran to the station pell-mell, spurred on by visions of a roaring conflagration, so piercing did the whistle seem to be in the quiet town. Fifteen minutes, sitting quietly at home at the close of the evening meal, jumped from their comfortable chairs, hardly saying adieu to members of their family and rushed out prepared for the worst. After all thoughts of a fire were dispelled it was said that someone had tested the alarm, or else it went off accidentally. During all this the chief of the department sat undisturbed at home because the bell in his house didn't ring.

Hildreth Street Work

If the labor supply does not improve immediately the laying of the water main in Hildreth street will not be completed within the specified time of one month. Ground was broken on the job early this week and already the men have put down 2400 feet of pipe at an estimated cost of \$1 per foot. Help shortage at present is threatening to delay the work, however. This main will connect with the large number of new houses being erected in that section and with the Dracut slaughter house which heretofore has not been so supplied.

One remarkable feature about the

Hildreth street home building is that many of the structures are built for only temporary purposes, undoubtedly due to the high cost of building materials. The building boom has been going on at full stride for the last year, so that in reality a new colony has arisen in Dracut.

Street Work

As soon as present roadwork on Pinrose Hill and patching in Lakeview avenue is completed the construction of the new road to Lakeview will be resumed, the town, county and state having appropriated sufficient funds to warrant a continuance of the work. Work on cutting down the steep incline on Pinrose Hill, which has been a constant danger to traffic in that section, will be completed next week at an estimated cost of \$1000. Upon completion, the road will be of a much lower per cent grade and will be made of dirt.

The repairing of the main road to Lakeview

the Pelham line was completed last week and today, Supt. Henry Parker started a gang of men to work patching up holes in the Lakeview avenue road.

Activities of Police

Capt. Coffin have been keeping close watch for "moonshiners" and they have been of great assistance to the federal officers who have made a number of visits to the town. Recently, in company with federal officers the town police brought about the arrest of Foster for violation of the Volstead act and seized a still and 10 gallons of whiskey on his premises. Foster is now awaiting trial before Commissioner Hayes in Boston.

On the same morning they arrested Manuel Sousa on a similar charge. They found Sousa in Bridge street near the Pelham line, driving a wagon in which was found a jug of "moonshine." After arresting Sousa they

later raided his property just over the New Hampshire line and seized a still, two barrels of mash and a few barrels of molasses. The federal officers accompanied them into New Hampshire.

Miscellaneous News

The Dracut Centre church will be closed for the next two Sundays, this month having been given as a vacation period to the pastor, Rev. A. G. Jenkinson. During the first two Sundays of this month the pulpit was supplied by Rev. Mr. Robinson of the Hillieria Congregational church. The church will reopen with a grand rally day on September 5.

Mrs. Frances and Roberto Smith have just returned from a two weeks' vacation in New Hampshire.

Mr. Frank Huntey and wife are spending their vacation at Rock pond, N. H., and Mr. and Mrs. Clinton Coffin and son are also at the same resort. A daughter has been born to Mrs. Ray Leroy.

FIVE FIREMEN INJURED ON WAY TO FIRE

BOSTON, Aug. 20.—Five Cambridge firemen attached to Engine 5 were injured yesterday when the piece of apparatus responding to a general alarm, sounded for a blaze at the American Fire Prevention Products company on Albro street, "side-swiped" a Harvard square bound car in front of Cambridge city hall.

The injured are:

Capt. Herman Gutheim, 29 Bigelow street; arms bruised.

Lieut. William Reilly, 40 Maple st.; bruises of head and right elbow.

Fireman William Johnson, 11 Springfield street; sprained wrist.

Fireman Harry Finley, 248 Prospect street; sprained wrist.

Driver Hugh Powers, 274 Putnam st.; bruises of arm.

Only quick action by Driver Hugh Powers prevented the truck crushing squarely into the car and injuring passengers. Seeing that a collision was unavoidable, he quickly swung the big piece of apparatus so that it struck the trolley at any angle, sending the truck up onto the sidewalk. It was sent to the repair shop for a week.

Captain Gutheim was thrown from the seat and against the car when Driver Powers swung the truck to prevent it from bolting through the middle of the trolley. Firemen Johnson and Finley were also thrown to the ground, but Lieut. Reilly hung on until the great piece of apparatus climbed up on the sidewalk. Then he slipped off the back.

The fire, the cause of which is unknown, was discovered by William Powers, who was nearly overcome by smoke as it belched forth from the workshop. Frank J. Lohan and Martin B. Dowd, owners of the establishment, rushed to his aid.

The blaze had gained such a headway that it was impossible for any of them to reach the fire extinguishers. Before the apparatus reached the scene the roof of the brick structure caved in. A rumbling accompanied it that sounded much like an explosion, giving rise to a report that contents of the building had exploded.

The United States public health service estimates there is one rat to each person in the country.

70 BURIED ALIVE WHEN MOUNTAIN COLLAPSED

MANILA, Aug. 20.—Collapse of a mountain top on this island in a recent storm buried an entire Igorotte village under hundreds of feet of earth, killing 70 natives, according to official figures received here yesterday. The village was located in the mountain province within 200 miles of Manila.

The top slid down upon the village at midnight. No bodies have been recovered.

LOCAL A. O. H. MEMBERS TO HOLD GALA DAY

The local Hibernian divisions will hold a gala day at Revere beach Sunday, September 5. A number of trucks have been secured to transport members and the A. O. H. drum corps has been engaged for the day.

The building campaign committee of the A. O. H. building corporation met last evening in Urban hall, Middle street, and received optimistic reports from team captains and workers on the progress of the drive for a new building. Several shares of stock were sold during the evening.

TO VOTE AT 101

Miss Annie Stone Registers at Boston

BOSTON, Aug. 20.—Miss Annie Stone at the age of 101, does not intend to allow the new day for women to pass without having her say. Registrar of voters today entered on the city's voting list the name of Miss Stone the centenarian having hastened to make herself eligible to vote with receipt of word of the action on suffrage in Tennessee.

At the Home for Aged Men and Women, where she is an inmate, Miss Stone expressed a lively interest in the national campaign. She is in good health and up to three years ago, was active as a writer of poems and prose. Physically she says she has suffered little impairment, and she walks up and down stairs, disdaining the use of the elevator. She was born in Bangor, Maine.

APPROVE RAISE

IN R. R. TICKETS

BOSTON, Aug. 20.—Approval of the 20 per cent. increase in passenger fares on the New Haven, Boston & Maine and Boston & Albany railroads, which are to go into effect next week Thursday, Aug. 25, was announced by the state department of public utilities yesterday.

This includes the 12-rail, 80-rail and other forms of commutation tickets, all of which will be 20 per cent. higher in price in fulfillment of the decision of the interstate commerce commission allowing such an increase in the country's passenger rates.

FINAL REHEARSAL

COMES TONIGHT

The final rehearsal for the concert to be given by the Mathew Temperance Institute musical troupe at Lakeview theatre next Sunday evening takes place in Mathew hall tonight, and it is necessary for every principal and member of the chorus to be on hand to receive important instructions from Director Clarke.

The prospects are excellent for an unusually good performance Sunday. The soloists have their numbers well in hand, the character singers are performing in their best manner, the end-men have prepared an endless stream of jokes and comedy which will flow freely throughout the concert, and the chorus is fully capable of taking care of its share of the work.

WIFE FORGIVES

RETURNED HERO

CHICOPEE, Aug. 20.—More than two years ago, Frank Wismoski of Exchange street disappeared from home without warning, and his wife went to the clerk of the court and secured a warrant for his arrest on a charge of abandonment. Time went on, and he could not be found, so the warrant had a thick coating of dust when the policeman on the Exchange street beat saw the man at his home Wednesday night.

When discovered he was being honored as a hero by his friends, but the party was broken up by the serving of the warrant. His wife appeared in court yesterday morning, and explained that he had been in the service, and so she would not prosecute and he agreed not to be mad at his spouse for swearing out the warrant.

Banish the Old Broom

For the Efficient ROYAL ELECTRIC CLEANER

Up-to-date housewives everywhere are fast substituting the efficient, easily operated ROYAL Electric Cleaner for the old, dust-scattered, rug destroying broom. The result is—

1. Homes are thoroughly clean.
2. Housework is minimized.
3. Carpets wear longer.
4. The health of the family is protected.

Come in and see the new 1920 model, fully guaranteed ROYAL, and learn how easily it will be for you to purchase one for your home on our convenient payment plan.

PLENTY OF PHOSPHORUS FOR SUMMER

Energetic and Successful Prominent N. Y. Physician.

Physicians' "Who's Who," and a nationally known author of medical textbooks, in a most emphatic statement said:

"If I had my way, Bitro-Phosphate should be prescribed by every doctor and used in every hospital."

Later Dr. Koelle said: "When the nerve tissue begins to lose its vitality, a woman begins to lose her youth and vivaciousness. Her lively, pleasant disposition fades away—she becomes irritable, uncompanionable, moodily independent. It would indeed be a Godsend if more men and women were aware of the efficacy of Bitro-Phosphate."

Hot weather is dreaded by men and women who are weak, thin, nervous, timid and lacking in vigorous development because it saps their vitality almost to the breaking point.

To all such people Bitro-Phosphate is recommended because it is the organic phosphate which, when absorbed by the system, will supply the element necessary for a vigorous, healthy body free from any suggestion of weakness or disordered nerves.

Your druggist has Bitro-Phosphate in the original package with complete instructions for best results—

relief

dyspepsia, and biliousness, needs no less, so-called "cures" that are offered. In vain, these various preparations have left the system weaker than before. Bitro-Phosphate brings quick relief without after-effects. Instead of a further expense of weakening some defective apparatus, tones the system to a healthy condition. Taken after which will result, will prevent an attack.

Perfect safety to every member of the family health-restorer for 50¢. You can buy a large bottle of Bitro-Phosphate for 50 cents.

10¢ A DOSE

O'DOWD-ROBSON BOUT AT LAWRENCE TOMORROW

LAWRENCE, Aug. 20.—Fistic fans of the east are in for the greatest treat in years tomorrow afternoon in Cuddy Brothers' arena when Mike O'Dowd and Tommy Robson, foremost middleweights, will meet in a 15-round bout. No other bout in recent years has attracted the attention that this bout has, and a record crowd of fans is expected to witness the tilt. There will be a preliminary card including three eight round bouts which will start at 2:30 o'clock. Popular prices will prevail.

O'Dowd arrived in Lawrence Thursday morning with his manager, Paddy Mullins and the St. Paul fighter is in the pink of condition. Robson will finish his training at Martin's pond today and will arrive in Lawrence late tonight. Both boxers are confident of winning and as a win means a match with Champion Johnny Wilson, the bout is certain to be a bumper. Matchmaker Johnny Cuddy has arranged the following splendid preliminary program: Smiling Kid Nolan of Old Orchard will meet Battling McGreaves of Boston, Mike Castle of Lawrence will mix it with Frankie Ryan of Everett and Girard Grillo of Lawrence will meet Frank Mullins of Lowell.

GOLF TOURNAMENT

CHICAGO, Aug. 20.—The semi-finals of the Professional Golfers' association third annual tournament were reached with today's pairings of two southerners, one easterner and one westerner out of the original field of 32.

George McLean of Great Neck, N. Y., met J. Douglas Edgar, Atlanta, Ga., in the upper bracket. Harry Hampton of Richmond, Va., opposed Jack Hutchison, Chicago, in the lower bracket.

CARPENTIER TO BOX BAT LEVINSKY ON OCT. 12

NEW YORK, Aug. 20.—The International Sporting club yesterday announced the signing of a contract for a 15-round decision bout between Georges Carpentier, European champion, and Battling Levinsky, world light-heavyweight champion, to be staged at Ebbets Field, Brooklyn, Oct. 12.

The agreement, which was concluded secretly several days ago, was signed by Jack Curley, the boxing promoter, acting for Carpentier, and Dan Morgan, acting for Levinsky. Officials of the International Sporting club said yesterday that they were offered the Carpentier-Levinsky fight in preference to a proposed meeting between world's champion Jack Dempsey and "Knockout" Bill Brennan, who recently signed to fight at some undetermined date. A questionnaire, sent to the club's membership, showed returns favoring the appearance of the Frenchman by a majority of approximately 5 to 1.

Ebbets Field, where the contest is to take place, has a normal seating capacity of 20,000, but the promoters declare that arrangements are being made to seat 30,000 for the exhibition.

A tentative date of July 26 agreed on several months ago by the backers of the Carpentier-Levinsky meetings, was abandoned because the New York state boxing commission was not appointed in time for the necessary arrangements to be completed.

HERMAN BEATS RAY MOORE

COLORADO SPRINGS, Colo., Aug. 20.—Pete Herman, champion bantamweight of the world, last night out-fought Roy Moore of Baltimore in a 10-round no decision bout, according to newspapermen.

FITZ DEFEATS ROACH TODAY'S OLYMPIC CARD

Australian Scores K. O. in Fifth Round of Classy Bout
 —Burke, Beats Thomas

"Fighting" Ned Fitzgerald of Australia, who introduced himself to the fans on this side of the water at Montreal, a few weeks ago, by knocking out Georges Papin in the fifth round, scored his second fifth round knockout last night when he stopped Lighter Roach, the Chicagoan light-heavyweight, before the members of the Crescent A.A.

The knockout came like a bolt out of the clear sky, for up until the fatal blow, fans figured that Roach would eventually come through a winner. But Roach made a mistake of underestimating his opponent. He seemed confident that he could win and took too many chances with the aggressive Australian.

Roach is an artistic boxer and he snaps over blows with remarkable accuracy and rapidity. He has a long reach and many times held off the Australian, who was a much more powerful one, two blows, Roach was deliberate and measured his man every time before he let go. In the very first round Roach sent in a force right to Fitz's mid section, but the Australian apparently no effect on the fighting. But while Roach was popping Fitz, the latter kept up a steady and effective battle. He never backed away and when he got in under Roach's guard, continued to hammer away with both hands, until the referee intervened.

For 4 rounds the bout went on at a fast clip, with both boys showing high class work. They are well matched and kept busy every second. Being of the opposite type, the fans were afforded a peachy exhibition.

All felt that with the way the boys were hitting, a knockout was inevitable. Roach hit straight, while Fitz used more of a swinging blow, but every one that connected had a kick in it.

With the opening of the fifth both went to the center and began swapping punches. Fitz poked over a heavy clout to the jaw and Roach sagged. He followed with one over the eye, and seeing his man wobble, opened up a fierce shower of blows. Roach's only chance was to go down and take a count, but he was apparently too far gone to think. With Fitz continuing a rapid fire of blows, one of Roach's seconds wildly roared in the crowd.

After the bout Roach, heartbroken over what he said was the first knockout of his career, admitted that he held his opponent too cheaply, and said he would like to fight him again. Fitz, for another battle between the pair, would prove a big attraction.

The semi-final bout between Kid Thomas and Barney Burke, both of Lawrence, proved a bumper all the way. It went the distance to a decision for Burke.

Young Murphy won from Young Carroll in the first round in the opening event on the program. In the second Young Brit dropped in the first round in his bout with Young Kansas of Lawrence. Referee Gardner refused to count and the event was over. As a result of this fluster an extra prize was put on with Ray Nelson, the principals. It was a rapid fire event, going the limit with Nelson being awarded the verdict.

It was announced that Jimmy Duffy of New York will meet Jim Coffey of Bridgeport in the main event next Thursday night.

WEST ENDS PUSH K. OF C. INTO LAST PLACE

The Gas Light West Ends sent the Knights of Columbus tumbling into last place in the Twilight league and last evening when they defeated Manager Foy's outfit, 5 to 1, before a large crowd on the South common.

Two big innings, totaling a total of seven runs, spelled the Knights' downfall and the ascent of the West Ends to third place in the league standings.

Scotly was on the mound for the Knights at the start and lasted until the fifth when an avalanche of hits sent him to the outfield and brought in bats to finish the game. The latter allowed five hits in the two innings he pitched. Mulno tried for the West Ends and pitched a steady game. Both teams played errorless ball.

The winners scored their first runs in the fourth when Allen singled, stole second and took third on E. Connors' scratch hit. McPherson's double brought in both runners.

In the fifth the West Ends got five more. After Singling Farrell came through on Allen's homer to center. E. Connors walked and scored on McPherson's triple. Bradbury and Mulno each got a double. H. Connors walked and Manning and Farrell came through with singles.

The Knights got one in their half of the fifth when Daly got on, stole second and came home on Connors' single to left. The West Ends got their final tally in the sixth on a series of bunched hits. The score:

WEST ENDS

NEW HAVEN, Aug. 20.—"Chief" Bender pitched a no-hit-no-run game against Bridgeport here yesterday. New Haven defeated the visitors, 3 to 0. Only 27 men faced the former Athlete pitcher. Left Fielder Brackett was the only Bridgeport player to get on base and he was put out stealing.

HARRY GREB TO TRAIN WITH CHAMP
 BENTON HARBOR, Mich., Aug. 20.—Champion Jack Dempsey, lengthened his training program today for his labor day bout with Billy Miske of St. Paul, Minn., by including five miles of road work, the punching bag, rope skipping, shadow boxing and other gymnasium work.

Harry Greb of Pittsburgh, will join the Dempsey camp after his bout with Chuck Wiggins at Kalamazoo tonight.

DIES AS RUTH
 HITS 43RD HOMER
 NEW YORK, Aug. 20.—When Babe Ruth made his 43rd homer last night, he was the only player to hit a home run in the season against Cleveland yesterday. Theodore Larkin, a fan, suffered an attack of heart disease and died a few minutes after he was carried from the grandstand.

JOE RAY DEFEATED BY BRITISH STARS

ANTWERP, Aug. 20.—(By the Associated Press).—English runners yesterday dethroned the American star mile runner, Joe W. Ray, of the Illinois A.C., in the 1500 metres race of the Olympic games. It was the second most sensational foot race of the seventh Olympiad, being just a little short of the thrills of the running of the 400 metres race on Tuesday.

All the track and deck competitions yesterday were held in the rain, which varied from a drizzle to a downpour and gave the English athletes something of a home-like atmosphere. They scored impressively two firsts, a second and a sixth place for a point score total of 16, just one less than the Americans, who won one first, two thirds and one fifth for 15 points.

The big upset of the day came in the complete eclipse of Ray by A. G. Hill and J. J. Baker, both Englishmen. While a few of the experts and trainers had expected that Ray would have difficulty with the high class field, a majority of the Americans supposed him to be invincible and wagered on him accordingly. Had the adherents of the Englishmen been more plentiful they could have made what is known in sporting parlance as a "killing" in the betting.

The calibre of the runners was demonstrated by the time of the winner—four minutes, 14.5 seconds—on a slow rain soaked track. This time was only six seconds more than the world's record.

Ray, who finished in eighth place was censured after the race by some of the athletic authorities for tactics against the classy field. They maintained that instead of trying to set the pace from the start Ray should have reserved his energy for a fast sprint near the end. Whether this would have proved successful against such men as Hill and Baker is uncertain, but as it was Ray proved unable to pace the field for the first half of the journey and jump it in the second half, for he faded away when the test came, finishing among the also rans.

M. J. Shields of the Meadowbrook club, Philadelphia, who finished third, J. J. Connelly of the Boston A.A. and the other Americans ran back with the field most of the way. Connelly's effort to come up after Ray faded away proved killing. In view of the hot pace, and he was forced to quit. Shields, who had run well back, came fast at the finish and was fast overhauling the two tired Englishmen at the tape. It was one of the best races the American spectators had witnessed for years, although it lacked the sensational features of the 400-metre event of Tuesday, when Hill defeated Earl Eby and B. G. D. Rudd.

GREENHALL TEAM WON
 The Greenhalles basketball team beat the North common team yesterday afternoon by a score of 3 to 1. The North common team only got one hit in the game. This game puts the Greenhalles team in the lead.

CRASH ALWAYS COMES

Ponzi Case Just One More to Add to Already Imposing Array

BY EDWIN D. RIDER
N.E.A. Staff Correspondent
BOSTON, Aug. 20.—The crash always comes!

The Ponzi case is just one more proof to add to the long list of famous get-rich-quick schemes that have invariably blown up with a loud echo.

"50 Per Cent Miller" spent several years in Sing Sing in financial retro-spection.

Now Charles Ponzi, the "money wizard" of Boston, is behind the bars. This crash of his "50 per cent in 45 days" scheme found him, government agents allege, with notes totalling \$7,000,000 outstanding and possibly \$2,000,000 in assets.

But Ponzi and Miller are only "little bubbles."

Exactly 200 years ago a bubble burst that was a bubble! It was the "Mississippi bubble"—probably the most famous get-rich-quick scheme in all history. Its founder was John Law.

What "Bubble" Did

Here are just a few of the results of the "Mississippi bubble":

It almost precipitated a revolution in France against the regent, the Duke of Orleans.

It made thousands in France beggars.

It closed the French national bank.

It resulted in the colonization of the present state of Louisiana and the founding of New Orleans and Mobile.

One difference between Ponzi and Law is this: Ponzi, an ex-convict, and ex-dishwasher, tried to dabble in foreign exchange—something not one person in a thousand understands.

John Law, however, was known as a celebrated financier long before he started his Mississippi scheme.

It was because of his recognized ability in mathematics, finance and speculation that he was able to get the ear of the Duke of Orleans, then regent of France.

His Plan Adopted

In 1715, Law, a man of 44, settled in Paris and opened a private bank. Its success was tremendous. Soon, due to pressure on the exchequer, the regent was persuaded to adopt Law's plan of a national bank. The bank was formed and issued a huge sum of notes, which for a time commanded perfect credit. Meanwhile the old national bonds remained at a price far below normal.

With French finances nearing the rocks, Law conceived the idea of exploiting America—the lands around the mouth of the Mississippi, which he claimed were "as rich in minerals as Peru and Mexico," and which would soon yield tremendous profits to the French.

Shores Gobbled Up

Accordingly, the Compagnie d'Océan was formed, with the exclusive right to exploit the region around the lower Mississippi for 25 years. The concern started with a capital of about \$20,000,000.

Two hundred thousand shares were placed on the market and were eagerly bought. A great wave of speculative mania swept France. The price

of the shares rose soon to 20 times the original value. Fifty thousand additional shares were placed on the market—but there were more than 300,000 applicants!

The company, which also had the right of coining money in the colony of Louisiana, changed its name in 1718 to Banque Royale, and the regent guaranteed the notes. The next year it obtained a monopoly of trading to the East Indies, China and the South Seas.

Frantic Finance

The alluring vista now opened to the French was irresistible.

Public enthusiasm reached the point of frenzy.

Meanwhile 624,000 shares had been issued and the price early in 1720 of a share was about 80 times the value of the original!

They were blowing bubbles in Paris. Thousands rushed to the city from other countries. Trade boomed. Money was everywhere—except gold, for many persons had become suspicious and had started exchanging their paper for gold and shipping it out of the country.

Then—

In America—Law's colonizers didn't find gold and rich minerals in the lands around the mouth of the Mississippi. They found Indians, the Spaniards in Texas, swamps and a mighty river. They founded the present cities of New Orleans and Mobile.

Then—the Crash

The growing scarcity of gold and silver soon became felt in Paris and a general run was started on the national bank, which, in 1719 had been merged with the Banque Royale, and was now called the Compagnie des Indes.

In May, 1720, the government issued a decree which cut the value of the shares in half. This hurried the trouble. Law, who was now controller general of finances, made frantic efforts to avert the crash.

The bubble burst in July, 1720. The bank stopped payment. Law fled the country. Upwards of 100,000 people in France had become beggars.

The ruined people threatened to overthrow the regency.

Law lived the rest of his life in Venice, gambling. He died a pauper there in March, 1723.

BOSTON SCHOONER

YACHT ASHORE

SOUTHWEST HARBOR, N. H., Aug. 20.—The schooner yacht reported ashore last night 10 miles northeast of Cranberry Isles coast guard station was the Gamsalson owned at Boston. Her identity was established today upon the return of the boat sent from the station.

The yacht while bound to Bar Harbor with her owner aboard struck on Hallett ledge, near Winter Harbor, at high tide. The boat the early today did not prove high enough to float her, but when the guardians returned to Cranberry Isles, a steamer was standing by with the intention of pulling her free of the ledges at high tide late this afternoon.

The yacht's bow was fast, though it was not thought it had been punctured.

Tellier Beaten

Continued

Clarence Hackney of Atlantic City, 4 and 3.

The other semi-finalists are George McLean of Great Neck, who will meet J. Douglas Edgar of Atlanta. McLean at one time yesterday looked hopelessly beaten, but he came back in the home stretch and trimmed Peter O'Hara of Shuckamaxon, 1 up, in 32 holes.

Edgar, another sterling player, disposed of Bob MacDonald of Bob o' Link, 5 and 4, after Bob had rested on 1 down at the lunch interval. It looks like Edgar and Hutchinson or Hampton in the deciding contest.

Hutchinson, in the forenoon round

McLean's comeback was exceptional.

At the end of the 25th hole he was 5 down to Peter O'Hara. McLean staged a great rally, however, cleared matters at the home green and won at the 35th. His comeback flash was evidenced by a card of 33 on the last nine holes, five under par.

Hampton's defeat of Hackney was not unexpected, but few of the crowd believed he would win by such a liberal margin. Hackney appeared tired toward the finish. The summary: George McLean, Great Neck, beat Peter O'Hara, Shuckamaxon, 1 up in 35 holes.

J. Douglas Edgar, Atlanta, beat Bob MacDonald, Bob o' Link, 5 and 4.

Harry Hampton, Richmond, Va., beat Clarence Hackney, Atlantic City, 4 and 3.

Jack Hutchinson, Glen View, beat Louis Tellier, Boston, 5 and 3.

CHARGED WITH MURDER OF HER INFANT

NEWARK, N. J., Aug. 20.—Charged for the second time within three years of having murdered her new born infant, Mrs. Joseph Ehrlinger, 26 years old, today awaited action by a grand jury which will determine whether she is to go on trial for infanticide. Mrs. Ehrlinger was arrested yesterday after a search which began last Monday when police were informed she had strangled her infant daughter and disappeared after wrapping the body in a newspaper.

AMUSEMENT NOTES

By Theatres' Own Press Agents

M. F. KEITH'S THEATRE

Whirlwind finishes that really takes an audience are the kind Agnes Flay and Charles Hill provide at the M. F. Keith theatre this week, in "Yodvil a la Mode." The act has snatches from many things which have gone before, all compressed into a high-pressure performance. Ed. E. Ford, the Australian physiognomist, will excite much wonderment. His facial contortions are far different from any others made on the stage. And they interest. The best Irish sketch in many years is "A Friendly Gull," played by Charles Muck & Co., while "Seven A.M." with Billy Fawcley and Edna Louise playing it is a very lively concoction. The remainder of the bill is good, including the Jack Hughes Duo in instrumental music, story and a Clark in "Songs" and Kennedy and Nelson, bumping gymnasts.

THE STRAND

"Crooked Streets," the absorbing story of the orient in which Ethel Clayton is being starred at the Merrimack Square theatre today and tomorrow.

OWLE THEATRE

Wilfred Lytell, brother of the famous Bert, has one of the leading parts in "The Harvest Moon," in which Doris Kenyon is appearing at the Owl theatre during this last half of the week. The play itself is by Augustus Thomas, dean of American playwrights, and is an epic of romance, one of the sweetest, clearest love stories ever told. J. Warren Kerrigan shares the honors on this big double bill in his latest picture, "Number 99." It is a play of impersonation, Kerry breaking his only youth's secret to live, though among his former friends. A Franklyn Farnum picture, an episode of "The Hawk's Trail," and shorter films complete this fine bill.

LAKEVIEW PARK

The Lakeview habit is one that pays good dividends—in health and pleasant recollections. It's easy to indulge in.

NEW WAY TO CURL HAIR

Fine for Outdoor Girl

The silmerline method of curling the hair is the proper thing before going bathing, boating or golfing, or indulging in any outdoor sport or exercise. This will not only give the hair the most beautiful wavy and curly appearance imaginable, but will not take the curl out. The curliness is quickly acquired and lasts much longer than where waving tongs are used. Besides, the hair will be bright and lustrous. Instead of dull and dead looking. When combed out it will be as nice and fluffy as if it had just been shampooed.

Just get a bottle of liquid silmerline at any drug or department store, follow the accompanying directions, and you will be simply delighted with the result. This product is of course perfectly harmless and there is nothing sticky, greasy or unpleasant about it. —Adv.

YANKIES IN ANTWERP

Running and Jumping Olympians Turn Sleeping Quarters Into "Madhouse"

BY J. H. DUCKWORTH
N.E.A. Staff Correspondent
(Special Cable)

ANTWERP, Aug. 20.—"Madhouse" is the nickname by which head-quarters here is known to the American Olympic team. Head Coach Jack Mackley stood sponsor at the christening. Pandemonium describes the conditions under which the Yankees contend.

Healthy young athletes are as mischievous as a lot of bull-pups and as hard to manage as a bunch of stampeded mules. Mackley knows.

"Quare Town"

Pat Ryan says: "Every day is like New Year's in that quare town." This is the daily program for the boys. Up at 7; cold shower and breakfast at 8.

The Americans have their own chefs. They fry eggs and grill steaks just as they like them.

Chow is taken in the gymnasium, the mess going to mess in three batches.

Like the Army

At 10 o'clock U. S. army trucks take the lads who are to compete that day to the stadium and the rest to the practice grounds.

Boxers and wrestlers spend the morning with boxing gloves, throwing

The medicine ball, skipping rope, or on

the mat in the picturesque stone-paved quadrangle.

Dinner is served at 2 p. m., after which the boys are allowed to stroll around town, but must be in bed, with lights out, at 10 o'clock. This may sound like a simple life, but it is not.

Peace-Makers

Lawson Robertson and Paul Pilgrin have to pacify the obstinate and temperamental belligerents.

The wrestlers kick that there are not enough tables for rubbers. They send out a raiding party to get the necessary paraphernalia. Then up goes a comic howl from the cross-country

squad that the Olympic committee is

not looking after their interests properly and that the French, the Australians, or somebody else is trying to put something over on them.

Keep Gun Busy

Then Gustavus Kirby has to straighten out all this.

Some men develop extraordinary capriciousness and dainty appetites. They refuse the schoolhouse eats and insist

on being taken to the Grand hotel for

chicken and asparagus tops.

The rest of the athletes hear of this and start a strike.

But the real trouble starts in the evening. About 10:30 the coaches and trainers have roll-call. Some of the men are missing. Patrols are sent out on the Avenue de Keyser to hunt them up.

Cracked Streets

Late comers complain that they got lost. "It's worse than Frisco," says Morris Kirby. "You can't keep on the same street for as soon as you're out of one you are into another."

Suddenly there is a frightful racket heard up on the third floor. Up rushes Secretary Ruben of the A.A.U. to find the middle-distance men having a terrific pillow fight with the marathons. Silence is finally restored, but not for a long time.

Crash! Crash!

Crash follows crash outside, on the pavement below. Somebody has thrown the water jug out the window, at the passing of a parade. The men commence to dance down into Judge Weeks' den in pajamas to complain that they can't get to sleep.

Then Coach Mackley and Pilgrin go

upstairs and count noses. They find the empty cots have been stuffed with the absentees' clothing. Out goes the lights and up go shouts of "Don't give your right names, boys," and the supreme council holds a midnight confab.

Right Spirit

Coach Robertson is a psychologist and has the right idea. He says he's glad the boys feel that way. It shows their spirits are good, he says.

The meeting adjourns. Somewhere around 1 o'clock there is loud banging at the front door. Somebody seems to be pulling down the building. So it is only Pat McGrath and Faddy McDonald coming home.

These big fellows are a law unto

themselves. Late hours can't hurt them.

Hard Coal to go up \$2 Ton

Continued

\$1.65 a gross ton. Under the new tariff the charge will be \$1.47 a ton. This is an increase of 42 cents a ton.

This city, however, will not be greatly affected by the increase in the rates from Boston. It is the lift in charges for transportation by rail of coal from the mines that will make itself in the new price schedules of the dealers.

Hates from Mines

The cost of transporting a gross ton of coal from the mines to Lowell at the present time is from \$1 to \$1.50 a ton. A 40 per cent. increase will represent \$1.65 to \$1.90. This increase, the dealers say, they will have to tack onto the prices that they are now charging unless they are to transact business at a loss.

For good measure, it is generally believed, the dealers will add an even \$2 to their charges. Some of the coal men say that they are justified in absorbing the extra 20 cents because of the costs of transacting business, and that whether or not freight rates had been advanced they would have be-

compelled to advance charges to some

extent if they were to remain in business.

The prices of the most used sizes of coal as they are at present and as they are likely to be after the prospective advance has been made are as follows:

No. 2 nut Present \$17.50
Egg \$17.50
Stove and nut \$19.50

Outlook Is Brighter

The outlook for a sufficient supply of household coal to carry the people of the city through the winter is a little brighter than it has been earlier in the summer. W. A. Staples, manager of the Lowell Terminal company, wholesale distributors of coal, informed Traffic Manager Whitcomb during a conference in Boston yesterday, that the company has a satisfactory supply of coal at the mines, and that it will be able to do its share toward keeping the fuel bins of Lowell filled if the railroads continue to hustle the commodity over the iron as they have lately been doing. Up to August 15 the Terminal company had received 2055 tons, which is approximately the normal quantity that the concern has received in past years.

Other coal dealers, however, report that they are not in such a fortunate condition as regards supplies as the Terminal company appears to be. They say that coal is hard to get in sufficient quantities to meet the needs of their customers, and that the commodity is arriving in the city only in dribbles.

Skirocketing Prices

Prices for bituminous coal show no signs of halting the skirocketing career on which they started quite awhile ago.

Soft coal is being delivered to consumers of less than carload lots in Lowell today at a cost of \$19.50 per ton.

The price at the mines on coal

selling at this price is \$13.25 a ton. To this must be added \$1.12 a ton for freight from the mines, and \$2.10 to cover the costs of delivery, carrying and overcharges of the local dealer. Under the new rate schedules of the railroads the freight rates will be advanced \$1.65 a ton. If the dealers follow the same ruling in adding to bituminous charges that they are said to be planning to follow in the case of hard coal, the price of bituminous fuel in this city some time shortly after August 26 will be \$21.50 per ton. The cost of bituminous fuel to the mills that order in carload lots will be approximately \$19.50 a ton.

Other Freight Charges

Traffic Manager Whitcomb received today the revised freight rates between Boston and Lowell that are to become effective Aug. 26. They call for an increase of about 12 cents per 100 pounds.

Higher freight charges are not to

be the only addition that is to be made to the expenditure of Lowell people August 26. On the same date the new passenger tariffs become effective.

Under the present schedule the

present rate for a single trip ticket between Boston and Lowell is 53 cents. Under the new tariff the charge will be \$1. The price includes the 50 per cent. war tax in both instances. Sixty-five tickets between Boston and Lowell, good for use within 30 days of the date of purchase, are to be raised in price after next Thursday from \$10.50 to \$12.65, including war tax. Tickets purchased previous to August 26 may be used without an additional charge.

The traffic department of the chambers of commerce is in receipt of information that the proposed drastic

emergency measure providing a penalty of \$10 per day (in addition to regular freight and demurrage charges) for each day's delay after the first 48 hours, on all open top cars and on all other cars containing coal and coke, which was to be put into effect on August 19th, and continue in effect until January 1, 1921, has been suspended by the Interstate Commerce commission.

The present demurrage charges are \$2 per car for the first four days and \$5 a car day thereafter, charges to commence 48 hours after arrival of car at destination.

NICHOLSON TO DESIGN CANADA'S CHALLENGER

MONTREAL, Aug. 20.—Charles E. Nicholson, designer of Sir Thomas Lipton's Shamrock IV, has accepted a commission to design the Maple Leaf, proposed as Canada's challenger for the America's cup by A. C. Ross, promoter of the Maple Leaf challenger, Mr. Ross announced today.

Nicholson is said to have stipulated that the preliminary work of building the yacht shall be carried on in England. He then proposed to complete the construction of the challenger in Canada.

DEATHS

BRADY—Mrs. Mary M. Brady died yesterday at the home of her sister, Miss Sabra Wright, 122 Pawtucket street, aged 59 years and 2 months. She is survived by three sisters, Miss Sabra Wright, Mrs. Lois R. Frothingham and Helen W. Wright, and one brother, Alexander Wright, of California.

HENNESSY—Michael Hennessey, aged 13 years, died this morning at St. Joseph's hospital, Providence, R. I., after a short illness. He leaves a wife, Mrs. Mary Hennessey, and one sister, Mrs. Kennedy. The remains will be removed to the funeral parlors of Undertakers M. H. McDonough Sons.

BIRD—Henry R. Bird, the well known chief for the Fairbairn company, died early this morning at St. John's hospital after a short illness. His body was taken to the chapel of Undertakers Charles H. Molloy's Sons in Market street and later to his home, 166 Smith street. He was a very well known and popular young man of this city and leaves a host of friends to mourn his loss. He is survived by his wife, Mrs. Catherine R. Bird, his mother, Mrs. Elizabeth Bird of Lowell, his father, Charles, of England, two brothers, Charles and William, and one sister, Miss Gertrude.

KARANIKOS—Antonios Karanikos, infant son of Spirida and Afrosia (Kritika) Karanikos, died this morning at the Lowell General hospital. The body was taken to the chapel of Undertakers James F. O'Donnell & Sons.

ABRAHAM—Fred Abraham, son of Joseph and Martha Abraham, died this morning at the Lowell General hospital, aged three years, four months. The body was removed to 26 Lorraine street by Undertaker Joseph Albert.

FUNERALS

PASS—The funeral services of Mrs. Mary A. Pass were held at the rooms of Undertaker W. Herbert Blake yesterday afternoon at 2 o'clock. Rev. Arthur G. Lyon, pastor of the Pawtucket Congregational church, officiating. Burial was in the family lot in the Boston cemetery, assisted by Rev. Mr. Lyon.

DUREN—The funeral services of Henry Duren were held at his home, in West Billerica, yesterday afternoon at 2 o'clock. Rev. Mr. Lyon, pastor of the Pawtucket Congregational church, officiating. Burial was in the family lot in the Boston cemetery, assisted by Rev. Mr. Lyon.

TRAINOR—The funeral of Margaret Dewire Trainor took place yesterday afternoon at 3 o'clock from the home of her grandparents, Mr. and Mrs. De- wire, Billerica street, North Billerica, and was largely attended by friends and relatives, many being present from out of town. The suddenness of the child's death and the many little playmates among the friends of the family, throughout this community as well as among the friends of the family. The remains were taken to the funeral home of Undertaker W. Herbert Blake.

ROCHA—The funeral of Josie T. Rocha took place this morning at 10:30 o'clock from the funeral parlors of M. H. McDonough Sons in charge. Undertakers M. H. McDonough Sons in charge.

GLANCY—The funeral of Miss Annie Glancy took place this morning at 8 o'clock from the funeral parlors of M. H. McDonough Sons in charge. Undertakers M. H. McDonough Sons in charge.

BUCKLEY—The funeral of William A. Buckley took place this morning at 8:45 o'clock from his late home, 14 Bartlett street, and was largely attended by friends and relatives. The funeral cortege proceeded to St. Patrick's church, where at 9 o'clock a funeral high mass was celebrated by Rev. Peter T. Line. The casket was borne by the following bearers: Messrs. John, James, Michael and Thomas Donlan, Martin Flynn and Bob Hinkley. Burial was in the family lot in St. Patrick's cemetery where the committal prayers were read at the grave by Rev. Fr. Linehan. Funeral arrangements were in charge of Undertakers O'Donnell & Sons.

DOVONAN—The funeral of Mrs. Margaret Donovan took place this morning at 9:30 o'clock from her home, 12 Claire street, and was largely attended by friends and relatives. The funeral cortege proceeded to St. Patrick's church where at 10 o'clock a solemn high mass of requiem was sung by Rev. Joseph A. Quinn, assisted by Rev. Francis Keenan, as deacon, and James O'Brien as sub-deacon. The church was well filled by a congregation representing all walks in life. Mrs. Donovan, who was the widow of Daniel Donovan, was well known and much respected throughout this city where she has resided for the past 43 years. Her death was a great loss to an ideal mother, will cause her memory to linger long in the hearts of many. Her casket was carried into church and to the grave by her six sons, John J. and Daniel C., both members of the police department; Eugene J., Jeremiah F., Dennis H. and David Joseph, the latter of the postoffice department. The choir, under the direction of Mr. Michael J. Johnson, rendered the Gregorian chant, the solos of the mass being sustained by Miss Frances Tighe, D. S. O'Brien and James E. Donnelly. Mr. Johnson presiding at the organ. There was a profusion of floral and spiritual offerings. The burial was in the family lot in St. Patrick's cemetery where the committal prayers were read by Fr. Curtin. The funeral was under the direction of Undertakers James F. O'Donnell & Sons.

HIGHLIGHTS OF FRENCH POLITICS

PARIS, Aug. 18.—The expected retirement of President Deschanel of France will probably be followed by the election of Premier Millerand (above) as president. Former Premier Briand (below) is slated to succeed Millerand as premier.

DROPPED DEAD

Samuel Roosevelt, Cousin of T. R. Was Noted Painter

NEW YORK, August 20.—Samuel Montgomery Roosevelt, artist and portrait painter, and second cousin of the late Col. Theodore Roosevelt, dropped dead in the Knickerbocker club here, yesterday.

Mr. Roosevelt was born in New York, July 20, 1863, and studied in Paris under Laurens and Constant. His works were exhibited in the Paris salon in 1910, and he was decorated by the French government in 1914.

Some of his paintings are "Meditation," "Winter," "The Firefly," "A Samoa Girl," "The Baths of Diana at Nimes," and "The Anarchist."

PARENTS BELIEVE SON MURDERED

WEBSTER, Aug. 20.—Believing that their son did not commit suicide, as the police reported, but was murdered for the large sum of money he always carried about his person, Mr. and Mrs. William Martin of Granite street have engaged a lawyer to investigate the facts surrounding the death of their son, Adolph Martin, in New Bedford on March 9, 1920.

At the time of the death of the young man it was reported by the police that he was found dead on the floor of his lodging house, that a gas jet was open and that the money he always carried about his person had been torn off and that the money it contained was missing.

The parents of the young man are deeply incensed at what they term the dilatory practices of the police and the indifference they are said to have shown in this case. They say that although the death of their son occurred five months ago information of the death did not reach them until two weeks ago.

The investigation conducted by the attorney engaged by the Martins has revealed that a man named Gendron is now serving six months in jail for the theft of money from Martin. Whether the larceny was committed before or after the death of Martin was not shown. Believing their son met with foul play the Martins have directed their lawyer to conduct a thorough investigation.

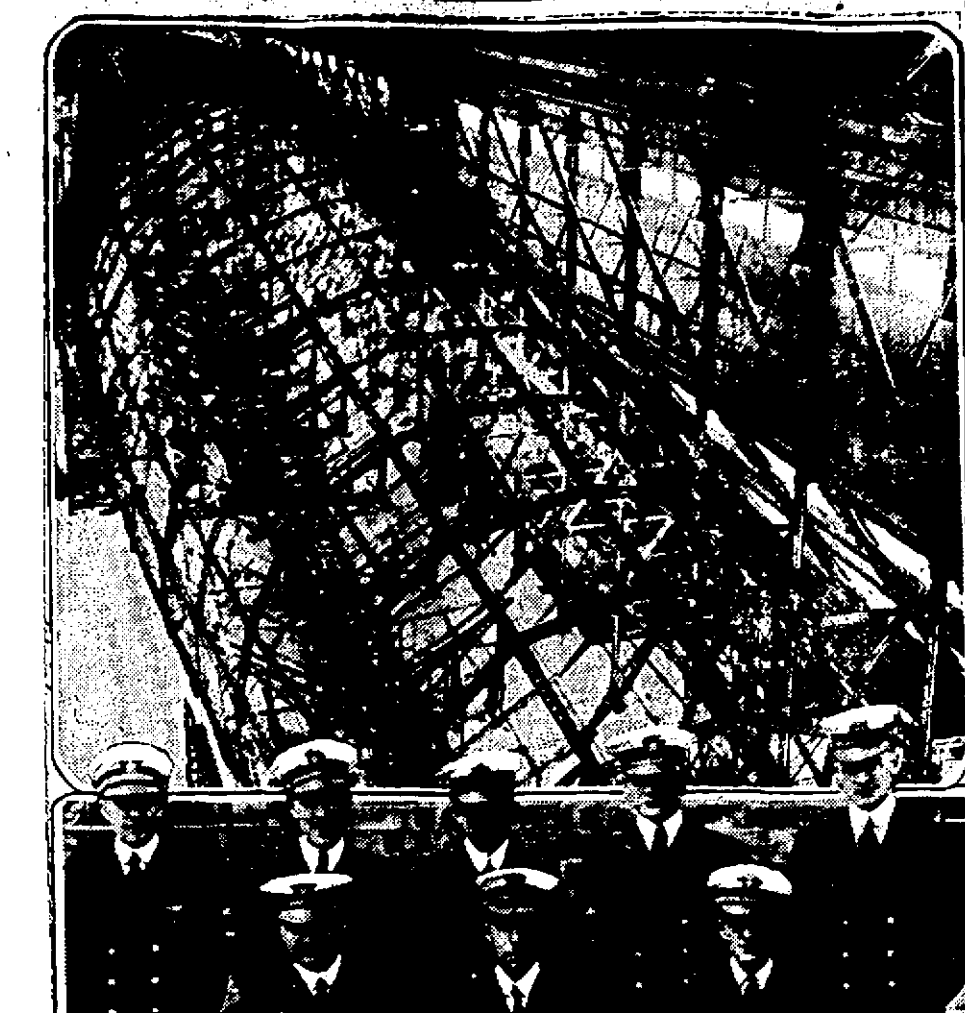

FUNERAL NOTICES

HENNESSY—Died Aug. 20th, Michael Hennessey, at St. Joseph's hospital, Providence, R. I. Funeral Saturday morning at 8 o'clock from the funeral parlors of M. H. McDonough Sons. High mass of requiem will be sung at St. Peter's church at 9 o'clock. Burial will take place in St. Patrick's cemetery. Undertakers M. H. McDonough Sons in charge.

BRADY—Died Aug. 19th, Mrs. Mary M. Brady, at the home of her sister Miss Sabra Wright, 122 Pawtucket street. Funeral services will be held at the Mount Auburn cemetery chapel at the convenience of the family. The funeral arrangements are in charge of Undertaker George W. Healey.

BIRD—The funeral of Henry R. Bird will take place Monday morning from his late home, 166 Smith street. There will be a funeral mass at St. Patrick's church, time to be announced later. Burial will be in St. Patrick's cemetery. Undertakers M. H. McDonough Sons in charge.

IN MEMORIAM
In memory of William H. O'Hara, who died August 24, 1918. Gone but not forgotten. R. I. P. by his wife and sisters.
sons, John J. and Daniel C., both members of the police department; Eugene J., Jeremiah F., Dennis H. and David Joseph, the latter of the postoffice department. The choir, under the direction of Mr. Michael J. Johnson, rendered the Gregorian chant, the solos of the mass being sustained by Miss Frances Tighe, D. S. O'Brien and James E. Donnelly. Mr. Johnson presiding at the organ. There was a profusion of floral and spiritual offerings. The burial was in the family lot in St. Patrick's cemetery where the committal prayers were read by Fr. Curtin. The funeral was under the direction of Undertakers James F. O'Donnell & Sons.

Front row (left to right): Lieutenant W. R. Taylor, Commander L. H. Maxfield, in charge of the party, and Lieutenant Charles Gray Little. Back row (left to right): Lieutenant J. B. Lawrence, Lieut.-Com. V. N. Bles, Lieutenant J. G. Pennoyer, Lieutenant J. H. Kyger and Lieutenant J. C. Lough.

ENGLAND BUILDS "KING OF THE AIR" FOR U. S.

BY MILTON BRONNER, European Manager N.E.A.

CARDINGTON, Bedford, England, Aug. 17.—They are you with a special pass from the air ministry and with another issued by Commander C. I. Campbell, in charge of the royal airship workers here. Then they take away your matches and tobacco and furnish you with rubber goloshes to put on over your shoes. Then you step within a building as big as a railroad shed.

And you are standing close by the framework of the R-35, the last word in rigid airships, which the British are building for the United States.

A Huge Airship

This monster of the air is huge beyond the wildest vision. Looking up five or six stories, you see men, swarming like flies, putting finishing touches to some riveting.

Down the building you see a tremendous vista of lacelike girders. They are too small for a bridge or a ship, but are capable of tremendous strain. They are made of "duralumin" which consists mainly of aluminum, but also contains silicon, manganese, copper, magnesium and iron.

The girders form the rigid part of the airship. Into each section there will be fitted an immense sag bag and there will be 23 of these in all, each one independent of the others.

At the forepart of the ship, there

will be a big control car where the commander and his assistants will be. They will have levers which control the rudders of the ship, the gas supply, the water ballast, the wireless telegraph, etc.

Six Engine Cars

At intervals, on both sides of the craft will be swung six engine cars. One man will be on duty in each, and he will have charge of a Sunbeam engine of about 350 horsepower which will run a powerful set of propellers. Each car will have its own oil tanks and gas supply.

If anything happens to one or two of the engines, the others can still be on the job.

On the rear of the ship are the four tremendous rudders and guldies. They are 40 to 50 feet in length. There will be a runway from directly over the control car past the engine cars and back to the rear. On each side of this will be slung the sleeping quarters of the crew.

The ship is 635 feet long, has a diameter of 55 feet, lifting power of 52 tons. This means she will lift 50 tons beside her own weight. Gas bags will have a capacity of 2,750,000 cubic feet of hydrogen gas.

The maximum speed is estimated at 70 miles an hour. Her economic cruising speed will be about 60 miles. She can take 160 men or 23 1/2 tons of freight for 1000 miles; 104 men or 13 tons of freight for 2000 miles, and 47 men or 6 1/2 tons of freight for 3000 miles. As the ordinary crew would not exceed 26 to 30, the ship could take a few visitors along.

Officers in Training

She will not be ready to turn over

to the American government until late next fall or early next spring. And before she sails for America she will be thoroughly tested over here.

And, in the meantime, American officers and petty officers in the aviation branch of the United States Navy, are going to an airship training school in Howden, England. They are the ones who will sail the R-35 to America some day.

The party under the charge of Commander L. H. Maxfield, at present consists of 10 officers and 20 petty officers. All of them have had actual experience in the flying branch of our navy, but none of them ever handled a rigid airship.

They are finding out that the handling and caring for a huge liner of the air is a job of many angles. They are getting lectures on aerostatics, aerodynamics, meteorology, navigation and the handling of ships, both in the air and on the ground.

It is expected that by the time the R-35 is ready to be taken to America, our men will know enough about her to be ready to build an airship themselves, after it has been designed by naval constructors.

American Colony

At the big air base at Howden one portion of the grounds has been turned over to our men and they have real American comfort. The whole force is lined up for inspection by Commander Maxwell, just as if they were the officers and crew on board a destroyer.

And all of the Americans are anxious for the day when they set sail for home—via airship!

Two Men Lived on Sea Weed Five Days

NEW YORK, Aug. 20.—Two French fishermen, who had been picked up at sea after being adrift for twelve days, were brought here yesterday by the American steamship Mazama, from London, which rescued them.

The men, Thomas Constant and Raphael Goger, put out in a dory from their vessel, the Glycine of St. Servan, France, and became lost in a fog. When the Mazama sighted the dory 300 miles east of here a week ago today, the men were lying in it half dead. After they were taken on board the American freighter and revived they said they had eaten only seaweed for five days.

Four members of the engine room crew of the Mazama were in irons when she arrived. They were charged with having assaulted one of the engineers and were taken off the ship by a police boat.

NORWAY BANS LUXURIES

CHRISTIANIA, Aug. 20.—Importation into Norway of articles of luxury such as automobiles, diamonds, furs, paintings, pianos and phonographs is forbidden by a government order, effective yesterday. The list also includes silk, jewelry, watches, furniture, furs, patent leather shoes and motorcycles. The action was taken in order to halt the decreasing value of Norwegian money, largely caused by overwhelming imports while exports declined. American trade is thereby restricted, as the greater part of the articles named have been imported from America.

The high dollar rate had already restricted the purchase of American goods. The rate today was 6.57 kroner to the dollar as against the normal rate of 5.72.

A frontage on Broadway, New York, near Forty-fifth street, measuring 1/2 foot, 5 1/2 inches, has been sold for \$49,000.

Only 23 states and the District of Columbia now keep birth records complete enough to admit them to United States birth registration area.

PEGGY MARSH'S SON, WHO MAY BECOME MILLIONAIRE

This photo of Little Henry Anthony Marsh, son of Miss Peggy Marsh, the actress, and the late Henry Field, has just reached America from London where the boy is living with his mother. Miss Marsh has put in a claim of millions of the estate of the late Marshall Field, Chicago merchant, for her boy. Henry Field, who died recently, was a son of the merchant prince. Miss Marsh, below, is appearing in a London show. The will fight is still on in Chicago.

SUN BREVITIES

Lydon for best catering. Tel. 4924.

Best printing, Tobin's Associate's bldg.

Fire and liability insurance, Daniel J. O'Brien, Wyman's Exchange.

The Misses Lixie Cyr and Etta Cox will spend the next two weeks at Langford's hotel, Hampton beach, N.H.

Prof. Leonard Galloway, the well known local ventriloquist, is about to leave for a trip to California.

Mr. and Mrs. Eugene Queenan and son Russell are spending the week at the summer home of Mr. and Mrs. Henry McDonald at Annisquam, Mass.

Arthur Roux, of this city, enlisted at the local navy recruiting station this morning as a machinist's mate, second class, and was forwarded to Boston.

Among the Lowell people registered as guests at Hotel Ashworth, Hampton beach are the following: Miss Anna Galvin, Margaret T. Benson, Mr. and Mrs. M. W. Halloran, Joseph S. Galvin, Rev. William Noonan, O.M.E., Miss Hilda Noonan and Miss Loretta Noonan.

Thousands Pay Final Tribute

Continued

most popular ball players in the country. Seats had been reserved for the immediate relatives, Chapman's intimate friends and the newspaper writers, and the public was admitted to the rest of the church.

Mayor W. S. Fitzgerald, B. B. Johnson, president of the American league and James C. Dunn, president, and the entire Cleveland team were at the services. Three of the Cleveland team, Manager Tris Speaker, Steve O'Neill and Joe Wood, were among the pallbearers.

Messages of condolence and sympathy from all parts of the country were still being received this morning.

300 Floral Offerings

More than 300 floral offerings were sent by friends, among them being an immense floral blanket, a tribute from 20,000 persons—men, women and children—who contributed 10 cents each to a "flower from a fan" fund, each dime to buy one flower.

The blanket contained 2063 flowers. The remainder of the money in the fund will be turned over the "Ray Chapman Memorial fund" to erect a bronze memorial tablet at League park.

MATRIMONIAL

Mr. Edward Joseph Paradis and Miss Emilia Berube, both of Lowell, were united in marriage last evening at the home of Mr. Harold B. Haskell, 21 Tucker street. The ceremony was performed at 8 o'clock by Rev. Arthur W. Shaw, curate of St. Anne's Episcopal church. The attendants were the bride's mother, Mrs. Cleo Berube, and Mr. H. B. Haskell. Many relatives and friends were present at a wedding supper served immediately after the ceremony. After a honeymoon trip to Montreal, Canada, Mr. and Mrs. Paradis will make their home in this city.
